

Instructions for customizing YouTube video subtitles on Android phones, iPhone / iPad

Do not listen to understand the content of the video? Make the most of the built-in subtitles in the videos. See the following guide to customize YouTube video subtitle settings on your iPhone, iPad, and Android.

Do not listen to understand the content of the video? Make the most of the built-in subtitles in the videos. See the following guide to customize YouTube video subtitle settings on your iPhone, iPad, and Android.

Subtitles in YouTube videos make it easier to understand video content. In addition, you can customize the settings for these subtitles. You can adjust the size and font style for subtitles.

Note: Not all YouTube videos are supported by captions. You can only turn on subtitles with videos with subtitles or create subtitles automatically by YouTube.

Turn on / off YouTube video subtitles on iPhone, iPad and Android

Step 1 . Open the YouTube application on your iOS device and open the video you want to watch.

Step 2 . Now, click on menu button ? .

Badshah - Mercy feat. Lauren Gottlieb | Lyrics

Step 3 . Click the **Captions / Subtitles** button.

Step 4 . Next, you need to choose Vietnamese or subtitle language to see.

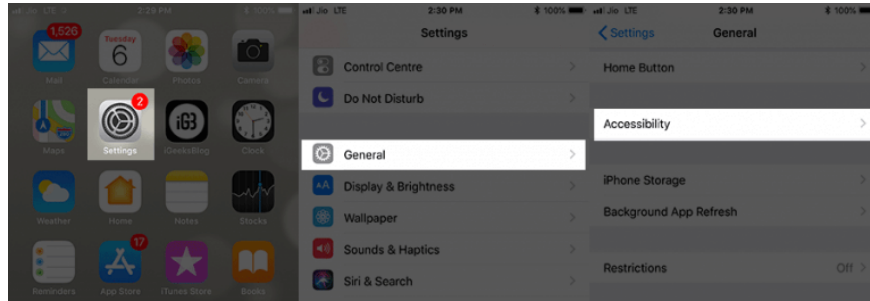

Now, the subtitle for the video will appear. If you want to turn off subtitles, follow the same steps and then click **No captions** (on iOS) or **Turn off captions** (on Android.)

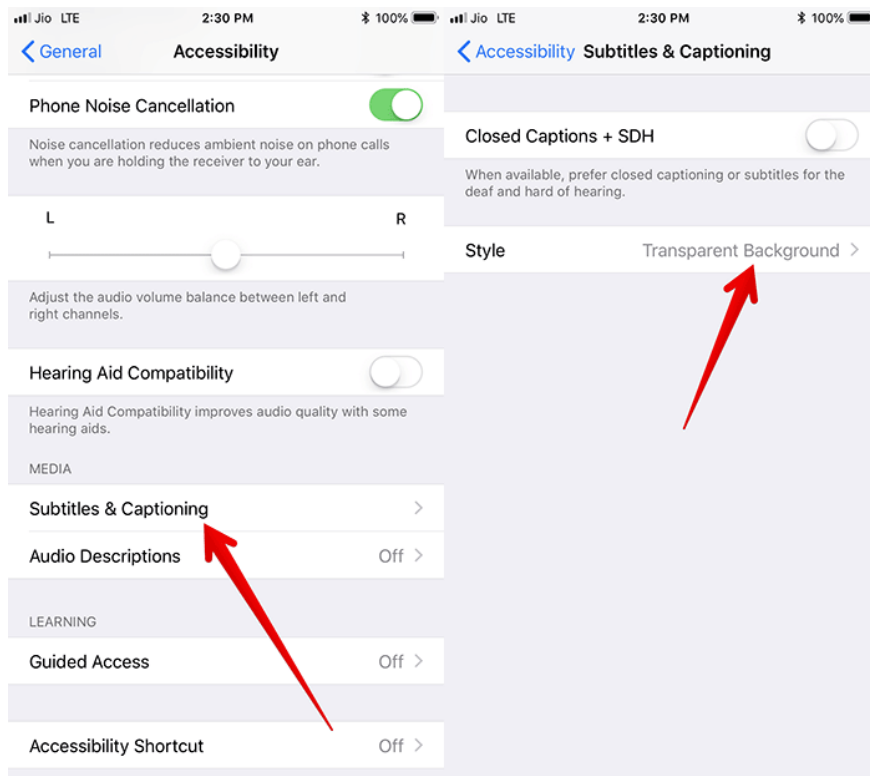

Change the size and font style for subtitles on iPhone and iPad

Step 1 . Open **Settings** .

