

Instructions for creating subtitles for videos with VideoPad

VideoPad is a professional video editing software with features that help users to edit videos such as converting from 2D to 3D, adding 50 visual effects, sound or creating subtitles for videos.

The software supports users to create subtitles for very popular video today. Previously, we showed you how to create videos for subtitles with popular software Aegisub. And today, Network Administrator will bring you more subtitle software for video is VideoPad.

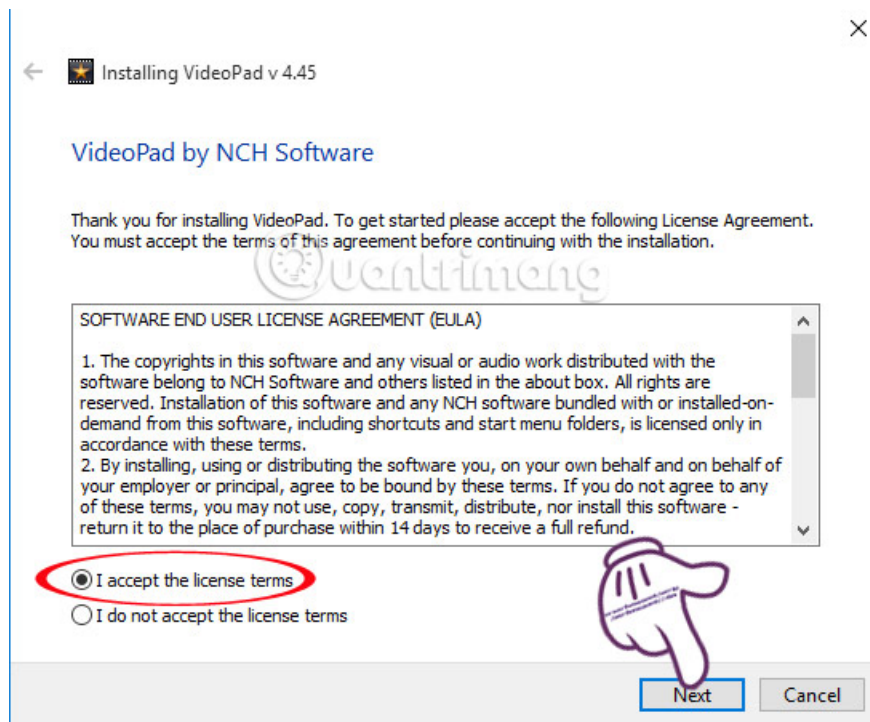

VideoPad is a professional video editing program, you can add many favorite effects to video in 50 different image effects. Or convert videos from 2D to 3D format easily. In this article, we will show you how to make video subtitles with VideoPad with extremely simple steps and easy to implement.

Step 1:

You **download and install VideoPad** according to the link below.

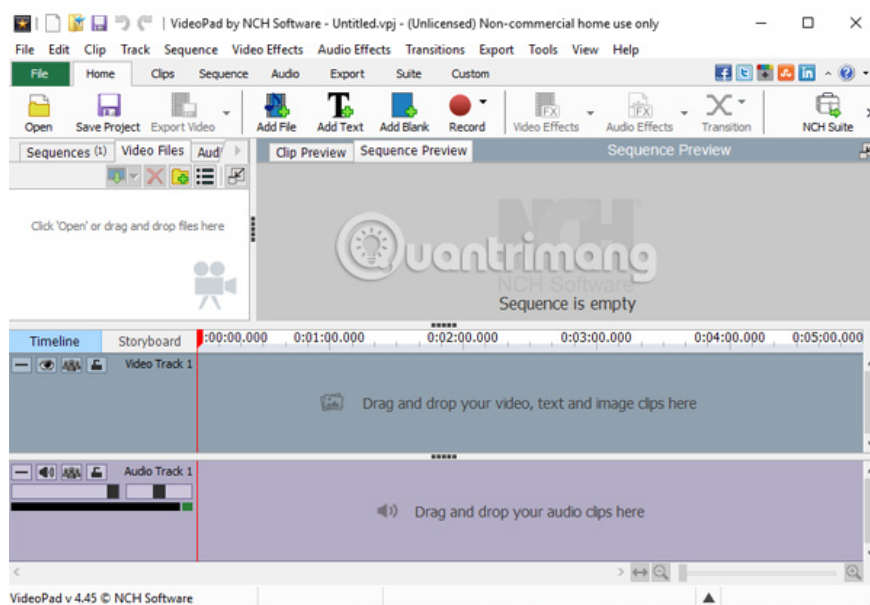

1. Download VideoPad software for free

Select **I accept the license terms** and click **Next** to proceed with the installation on the computer.

