Currently, there are many online photo editing websites that help you quickly insert text into images. You do not need to install any software on your computer, you can insert text into photos easily to have meaningful photos to use.

The following article will guide you how to insert text into images online with [pixlr.com](https://pixlr.com) photo editing website.

**Step 1:** You access the website <https://pixlr.com/editor/>.

**Step 2:** The first interface appears, select the images to insert text by clicking one of the three options on the interface:

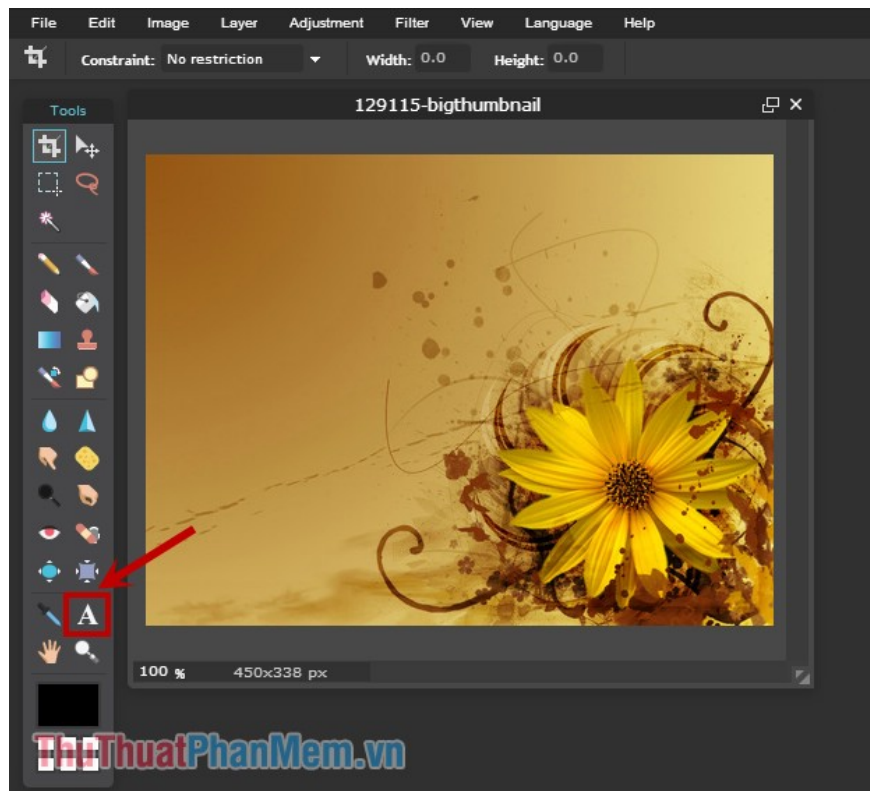

**Open image from computer:** open the image from your computer.

**Open image from URL:** Open image from URL.

**Open image from library:** Open images from Pixlr library, Facebook or other libraries.

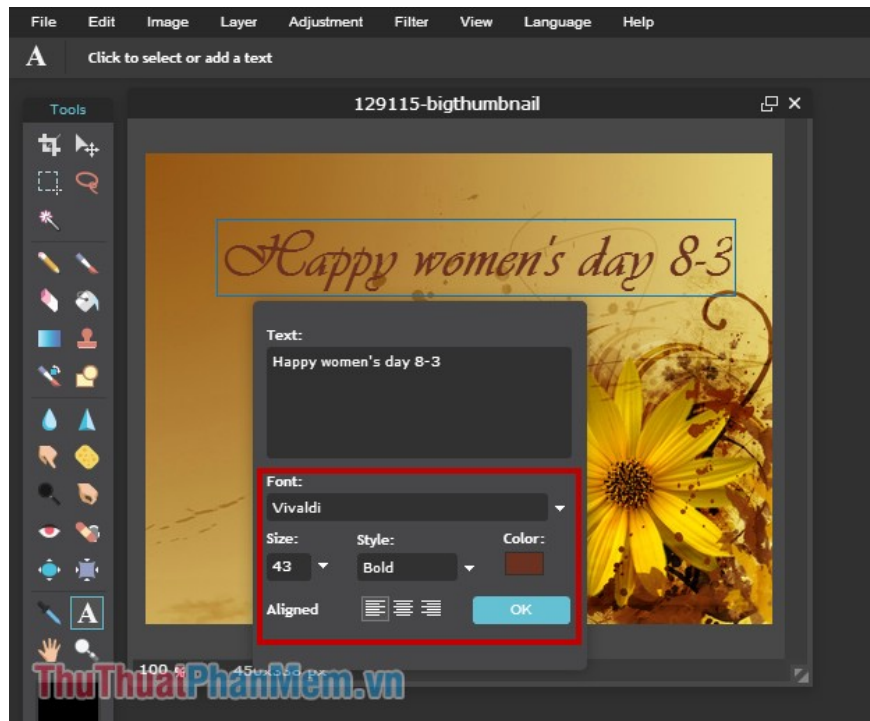

**Step 3:** After selecting the image, the image will be displayed on the interface, select the A icon in the left toolbar.

