

Information 5 new Universe will be present in the Arena of Truth season 3

Here is detailed information about the Universe / Galaxies that may appear in the Arena of Truth 10.7.

Riot Games is bringing a complete overhaul with DTCL Season 3 generals, DTCL Season 3 clans and new equipment as well. And when gamers still do not know all the information about what is coming in the updated Arena of Truth 10.6 coming here, there is information about the next update, the Arena Arena version 10.7.

In this new version, you will witness some more attractive features. For example, players will start to enter the arena with 2 Help from Neeko, or the first general selection round will be filled with 4 gold champions . Specifically, all you have in DTCL 10.7 will be located down here.

Information 5 New Universe in Truth Arena 10.7 coming

Riot Games is planning to add more clans and new features to the upcoming DTCL Season 3. But we will have to wait until DTCL 10.7 to have these more attractive features. The most unfortunate is that we have not been able to experience the special maps with the characteristics of this season 3, they are expected to be released in two versions DTCL 10.7 and DTCL 10.8.

According to information shared by Riot Mortdog, there will be 5 universes (or galaxies) supporting your squad. These universes have unique characteristics including:

1. Neeko Universe: At the beginning of the game there will be 2 Neeko, too good to smash into champions. Remember to let Neeko copy for the main carry champions.
2. Lilac Nebula Universe (Purple Smoke): The first general selection round will be 4 gold champions, true purple Tier 4.
3. Trade Sector Universe: During the game, each champion's roll will not lose gold.
4. Universe Superdense Galaxy (Super Weight): After reaching level 5, you will receive 1 Nature Armor.
5. Not So Little Legend's Universe: The gamers' blood will be bigger than before and the size of the summoned beasts will be increased.

If you select one of these universes, the track bar will display an icon corresponding to the selected universe / galaxy.

It is not clear how these Galaxies / Universe were chosen. But maybe it's like you choose URF or One For All mode like in League of Legends.

Above is the initial information about the Cosmic modes that may appear in the Arena of Truth version 10.7. Although there are only a few small changes, it will completely change the tactics and the game.
