

Instructions for buying games on Steam

Steam is currently one of the largest online copyright game distributors, with many games sold on Steam.

For gamers who regularly download games on computers, Steam will be known. This is the second largest copyright game distribution platform today, along with Origin, Uplay, . Steam owns many titles of rich and diverse game genres for users to download to the computer.

When buying games on Steam will be saved to reload the game to the computer, when you reinstall Steam. Especially with games that support Steam Cloud will save the game process, or save files on cloud storage. So how to buy games on Steam? The following article will guide you how to buy games.

1. How to buy Steam games in the most economical way
2. How to install Steam in Ubuntu
3. How to optimize Steam download speed in Windows 10

How to buy copyright games on Steam

1. Download the Steam software for free
2. Download Steam for Mac

Step 1:

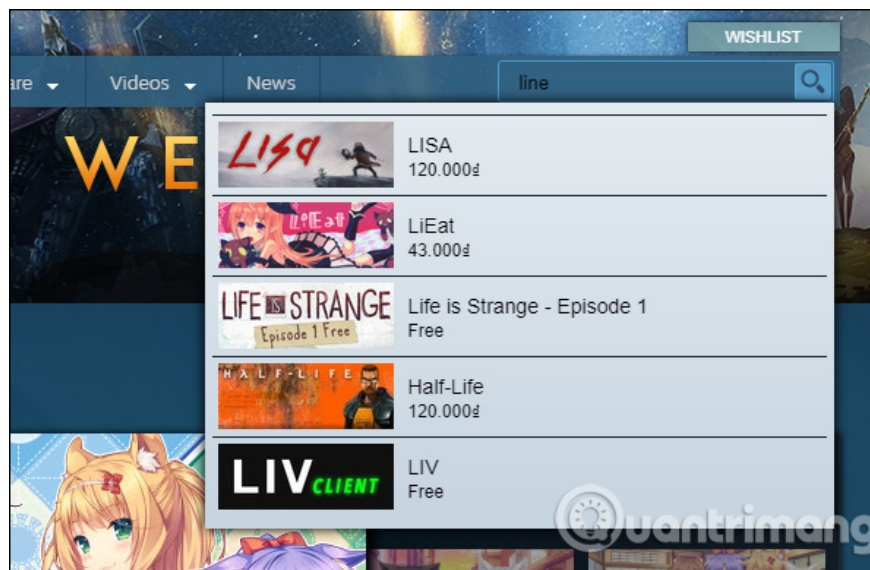

You can access Steam's website by following the link below and then log in to your Steam account. How to register for a Steam account you read in the article How to register a Steam account on your computer ?.

1. <https://store.steampowered.com/>

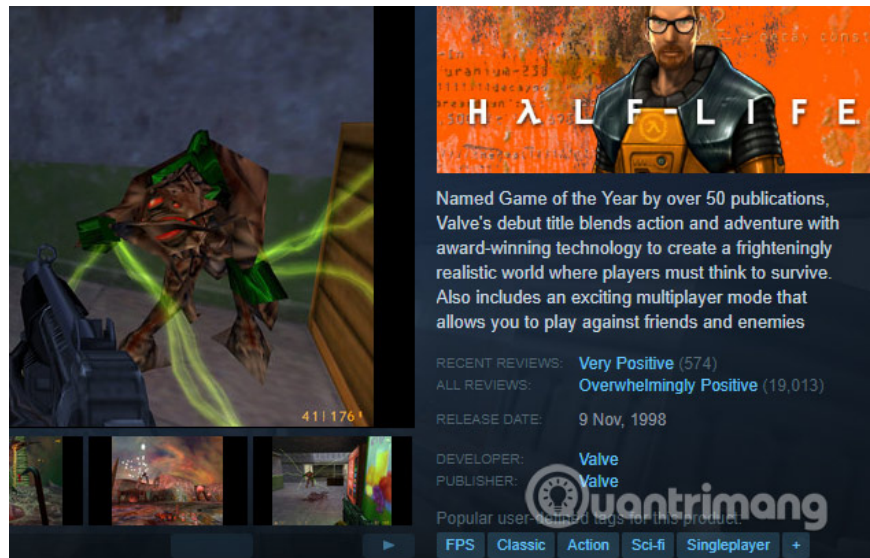

Step 2:

After logging in, find the game you want to download by typing the name into the search box. When displaying mouse click to enter the game interface.

