Nhập tên TK Instagram*

When uploading photos, the site proceeds to **cut and adjust the image** as you like.

Finally **click Create image** to proceed to create a photo with layer 2 layers. The result of the Instacard image you create on Ephoto360 is shown as below. Click Save or share the image to others.

2. How to create Instagram Card photos

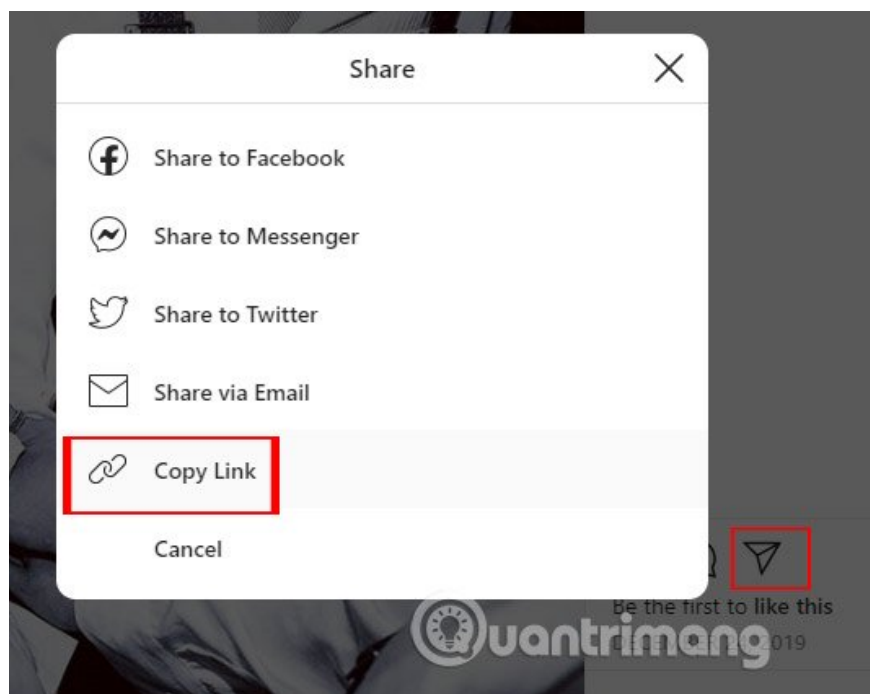

In addition to Ephoto360 you can also use other tools to create 2-layer Instagram photos throughout.

<https://www.doligo.net/inscard>

Users access this link and you will have 2 options: use a personal Instagram post image, or an optional photo like with Ephoto360, but enter the number of followers and are following you.

Create 2-layer Instagram photo

First, **open Instagram on your computer** and then **click on the image you want to create Instacard style**, note only applies to **public accounts**. Click **the send icon** and select **Copy link** to get the image link.

Then return to the doligo website follow the link above, click on **the Instagram Photos section** and **paste the copied link** as shown below. Then click **Create Instacard** . If you want the interface to display in English, click English.

The image results are as follows, all parameters of the account are correct based on the copied image link. You just need to save the image as normal.

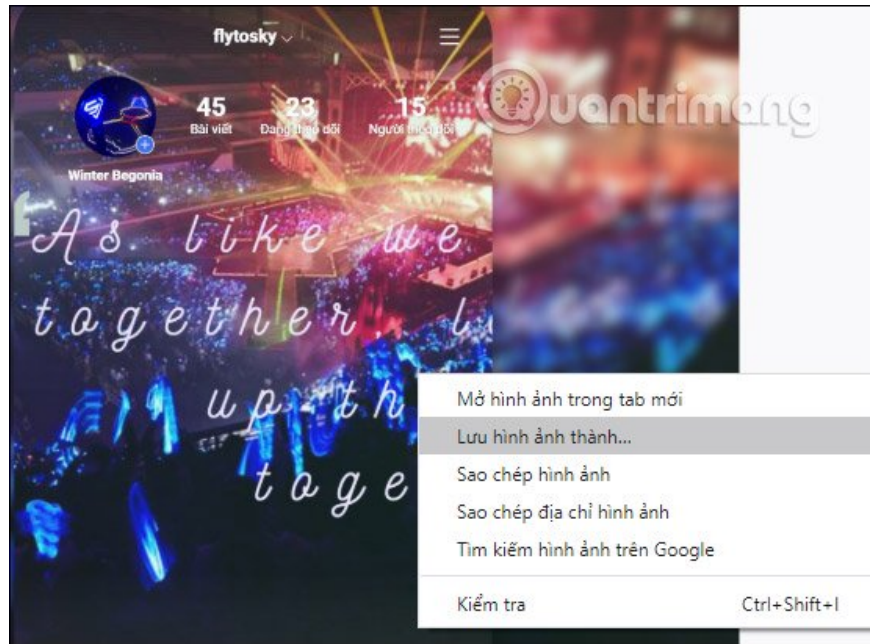

Create custom 2-layer Instagram photos

Click on **the Custom photos** and then **enter the content as you like below**. We will now upload the article image and the avatar image on the site.

	<input type="button" value="Ảnh Instagram"/>	<input type="button" value="Ảnh Tùy chỉnh"/>
Tên người dùng	<input type="text" value="flytosky"/>	
Tên tài khoản	<input type="text" value="Winter Begonia"/>	
Bài viết	<input type="text" value="45"/>	
Đang theo dõi	<input type="text" value="23"/>	
Người theo dõi	<input type="text" value="15"/>	
Ảnh bài viết	<input type="button" value="Chọn tệp"/> SJ quote.jpg	
Ảnh đại diện	<input type="button" value="Chọn tệp"/> EMLB5ZmU4AEJRXI.jpg	
Ngôn ngữ	<input type="text" value="Tiếng Việt"/>	
	<input type="button" value="Tạo InsCard"/>	

Finally the complete image as below and you also download as usual offline.
