Step 3:

We enter the topic we want to create the presentation slides for , or we can upload data to convert into presentation slides and then enter the prompt to create them as in the example below.

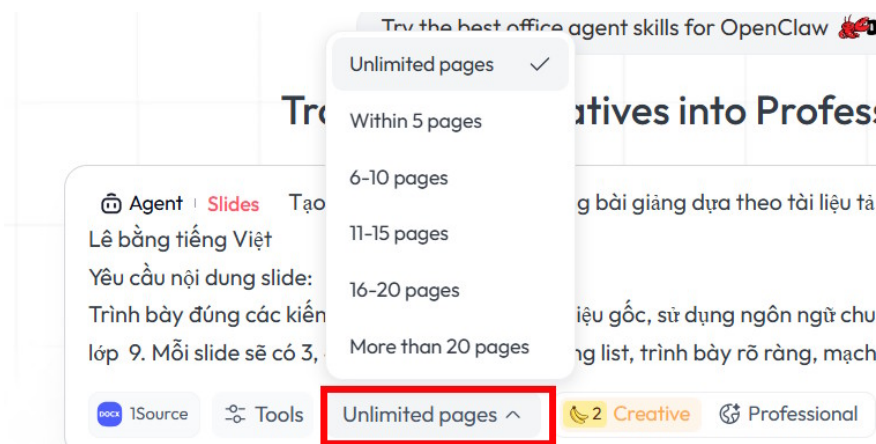

Tạo slide thuyết trình nội dung bài giảng dựa theo tài liệu tải lên chủ đề Lịch sử lớp 7 thời Đinh- Tiền Lê bằng tiếng Việt
Yêu cầu nội dung slide:
Trình bày đúng các kiến thức lịch sử có trong tài liệu gốc, sử dụng ngôn ngữ chuẩn theo chương trình học của học sinh lớp 9. Mỗi slide sẽ có 3, 4 ý chính, hiển thị qua dạng list, trình bày rõ ràng, mạch lạc không viết đoạn văn dài
c không viết quá ngắn và dài

Step 4:

Next, select the number of slides you want to use. Finally, click the submit icon for Skywork to analyze the uploaded data and create the presentation slides.

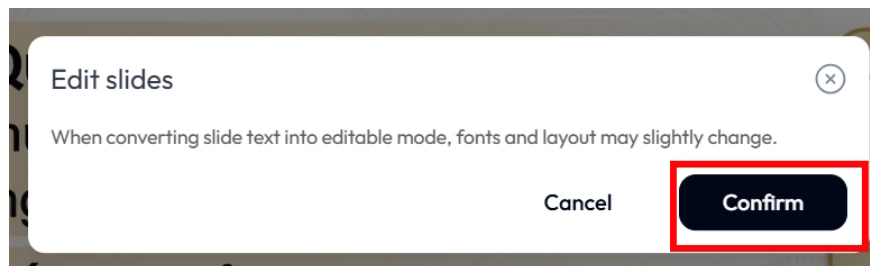

The result is a presentation slide as shown below. Click **Edit** to proceed with editing the content in the slide.

Overall, the quality of slides created on Skywork is decent, with attractive graphics and colors; however, there are still font errors, so you need to be careful.

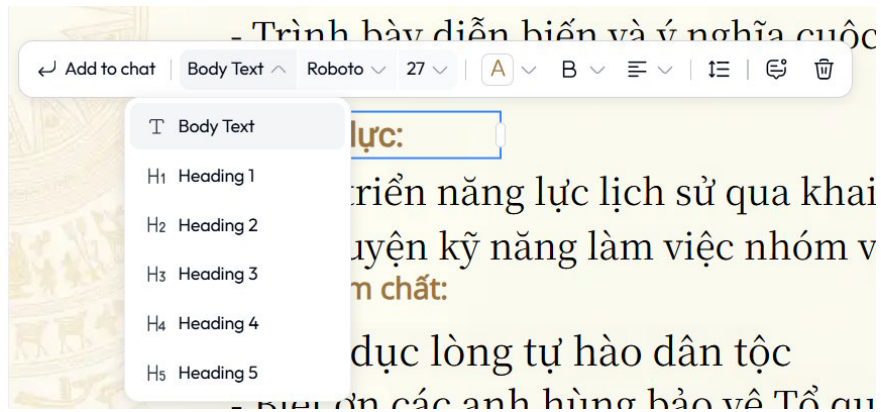

Press **Confirm** to agree to the edits.

