

Instructions for creating AI posters on professional Ideogram

Ideogram is a professional AI poster generator with different themes, where you enter a brief text description of the advertisement's message or product.

Ideogram is a professional AI poster generator website with different themes, where you enter a short text description of the message or product of the advertisement. Ideogram will then analyze the content you enter and then design an AI poster according to your wishes. Below is a guide to creating an AI poster on Ideogram.

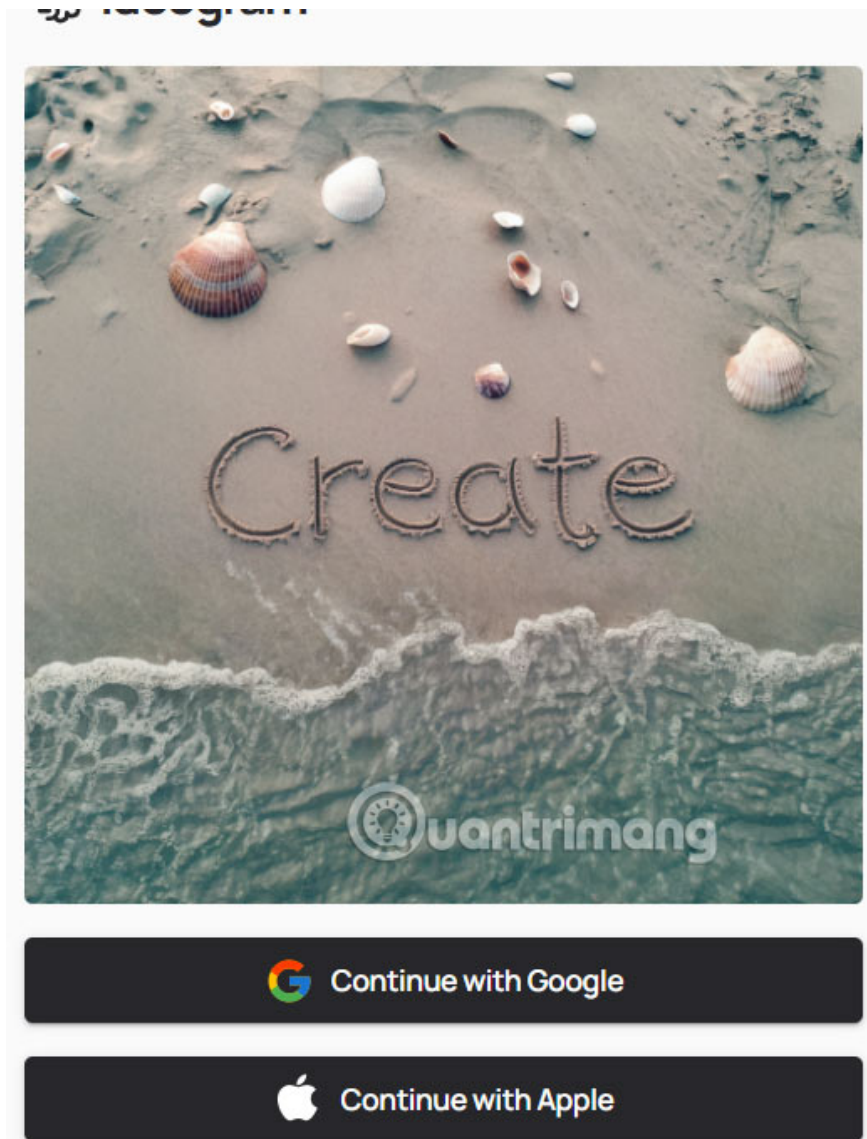

How to create AI poster on Ideogram

Step 1:

First, you access the link below to access the Ideogram website.

`https://ideogram.ai/login`

Then you log in to Ideogram with your Google or Apple account.

Step 2:

Now you will create an Ideogram profile, **click Create profile** to do so.

Name (optional)

Your personal name. This appears on your profile.

Quản Trị Mạng

 Quantrimang 13/50

By creating your profile, you agree to our [Terms of Service](#) and [Privacy Policy](#).

Create profile

Now you will see the website notification interface, click **Start creating** to proceed with creating content in Ideogram.

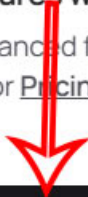

Welcome to Ideogram!

Get to know your free plan:

Step 3:

Go to the main interface of the Ideogram website, users will **click on the content input box** and then enter **the description of the poster** they want to create.

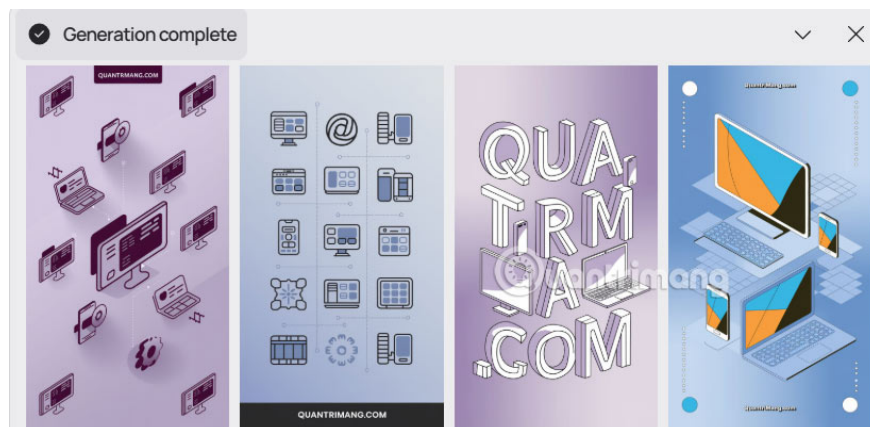

Next, the user **selects the aspect ratio in Aspect ratio**, **the color palette for the poster** in Color palette. Next, you select the poster style you like and **click Generate** to create.

