

Instructions for creating QR codes in Google Slides

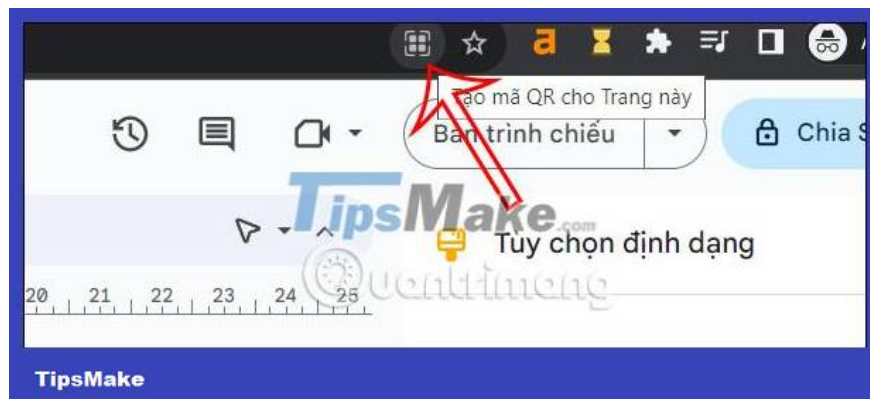

QR codes are currently widely used for many content, and if you want, you can also create QR codes in Google Slides in many different ways.

QR codes are currently widely used for many content, and if you want, you can also create QR codes in Google Slides in many different ways. You can immediately rely on the existing QR code creation feature for websites on Chrome browser, or use additional support tools. Below are instructions for creating QR codes in Google Slides.