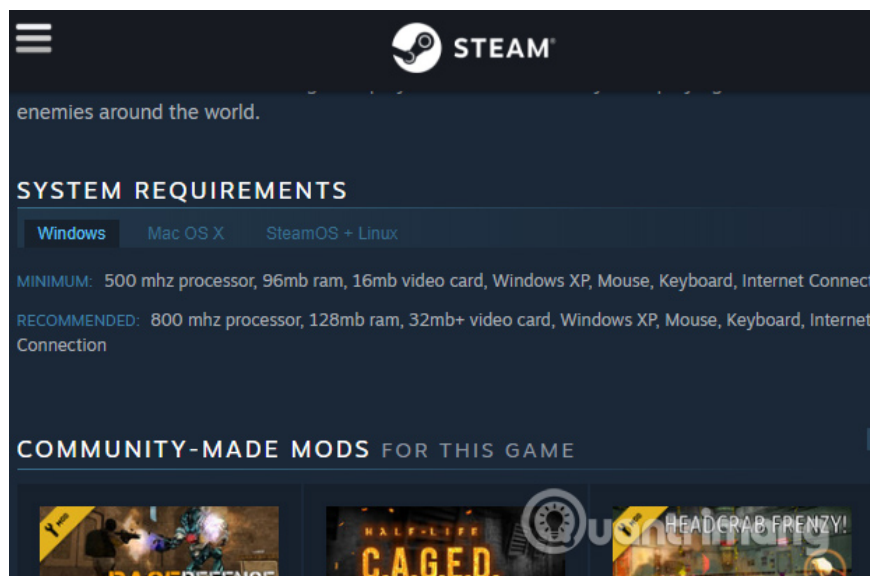

Step 3:

In the game page, users will see specific information about the game such as genre, release time, game content, images and introduction videos.

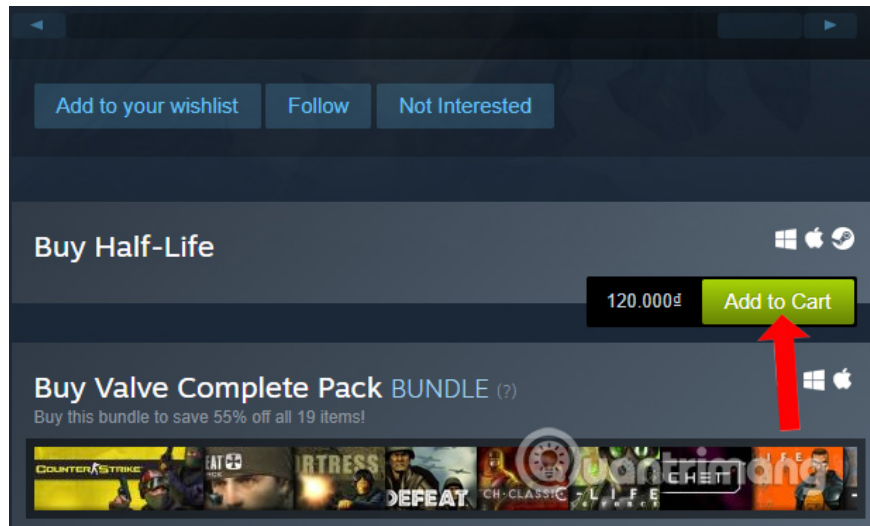

Note in the information section of the game, please pay attention to the **part of the bridge needed to install the game** . The website will provide full information on the required configuration and minimum configuration for installing games on different operating systems, if any.