**Step 4:** Next, click the left mouse button on the position you want to insert text on the image. On the image that appears, enter the text you want to insert into the **Text** box .

You can edit the font in the **Font** box , the **font** size in the **Size** box , the type in **Style** and the font color in **Color** . You can also align the text position on the image in **Aligned** . Then you click **OK** to finish.

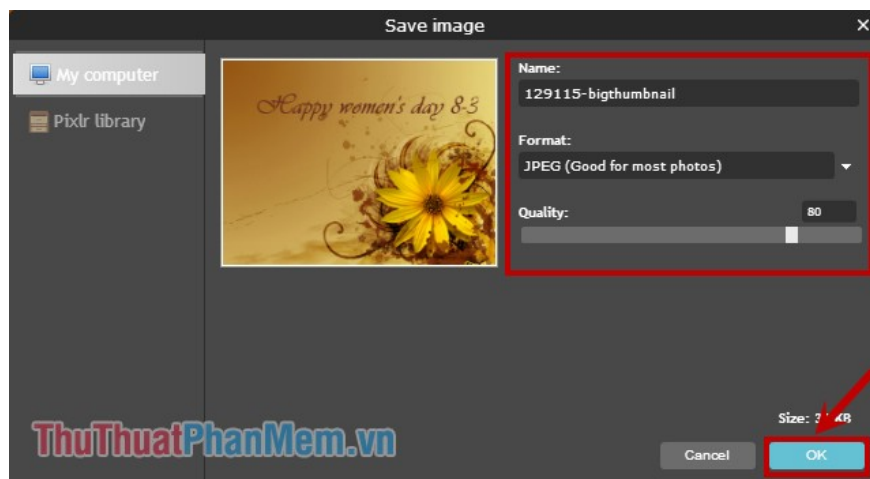

**Step 5:** Save the image.

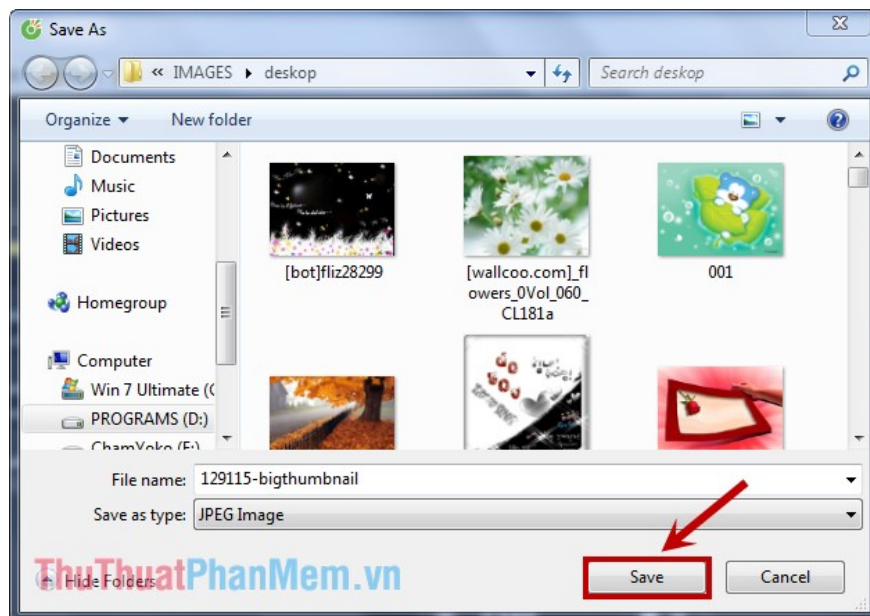

On the menu bar, select **File** -> **Save** (or **Ctrl + S**).

The **Save image** dialog box appears, enter the image name in the **Name** section , format the image in the **Format** section , and quality in the **Quality** section . Then click **OK** .

Continue to appear **Save As** dialog box you choose where to save the path on the computer and click **Save** to save the image.

So you have inserted the text into the image online quickly. Good luck!
