Mr. Tony Zhao, General Director of Infinix said: 'HOT 50 Pro+ is a comprehensive combination of stylish design with the world's thinnest 3D curved edge and solid durability with Titan Armor Protection technology. This meets the needs of users with a modern lifestyle, who love new adventures with demands for both aesthetics and performance as the slogan WOOW, NEW HOT that Infinix aims for in this product'.

Titan Wing Architecture: World's thinnest design with breakthrough durability

Infinix introduces the innovative TitanWing architecture on the HOT 50 Pro+, combining the world's thinnest 6.8mm curved screen design with superior durability. This advanced technology features a FeatherLight Wing-Like SlimEdge structure for optimal slim design. The TitanWing structure reduces the size of internal components by 24%, maximizing space for a high-density battery. In addition, the ultra-thin speaker with top quality also enhances sound quality while still meeting the slim and aesthetic design.

Titan Armor Protection redefines durability with the HOT 50 Pro+ using the Helio G100 Chip, delivering powerful performance. The product is certified for 5 years of durability by TÜV SÜD along with the ability to limit dust and water splashes with IP54. At the same time, the HOT 50 Pro+ also impresses with its sensitive touch even when hands are wet or greasy, ensuring perfect touch in unfavorable conditions. The HOT 50 Pro+ has a 5000mAh battery, combined with 33W fast charging and 3 charging modes: Fast Charging, Smart Charging and Low Temperature Charging. Battery life is guaranteed to last up to 4 years.

Enhance gaming, photography and multitasking

For gaming enthusiasts, the HOT 50 Pro+ offers up to 16x super touch and supports 90fps settings for Free Fire. In addition, with anti-mistouch and 2,160Hz instantaneous touch sampling rate, gamers experience the game faster and more accurately. Features such as floating windows, memory cleaning and call rejection also help gamers' gameplay more seamless.

HOT 50 Pro+ is equipped with a 50MP rear camera, 2MP macro lens and 13MP front camera to ensure clear photos. Advanced AI features such as Night Mode, Face Detection, Voice Capture... also bring enhanced shooting experiences and detailed photos even in low light or on the go.

Infinix AI ? : The innovative and intelligent all-round assistant

HOT 50 Pro+ integrates advanced AI features, including: AI Q&A excels in summarizing content and extracting information quickly. The focus of Infinix AI is Folax, an innovative AI assistant, providing hands-free voice control for tasks such as playing music, making calls, updating information, etc. In addition, features such as Live Texts, extracting image data information; Magic Create, a creative assistant; Visual Look Up, learning about tourist attractions, etc. help enhance the creative experience. Tools such as AI Eraser, AI Photo Crop also bring convenience and impressive upgrades in everyday tasks.

The product is launched with 3 color versions including: Cosmic Black, Galaxy Purple, Titan Gray with 8+8GB/256GB memory capacity. In addition, Infinix also offers the HOT 50 version with the same memory capacity and using Helio G100 chipset, with 4 colors: Cosmic Black, Galaxy Purple, Titan Gray and Halo Blue.

Currently, users can refer to and shop at e-commerce channels Shopee, Lazada, TikTok Shop or CellphoneS and Hoang Ha Mobile from January 10, 2025 with extremely attractive prices.