How to create QR codes in Google Slides on Chrome

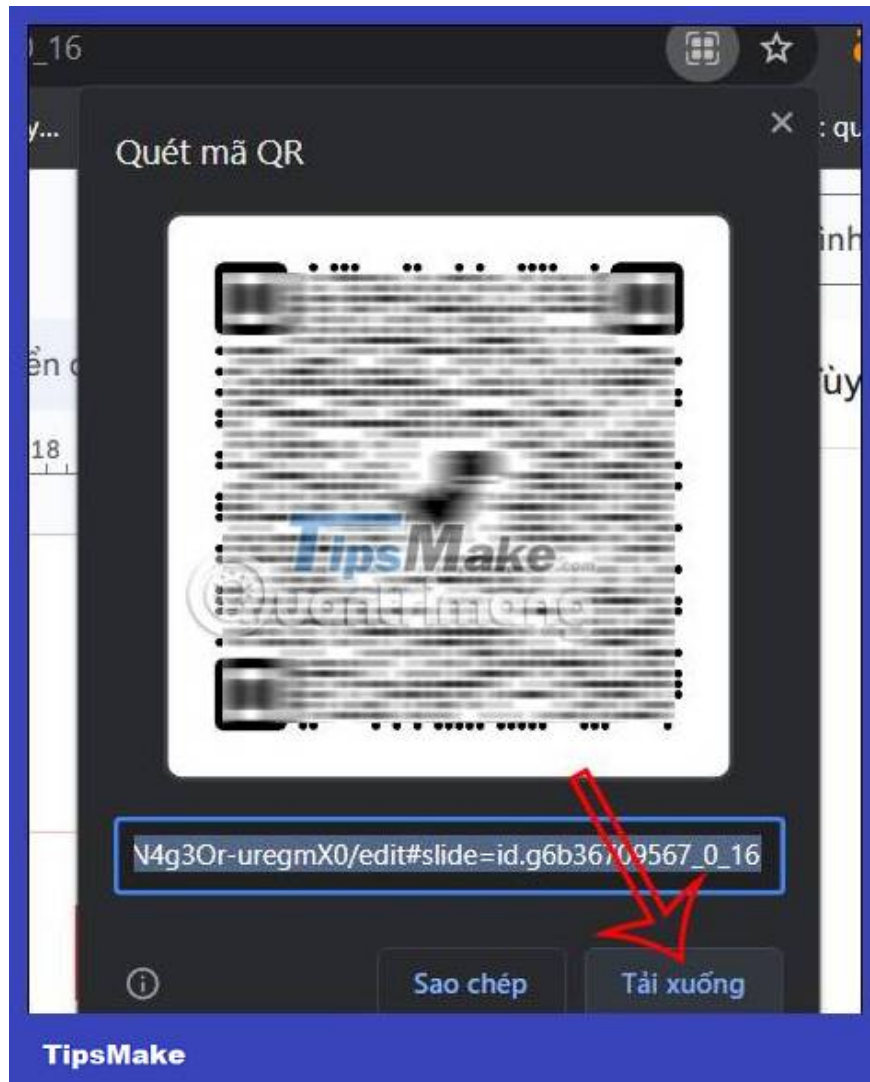

Step 1:

First, we open the presentation slide on Google Slides and want to create a QR code. Then click on **the QR code icon in the URL bar** to create a QR code for this presentation page.

Step 2:

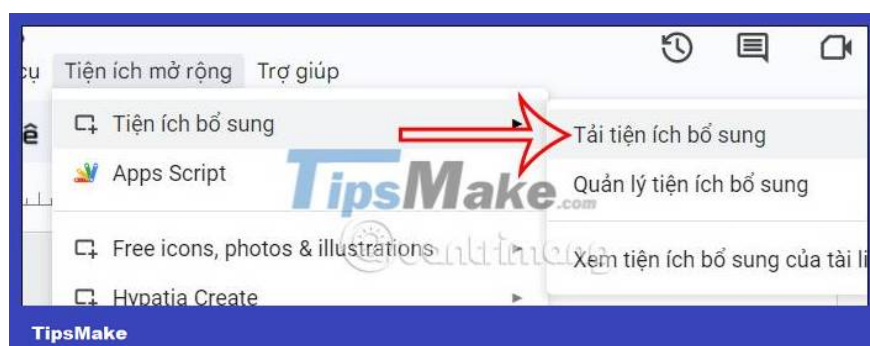

You'll soon see the QR code for the Google Slides slide displayed as an image. We just need **to click Download** to download the QR code for this Google Slides slide.

How to create QR codes in Google Slides using widgets

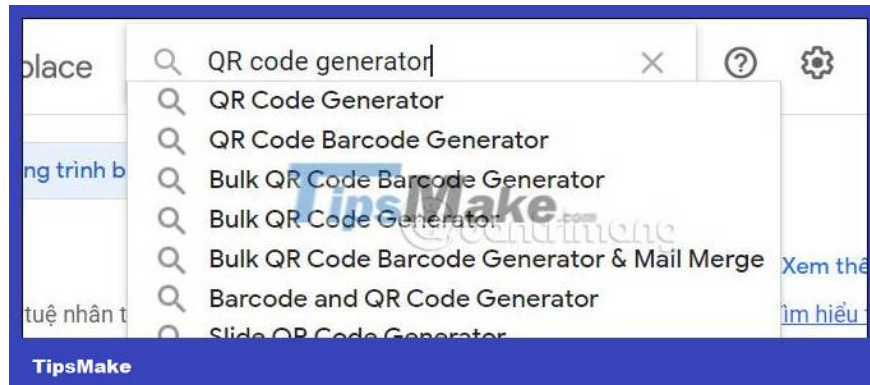

Step 1:

At the Google Slides interface, click Extensions, select Add-ons and then click **Download add-ons** .

Step 2:

Now display the utility interface, **enter the keyword QR code generator** into the search bar.

Displaying the results below, we **click on Slide QR Code Generator** to install the QR code creation utility in Google Slides.

Step 3:

Now we install the utility as usual and grant some permissions to the display utility to use it.

Step 4:

Return to the Google Slides interface, click on **Extensions** and then **click on Slide QR Code Generator** to use.

Immediately after that, the right edge of the screen displays the interface to create QR codes. First, at **QR code content**, **enter the content you want to create a QR code**. Then you adjust the content for the QR code below. After creating, **click Copy QR Code** to create a QR code for the content.

Step 5:

Immediately after that the QR code was copied to the clipboard on the computer. You just need to paste it into the presentation slide on Google Slides.
