

# Instructions for calling Video Call with Viber on the phone

Viber is a free multi-platform messaging and calling application that is easy to use. You only need a phone number that can install Viber and use it immediately. Besides, Video Call service on Viber phones is also used by many people. Let's TipsMake.com learn how to call.

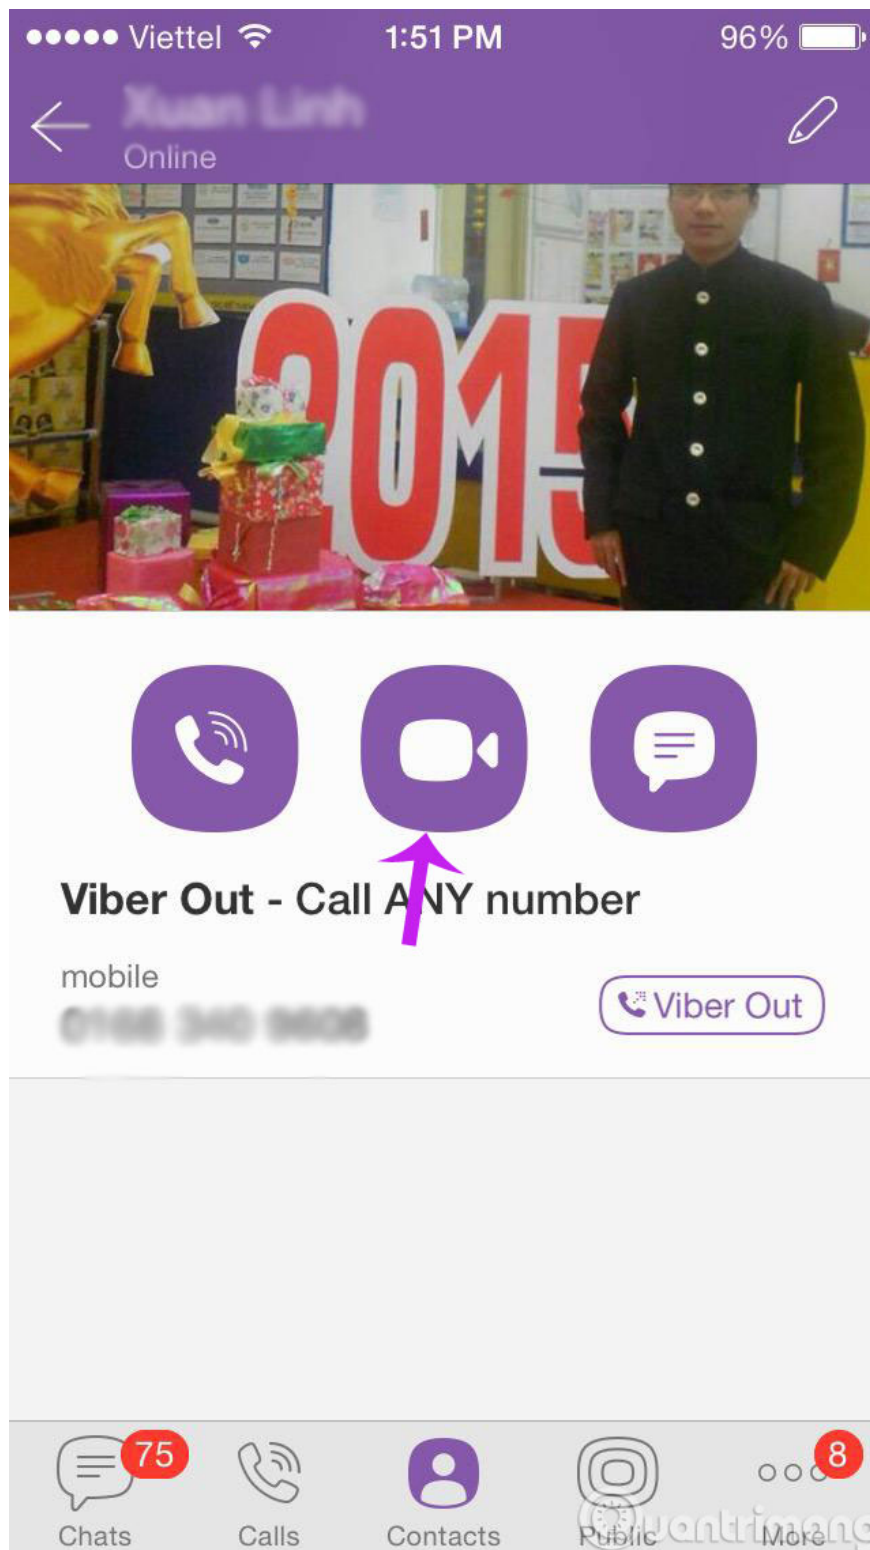

**Viber** is a free multi-platform messaging and calling application that is easy to use. Just like Zalo, you only need a phone number to install Viber and use it immediately. Besides, Video Call service on Viber phones is also used by many people. Let's TipsMake.com learn how to call.

