

Instructions for creating the fastest Microsoft account

Creating a Microsoft account makes it easy to use Microsoft services. Following, TipsMake.com will guide you how to create Microsoft account quickly and simply!

Signing up for a Microsoft account will enable you to use all Microsoft services, like a Gmail account, to access all Google services. You need to provide an email address and password when registering an account. You can then access Microsoft systems such as Outlook.com, Xbox Live, OneDrive and Office 365. Here, TipsMake.com will show you how to **create the fastest and simplest Microsoft account** ! If you already have a Microsoft account, please read the following tips to login your account without entering your password. Do you know how to login to a Microsoft account without a password?

How to create a Microsoft account

To create a Microsoft account is quite simple, follow these steps:

Step 1: Access the Microsoft account registration link

Step 2: Enter your email and password> Next

Create account

Microsoft account opens a world of benefits.

Send me promotional emails from Microsoft

Next

[Use a phone number instead](#)

[Get a new email address](#)

Choosing **Next** means that you agree to the [Microsoft Services Agreement](#) and [privacy and cookies statement](#).

Step 3: Enter the Microsoft account name> Next

Add details

We need just a little more info to set up your account.

Step 4: Enter the city, date of birth > Next

Add details

We need just a little more info to set up your account.

Country/region

Birthdate

Step 5: Open the registered email to get a 4-digit confirmation code

Microsoft account

Verify your email address

To finish setting up your Microsoft account, we just need to make sure this email address is yours.

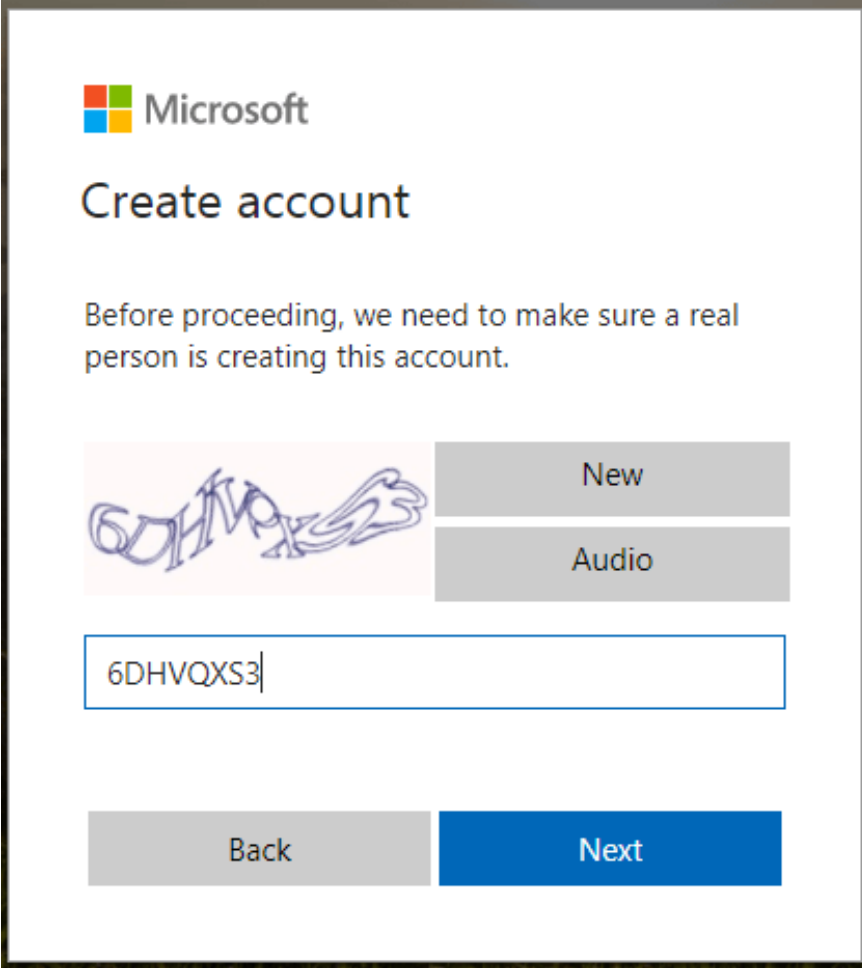

To verify your email address use this security code: 0853

If you didn't request this code, you can safely ignore this email. Someone else might have typed your email address by mistake.

Thanks,
The Microsoft account team

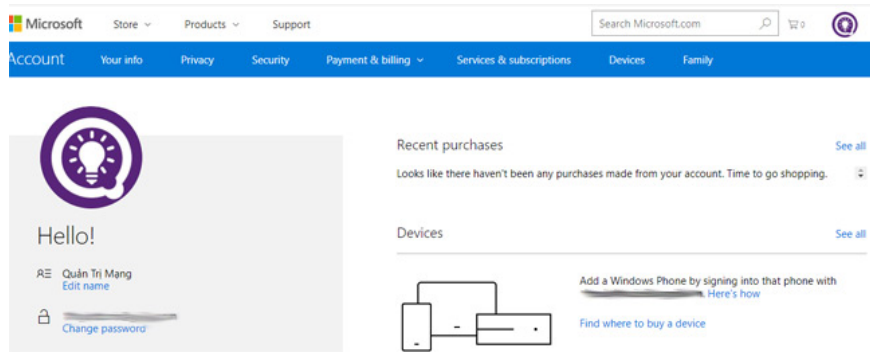

Step 6: Enter the confirmation code in the registration form > Next

Step 7: Enter the code that is not a robot > Next

The screenshot shows the Microsoft account creation verification screen. At the top left is the Microsoft logo. Below it is the heading "Create account". A message states: "Before proceeding, we need to make sure a real person is creating this account." Below this message is a CAPTCHA area with a handwritten code "6DHVQXS3" and two buttons: "New" and "Audio". Below the CAPTCHA is a text input field containing the code "6DHVQXS3". At the bottom are two buttons: "Back" and "Next".

Step 8: Complete your Microsoft account registration

Here, you can review the account information you just created. And in this way, it's easier to download Windows, use the Live Mail mailbox, Skype chat program, download Windows Store applications . with your Microsoft account. Good luck!
