## Instructions for booking Grab car using Google Maps

**Note:** Instructions in this article are made on Android devices, you can use iPhone to do the same to proceed with Grab car by Google Maps.

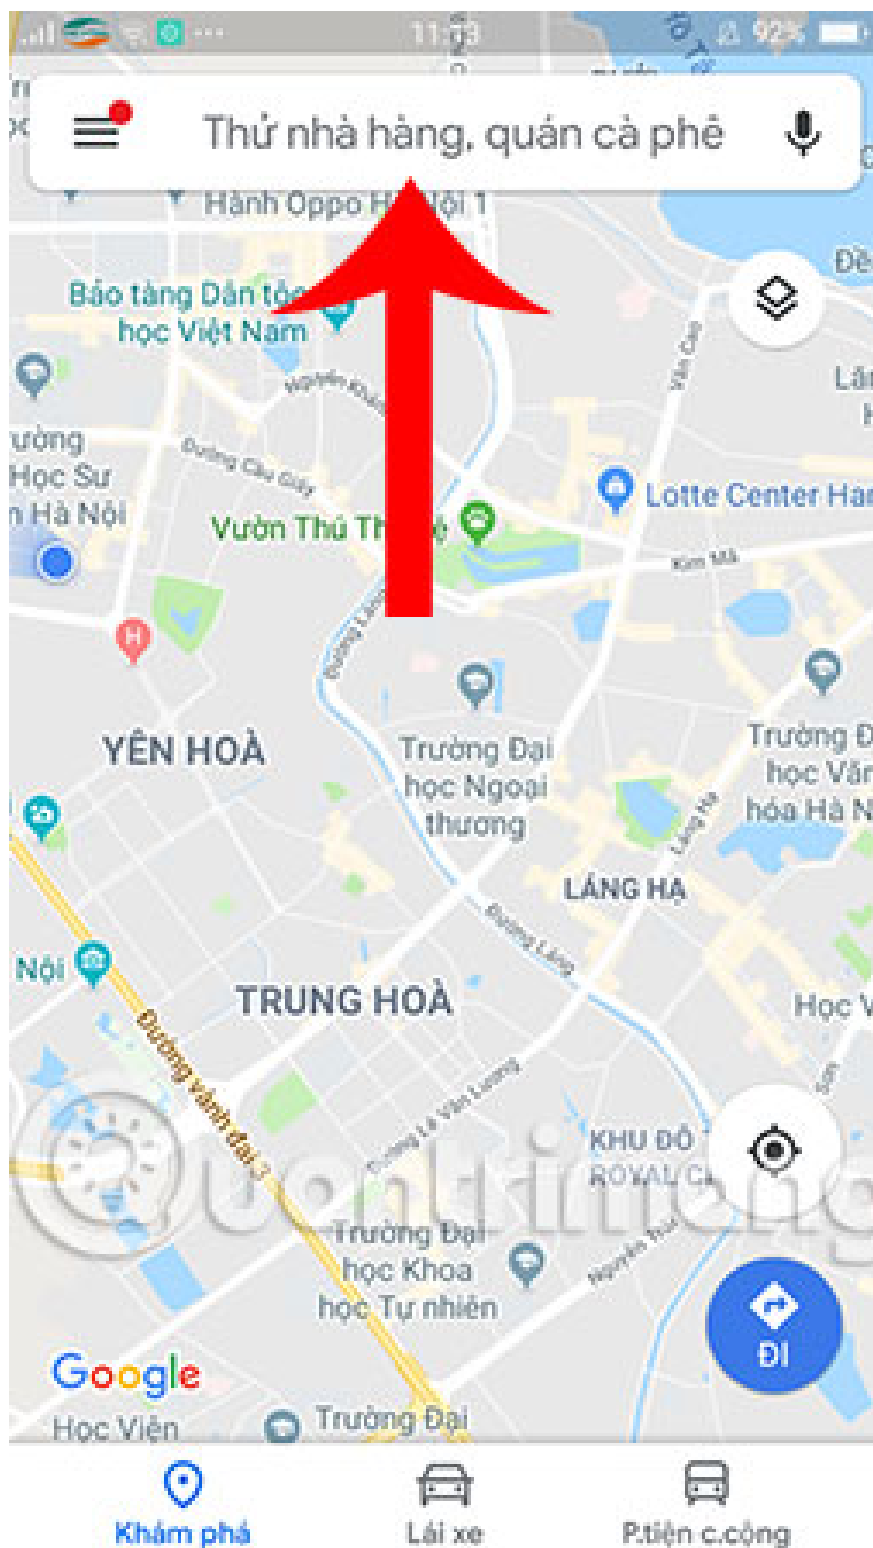

### Step 1:

First of all, you need to install or update the Google Maps application to the latest version here.

