

Instructions for creating bookmarks in Twitter

The bookmark tool in Twitter is used to save all the tweets that you are impressive, interesting or the tweets contain important information to find again when needed.

So the bookmark feature in Twitter is very similar to the bookmark feature on the browser, saving web pages containing important information to find when needed. All the bookmarks in Twitter that you have made are synced on your computer and phone. The following article will guide you to create bookmarks in Twitter.

How to create bookmarks on Twitter

Step 1:

You access your Twitter account as usual. To each tweet you want to save, click on that post to see the content. Next we click on **the bookmark icon** below to save the bookmark for this tweet.

You create bookmarks on Twitter like with the operation above.

Step 2:

To see all tweets that users have saved as bookmarks on the application, we **click on the account avatar** . Display the menu of management items for the Twitter application, we click on **the Bookmarks item** to access the bookmarks.

As a result you will see all the tweets that you have saved to review.

Step 3:

When you click on the saved tweet and then click on **the 3 dots icon** in the right corner of the screen, you will have these post options as well as this Twitter account.

A rather inconvenient thing about the bookmark feature on Twitter is that the application does not have the option to delete individual bookmarks like on the browser. If you want to delete bookmarks, you must delete them all.

Step 4:

At the Bookmarks interface, users click on **the 3 dots icon** in the right corner of the screen. Now click on **Delete all Bookmarks** to delete all the bookmarks that we have saved.

Twitter then asks if you're sure you want to delete this entire bookmark. If you agree, all bookmarked tweets will be deleted, so you need to pay attention.