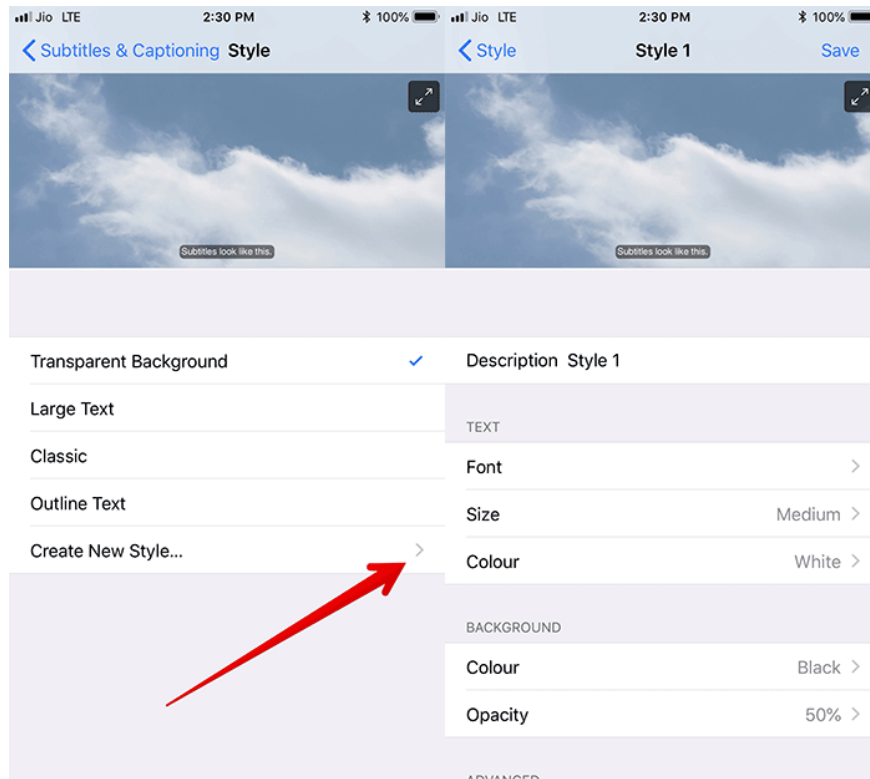

Step 2 . Now, click on **General ? Accessibility**.

Step 3. Next, in the **Media** section, click on **Subtitles & Captioning** ? Next, click **Style** to adjust the size and font style for the subtitles.

Step 4 . Now, click **Create New Style** to select different font styles, sizes and colors.