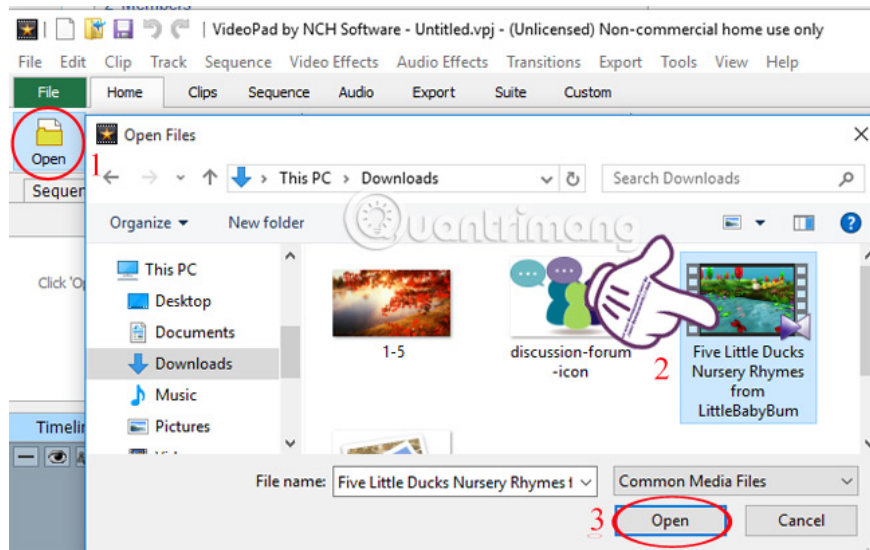

Step 2:

After installation is complete, **the program interface** will look like the image below.

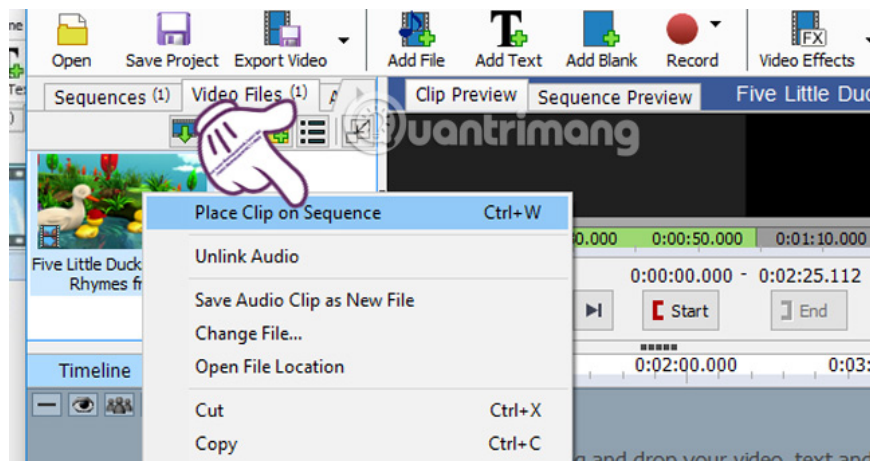

Step 3:

To download videos as subtitles, click the **Open** item in the menu bar. After that, you go to the video archive folder to make subtitles on your computer, and click **Open** to open.

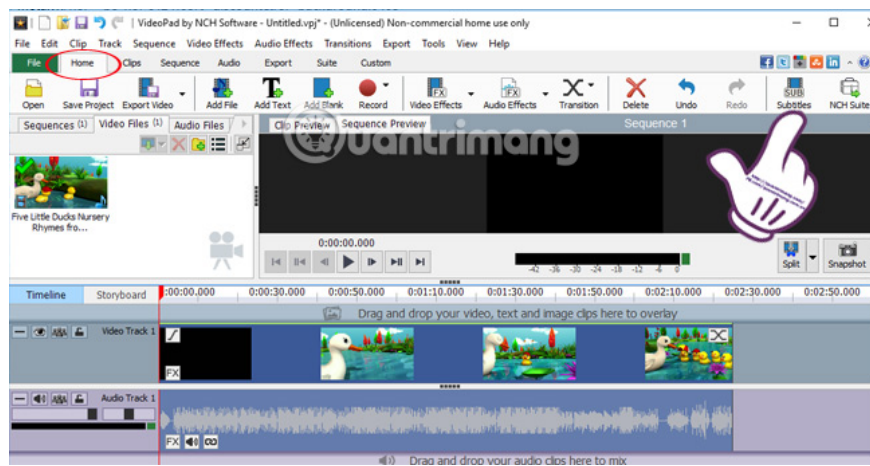

Step 4:

As soon as the uploaded video is complete, right-click on the video and select **Place Clip on Sequence** , or press Ctrl + W.

