Lenovo's new netbook will run on the new Intel Atom N280 processor, GN40 chipset and use Windows XP operating system. Machine cost about 586 USD.

Currently on the market, Chinese manufacturers have S9 (8.9 inch) and S10 (10.2 inch) models. Its netbook is appreciated by its beautiful design, good price.

Dell is a pioneer in expanding netbook screens with Mini 12, bringing this product closer to the threshold of ultraportable models.