1. Download Google Maps for Android
2. Download Google Maps for iOS

### Step 2:

Open the Google Maps application to access the main interface of the application. Here, click on the **search** box and **enter the desired address** .

**Step 2:**

After completing the location selection step, click on **Directions** . Immediately, Google Maps displays the distance, means and travel time. Click on **the catch icon** on the list to select Grab vehicle.

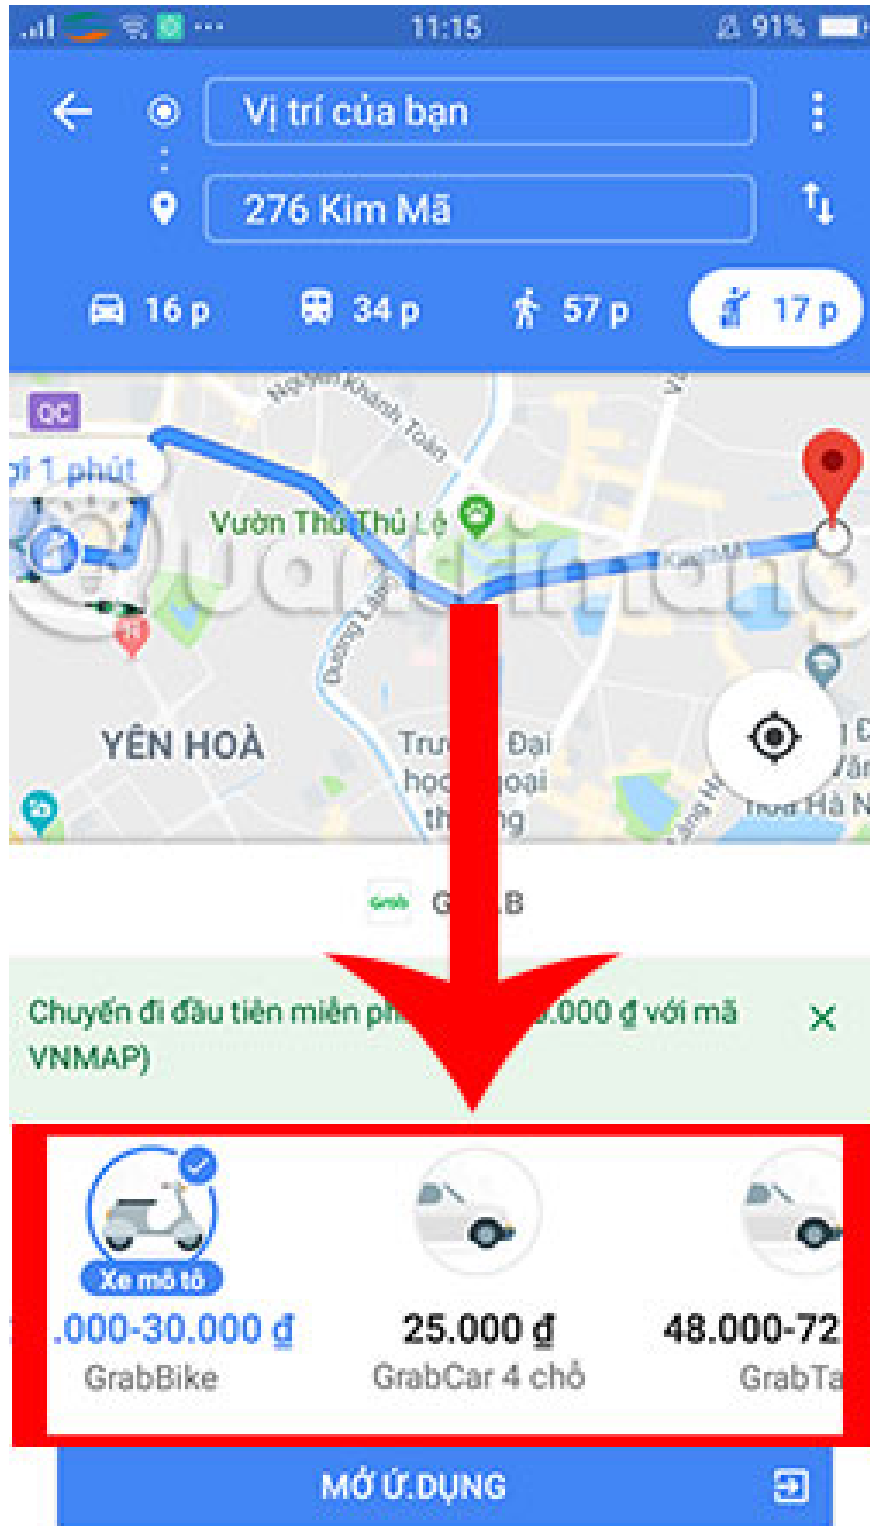

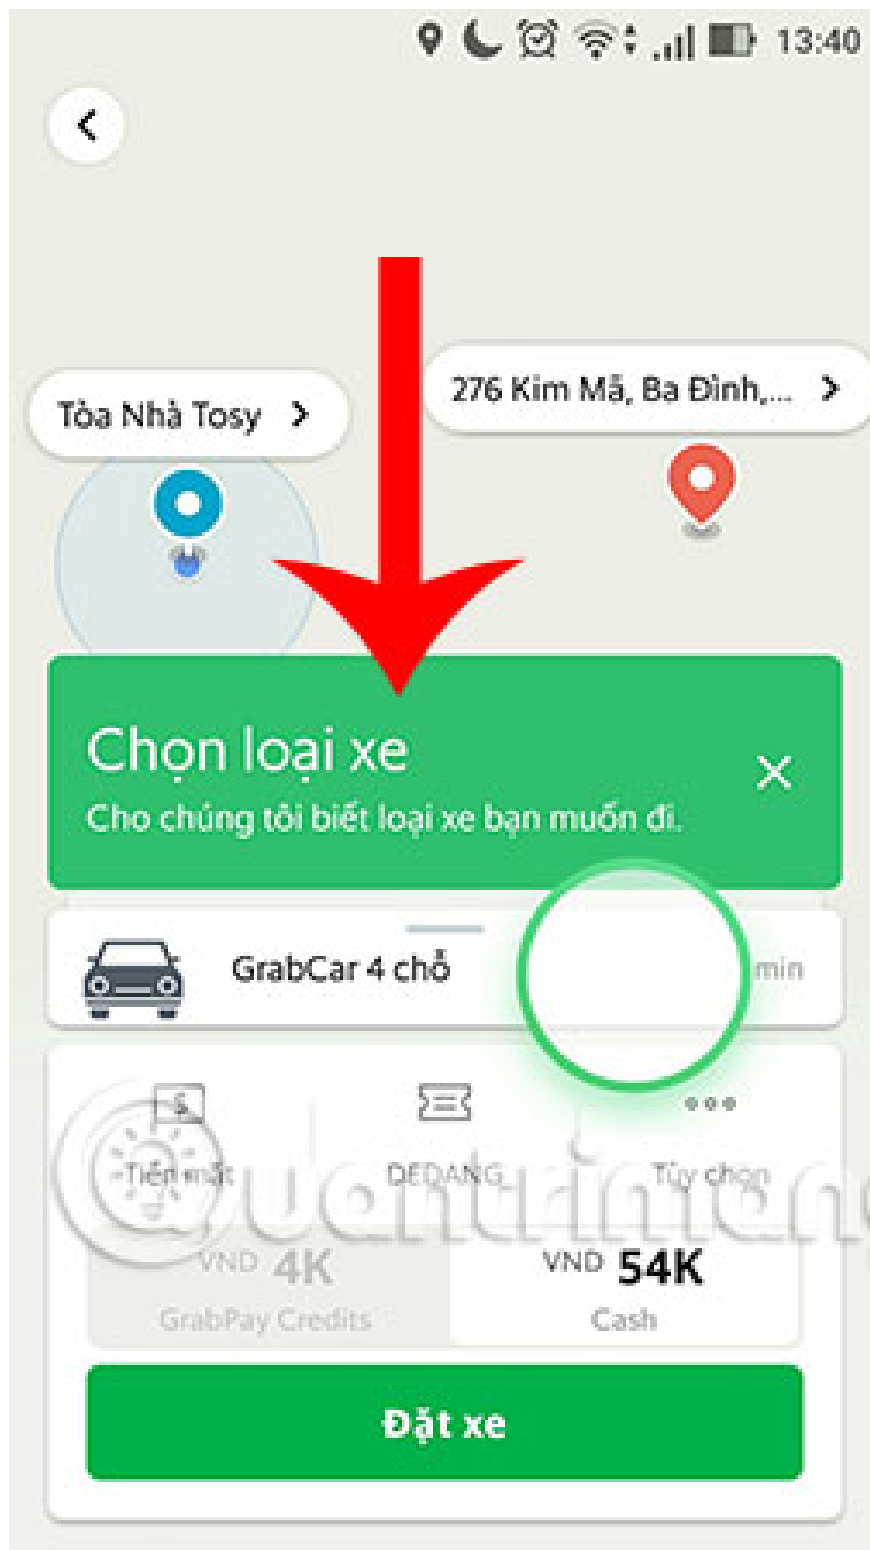

### Step 3:

Transportation options include **4-seat Grab Car** , **Grab Bike** and **Grab Taxi** . Now select the media you want to move and click **Open the app** below to link to Grab. If you don't have the Grab app on your phone, download it using the link below.

1. Download Grab for Android

## 2. Grab download for iOS

After that, Google Maps will switch to the Grab application, where you can also re-select the media you need to move. Finally, click **Order car**, Grab will automatically find the nearest driver for you.