Step 4:

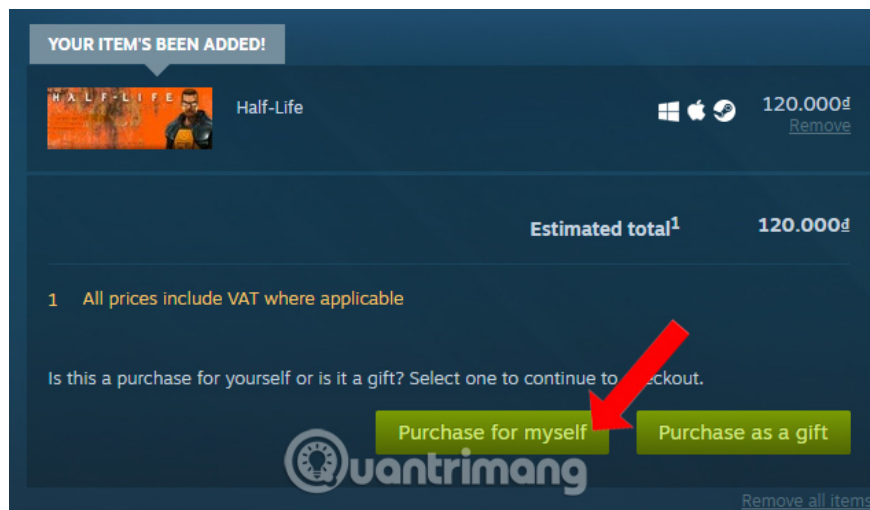

To buy a game click on **Add to Cart** .

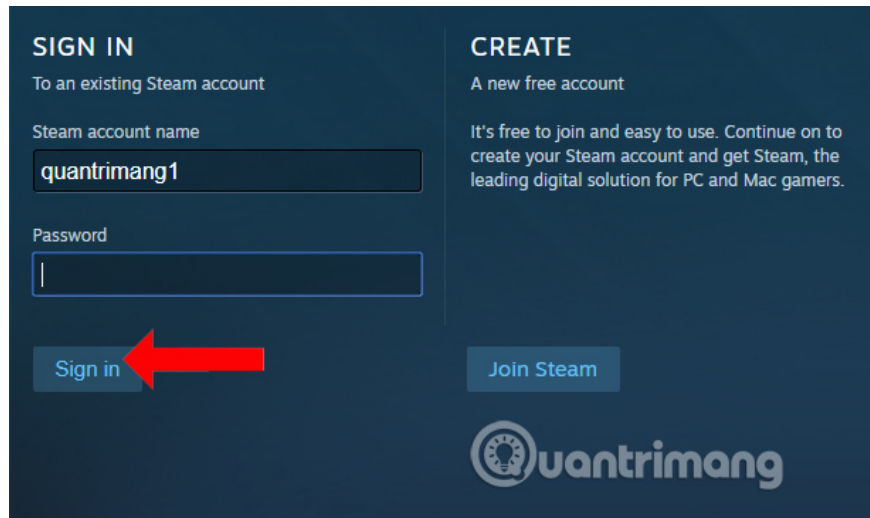

Step 5:

After adding the game to the cart, we will be redirected to the Your Shopping Car interface with 2 different options, buy games for Purchase for myself and buy others (Purchase as a gift).

Click **Purchase for myself** to download the game to your personal account.