1. How to create Viber chat groups on Windows
2. Microsoft supports video calling capabilities between Lync and Skype
3. Skype is developing 3D video calling technology

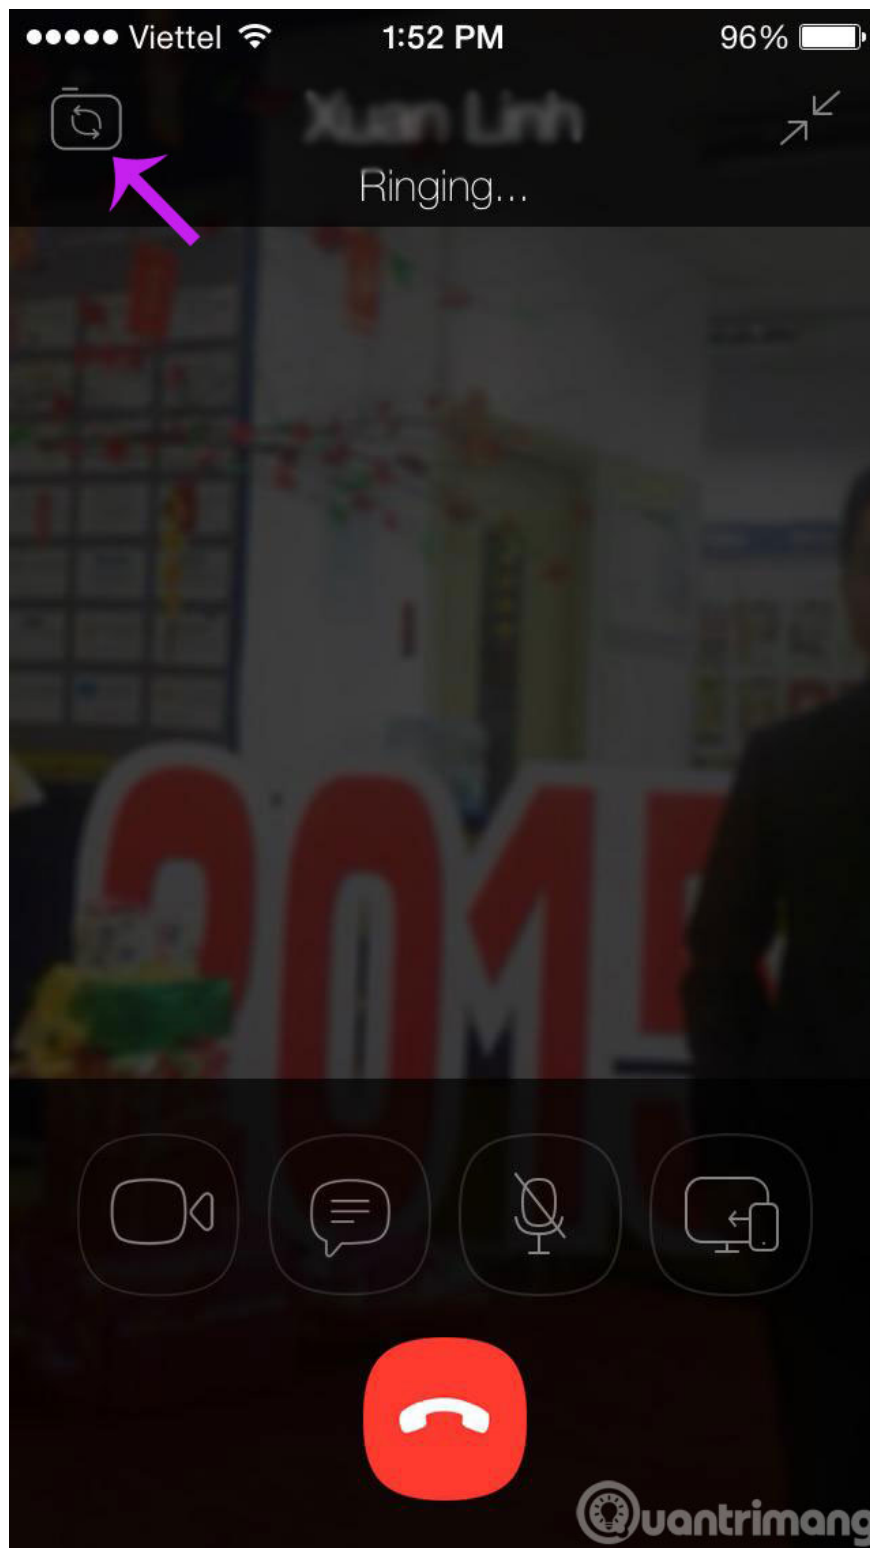

**Step 1** : Open the **Viber** application on your phone and select **the contact icon** (Contact) then click on the person you want to call

**Step 2 :** When the selection screen appears, click on **the camera** icon to call **Video Call**

**Step 3** : When the call is being made, you click on the circle with 2 arrows in the upper left corner of the screen. Waiting for 1 moment will appear your image.

So you have successfully made a Video Call call with Viber on your phone.
