### **Samsung DeX**

Samsung DeX is considered one of the most useful accessories for the new generation of Samsung S phones. This device allows users to make the most of the powerful hardware of two S8 products and turn them into a Desktop interface on a PC.

Recently, Samsung has partnered with Microsoft to bring many features as well as software such as Office packages, Adobe Acrobat Reader and Lightroom to support the Windows interface for mobile devices.

Samsung DeX owns 1 HDMI port, 2 USB ports, 1 USB-C charging port. Currently there is no official information on the release date, but there are rumors that the product will cost about US \$ 150 (approximately 3 million VND 400,000).

## **New generation 360 gear**

The new generation of Gear 360 has more convenient design and eye-catching design than the older generation.

Samsung's new-generation Gear 360 can support 4K video recording, and it also enables users to live-stream live on YouTube and Facebook in 2K format. The device's camera is also compatible with more Samsung devices, but it also supports iPhone phones.

Refer:

2. How to play videos directly on YouTube from Android phones and iOS devices

The launch time is expected in the spring of this year. There is no specific pricing information yet, but Samsung said it will be cheaper than the previous generation 360 Gear.

## **New generation Gear VR and removable control device**

Samsung's new generation Gear VR this time has a very different design for previous generation Gear VR. The only difference in design that can be mentioned is probably just a slight adjustment of the size to match the new Galaxy S8.

However, with this new generation Gear VR, this is a portable, discrete control device that makes it easier to support user control and experience. These two products were announced by Samsung at the MWC global mobile exhibition earlier, but today Samsung has just released the price and release date of these two products. Specifically, Gear VR and control equipment will be released on April 21 at a price of US \$ 129.99 (approximately VND 3 million) and US \$ 39.99 (approximately VND 900,000). ).

## **Samsung Connect Home Wifi system**

In addition to producing excellent phone and TV products, Samsung is also able to produce useful applications and products to improve the quality of life. Typically, the new Wifi system product is called Samsung Connect Home.

Basically, this system will consist of 3 routers supporting each other as a network. Specifically, the system will use a router to transmit Wifi waves, while the other two routers will receive and amplify Wifi waves from the other device to cover the entire house. Not only that, this system also allows users to control all Samsung devices as well as other smart utility applications inside their homes with just one application inside the mobile phone.

This system will have 2 versions. Samsung Connect Home version and Samsung Connect Home Pro version. Price and release date of this Wifi router system has not been announced by Samsung.