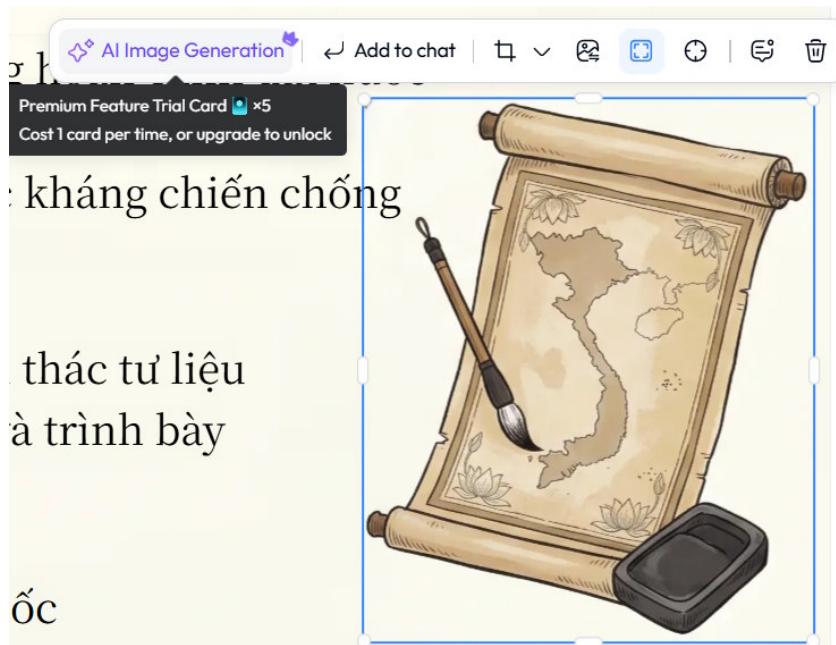

Step 5:

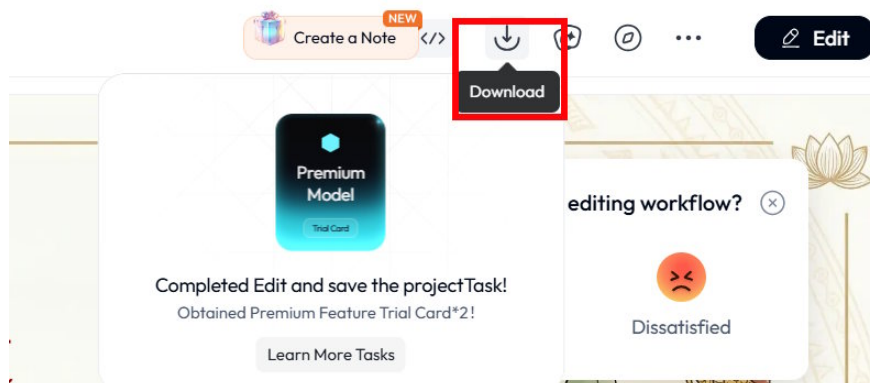

Next, we proceed to edit the slides. You can use the available tools to adjust any parts that aren't quite right, or to choose a different font.

The image illustrations also have editing options, and with the paid version, you get the additional option to create AI-generated images.

After making **the edits** , **click Save** to save your changes . Then **click Download** to download the presentation slides from Skywork.

Please note that , because it's a free version, you'll be limited in the number of times you can download files in the format shown in the image; there's no download limit for HTML files.
