

# Instructions for creating chibi couple images, creating chibi images in ChatGPT

ChatGPT not only supports you in content analysis or writing, but you can also use it to create images, such as creating chibi couple images.

ChatGPT not only supports you in content analysis or writing, but you can also use it to create images, such as creating new style dollhouse images with ChatGPT or chibi couple images, for example.

With the ability to describe images in detail and creatively, you only describe basic information about the character displayed in the photo, from the name, the outfit you want, facial expression and description of the scene, background and colors you want to display in the chibi couple photo you want to create.

Create a highly detailed and adorable 3D-rendered collectible figurine set inside a compact jewelry box, opening to reveal two chibi-style characters. The characters' names are embossed at the top, accompanied by small heart decorations. A circular view on the back of the box shows the characters in a romantic pose. His/her name, [?i?n tên ng??] is displayed on the base beneath his/her feet. His/her name, [?i?n tên ng??] is displayed on the base beneath his/her feet. The scene is crafted with a soft, pastel color palette.

From all the information that the user enters in the prompt, ChatGPT will help you build and create a complete chibi couple photo that is extremely adorable, bearing the personal mark of the two people. Especially when you create a chibi couple photo, ChatGPT on the phone has an additional part to edit the photo after creating it. Click on edit and you enter the details you want to change from the original photo created by ChatGPT to have a photo that is more satisfactory to you.

Chibi couple photos created on ChatGPT are a great way to preserve memories and make meaningful gifts for your partner. Try it now and let ChatGPT help you create your own cartoon world.