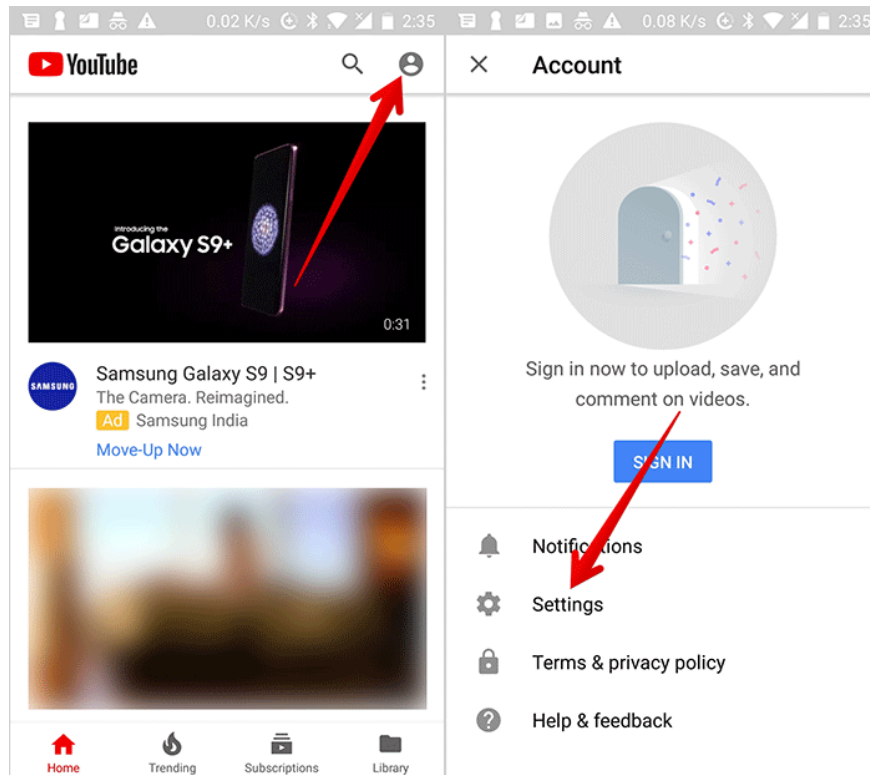

Change the size and font style for subtitles on Android

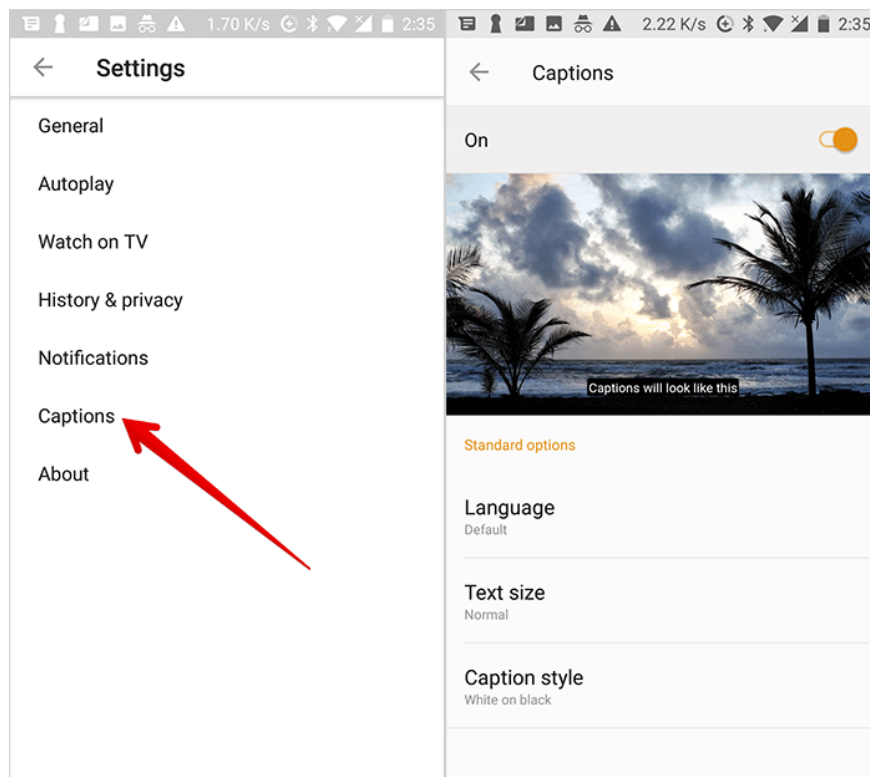

Step 1 . Open the YouTube application.

Step 2 . Now, click on your profile.

Step 3 . Next, select **Settings** .

Step 4 . Next, turn on **Captions** and change the size and style of the subtitles.

Hopefully with the way to enable and customize YouTube video subtitles on this phone you will have more comfortable watching videos on your "mobile phone".
