

Incredibly beautiful boys from Avengers: From Thor, Captain to Iron Man to 'bald' still look very attractive

Incredibly beautiful boys from Avengers: From Thor, Captain to Iron Man to 'bald' still look very attractive

For a while, FaceApp was a heavily downloaded app on both the App Store and Google Play. Especially at that time, Instagram or Twitter users, from ordinary people to famous people you care about, posted their rather strange photos. It turned out that these photos were taken through an application called FaceApp.

FaceApp is known as a photo editing application using artificial intelligence that has caused a worldwide fever. Although the FaceApp application was launched in 2017, after many updates and changes made FaceApp more and more realistic, photos look more realistic to make it a hot application.

With FaceApp wants to create difficult photos become extremely simple. For example, did you ever think about how the Marvel Avengers would be shaved? Maybe yes but I don't think I'll be able to see it. But now with FaceApp, the famous Marvel cast has really shook off their glamorous hair and showed a smooth head!

Check out the series of photos below!

Robert Downey Jr.

Chris Evans

Chris Hemsworth

Jeremy Renner

Mark Ruffalo

Sebastian Stan

Tom Hiddleston

Chris Pratt

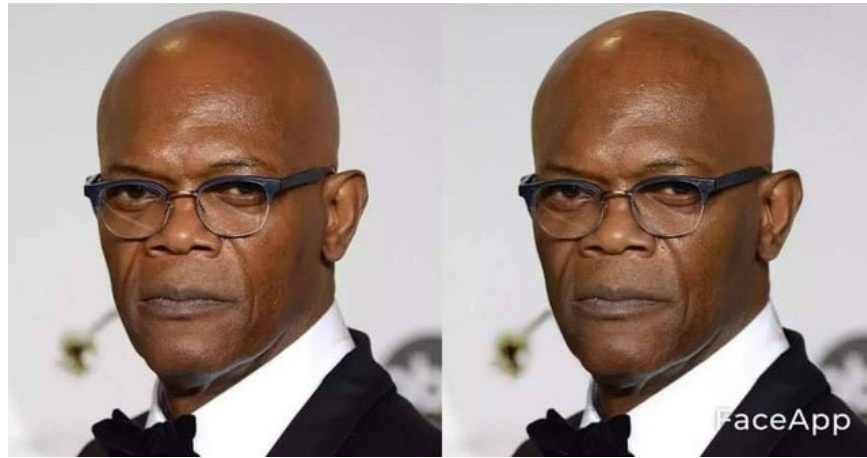

Chadwick Boseman

Benedict Cumberbatch

Tom Holland