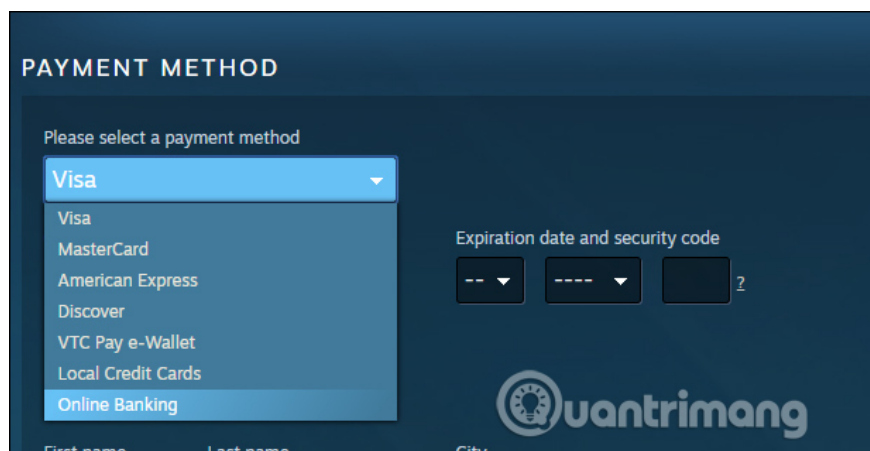

Next, the system will ask the user **to re-enter the password** to verify that it is you, click Sign in to login.

Step 6:

At the interface of payment method selection, the Payment Method section you click on the game payment method. You can choose one of the payment types you want to use.

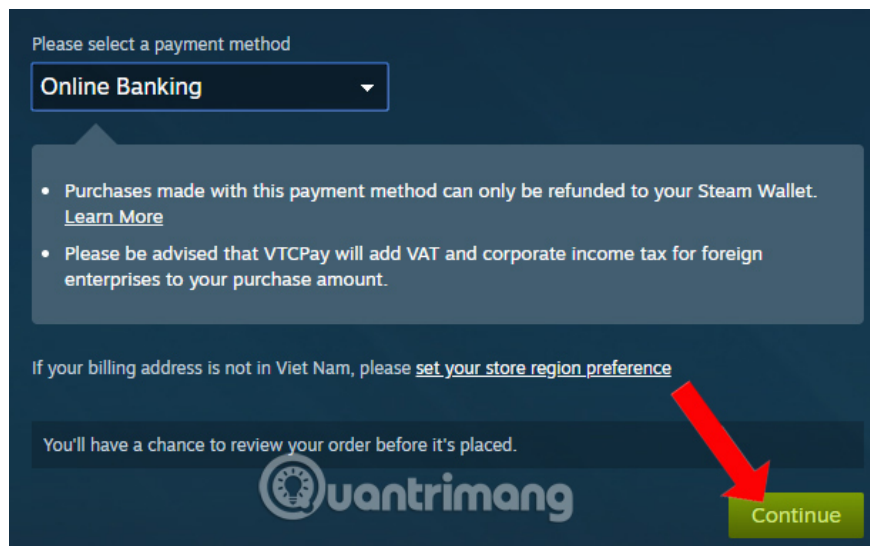

1. Buy Steam games via Online Baking

For those who have not made international payment cards such as Visa, Mastercard, they can choose Online Baking payment form. If the payment via Online Banking will be charged VAT. The amount you need to pay will increase more than the listed price.