Step 5:

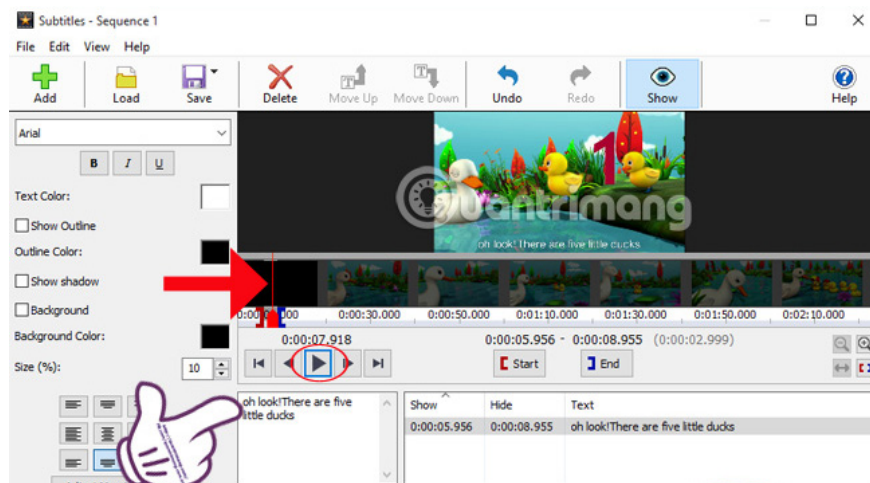

At the main interface of the program, we select the **Home tab** and click the **Subtitles** section to make subtitles for the video.

Step 6:

Appearance of the **Subtitles** window - **Sequences 1** , write subtitles for the video below. To be able to align the timing of the video, click **the triangle icon that runs the video** . The video will run with a time bar for you to become the standard subtitle.

You can move the red vertical bar to the left or right to get to the right video to make the sub. When you enter subtitles, the video above will also appear with subtitles. Thus, we can easily follow the subtitles right or wrong.

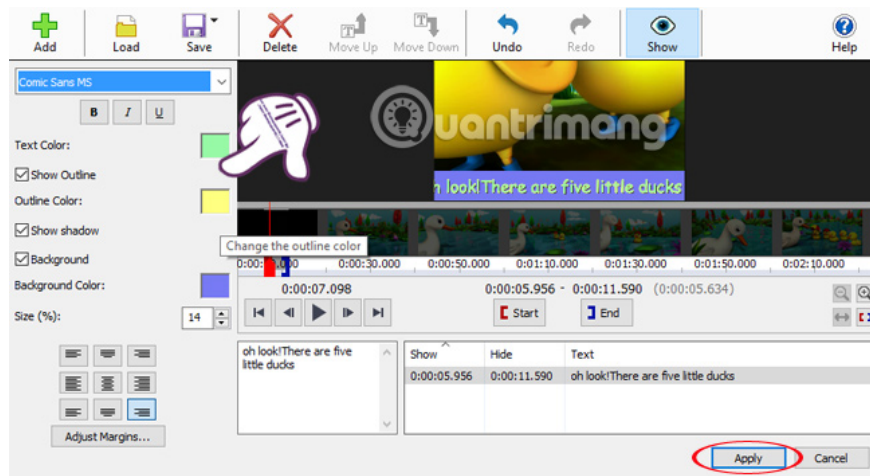

Step 7:

In the left section, we can change the effect for subtitles:

1. **Above** : change the font style and font format.
2. **Text Color** : choose a color for the text.
3. **Show Outline** : add outlines.
4. **Outline Color** : Add an outline color to the text.
5. **Show shadow** : Shading the text.
6. **Background** : select the background color for the text.
7. **Size** : size of font size.

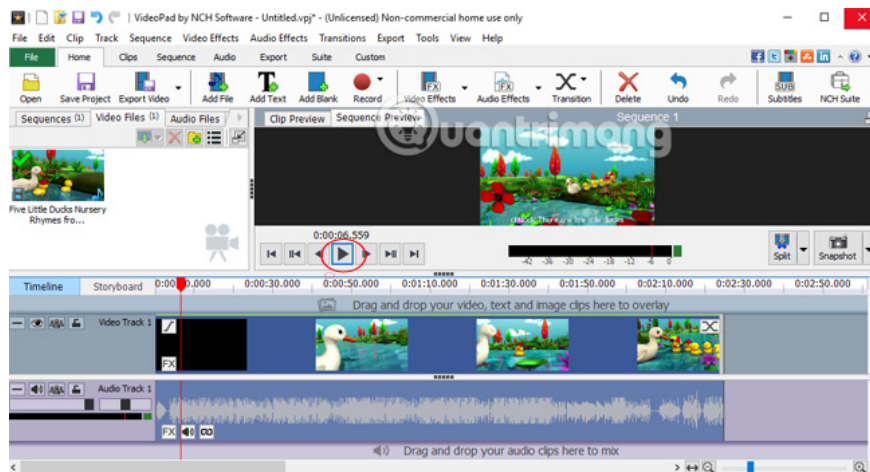

8. **Adjust Margins** : select the position of the subtitles like the middle, top, bottom, .

When editing is complete, the subtitles will add other fancy effects. Once completed, click **Apply** to save it.

Step 8:

Now you just need to admire your achievements. Click the triangle icon to run the video with the subtitles included.

The method is not too sophisticated when we make video subtitles with Video Pad software. From now on, you can also make subtitles for videos yourself, without having to search on other video viewing sites. Especially for those who study foreign languages, VideoPad is definitely a powerful support software.