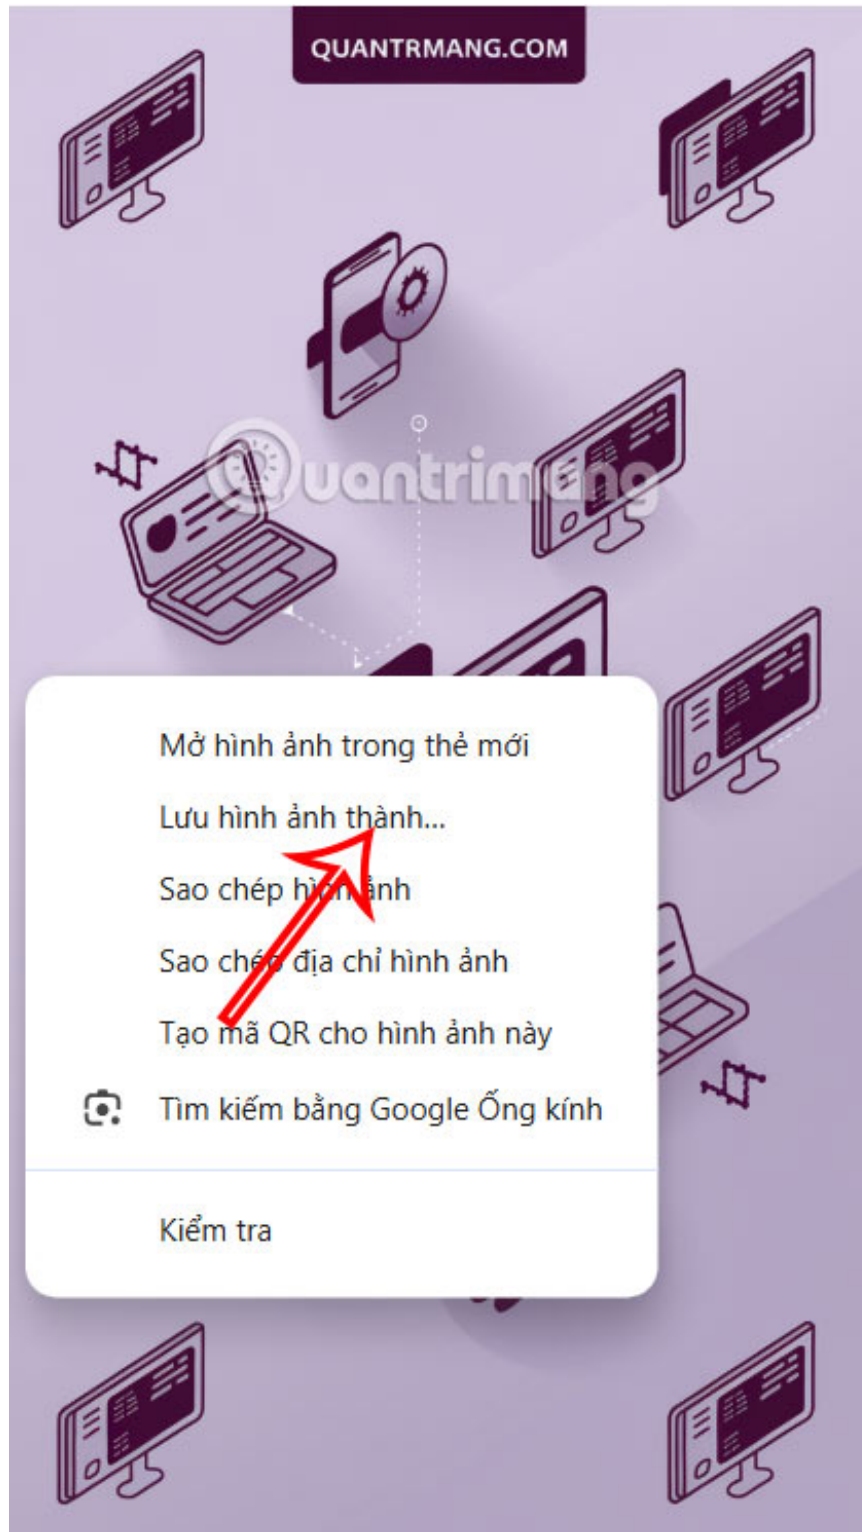

Step 4:

The result you see is the AI ??poster created on Ideogram with the description you created as shown below. If you like any image, click on that poster.

Finally the user downloads the AI ??poster on Ideogram as usual.
