

# Instructions for copying the chat link Copilot Windows

When you sign in to Copilot with your Microsoft account, you can share a Copilot conversation or page as a link.

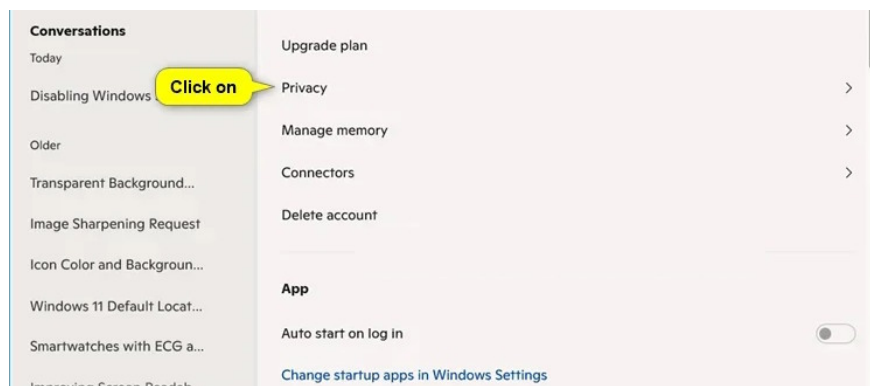

When you sign in to Copilot with your Microsoft account, you can share a Copilot chat or page as a link. Once the link is shared, the recipient will see a copy of your conversation from the moment the link was created. If you continue the conversation, the recipient will not see any content you added after the link was created. Here's how to copy a Copilot chat link.

## How to copy the link of the Copilot chat

### Step 1:

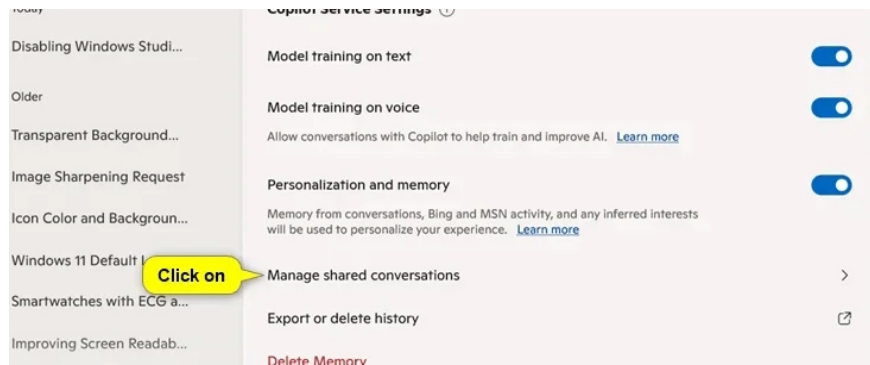

You log in to Copilot on your computer, then **click on your avatar** and **select Settings** in the displayed list.

Switch to the new interface, the user **selects Privacy** .

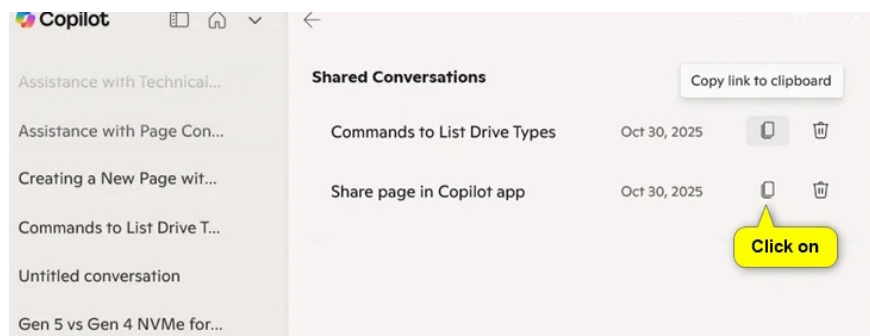

### Step 2:

Switch to the new interface and continue **to select Manage shared conversations** to manage the conversations you want to share.

### Step 3:

Now we just need **to click on the copy icon** of the shared link whose URL you want to copy. You can copy the link of the shared conversation or Copilot page.

When you create a shared link, anyone with the link can access it.