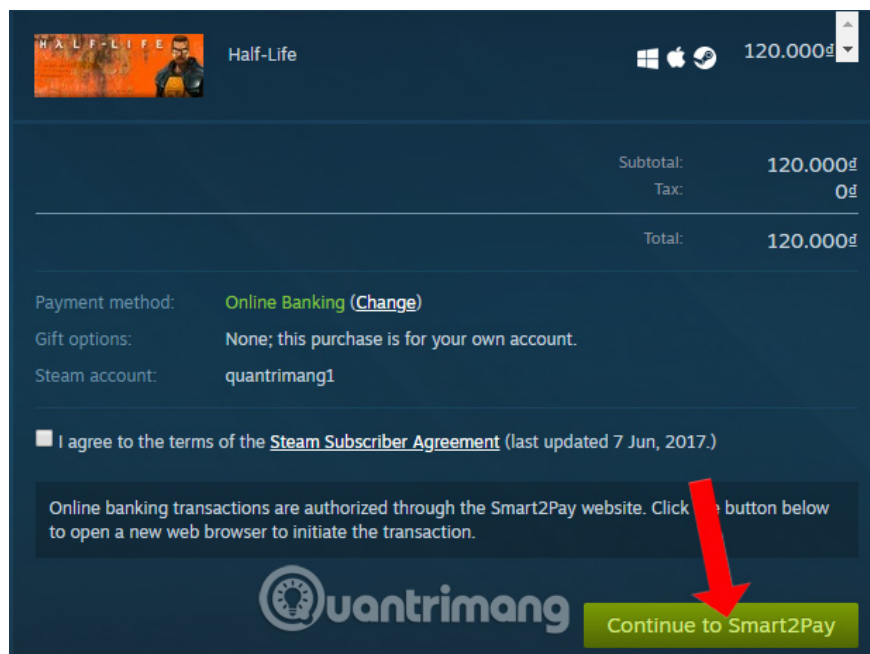

Step 1:

After you select the **Online Baking payment method** will display as shown below, click **Continue** to continue.

Step 2:

Go to the billing information view, agree to the terms and click **Continue to Smart2Pay** to pay.

Step 3:

At this time, a new window of VTC Pay will appear. Here the user will know how much he has to pay. Below will be a list of banks that VTC Pay supports to use. To expand more banks click on 3 dots.

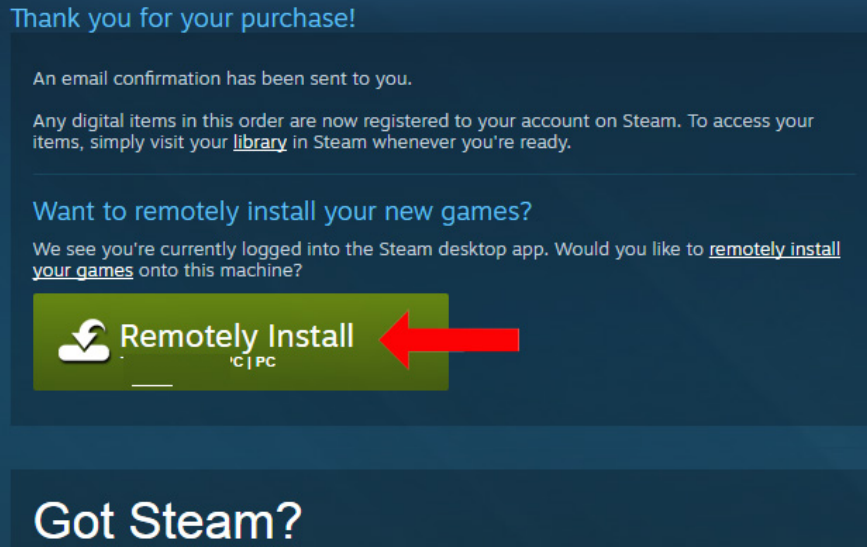

Step 4:

Select the bank you want to pay and then be transferred to the information input interface. You need to **register for Internet Banking** at that bank to be able to pay successfully.

1. Instructions for using Internet Banking Vietcombank
2. Instructions for registering Agribank Internet Banking on the phone
3. Guidance on online Techcombank Internet Banking registration

Enter the full information of the bank card and click **the Pay button** below. At this time, the bank will send **OTP** to your phone.

When the order is successful, we will be transferred to the game download interface, press **Remotely Install** to install the game. At the same time, Steam will send a confirmation email to your personal email address.

2. Buy Steam games with international cards

In the payment information interface you can choose Visa, Mastercard, Discover, American Express.

- 1. Card number is a number printed in front of a 16-digit Visa card.
- 2. Expiration date and security code expiration time of the tag. Security code is the last 3 numbers printed behind the Visa card.
