

# Instructions for deleting groups on Telegram

When you delete a group on Telegram, you will no longer receive messages from that group. And group members will also not be able to access the group on Telegram.

Chat groups created on Telegram also have the option to delete if the user no longer wants to use that chat group. When you delete a group on Telegram, you will no longer receive messages from that group. And group members will also not be able to access the group on Telegram. Thus, all content in the group will be deleted. The following article will guide you how to delete a group on Telegram.

## How to delete a group on Telegram on your phone

### Step 1:

First, click on the Telegram chat group you want to delete. Then **click on the Telegram chat group name** displayed at the top of the screen. Switch to the new interface, click **on the pen icon** to enter the editing interface for the Telegram group.

# Instructions for deleting Telegram groups on computers

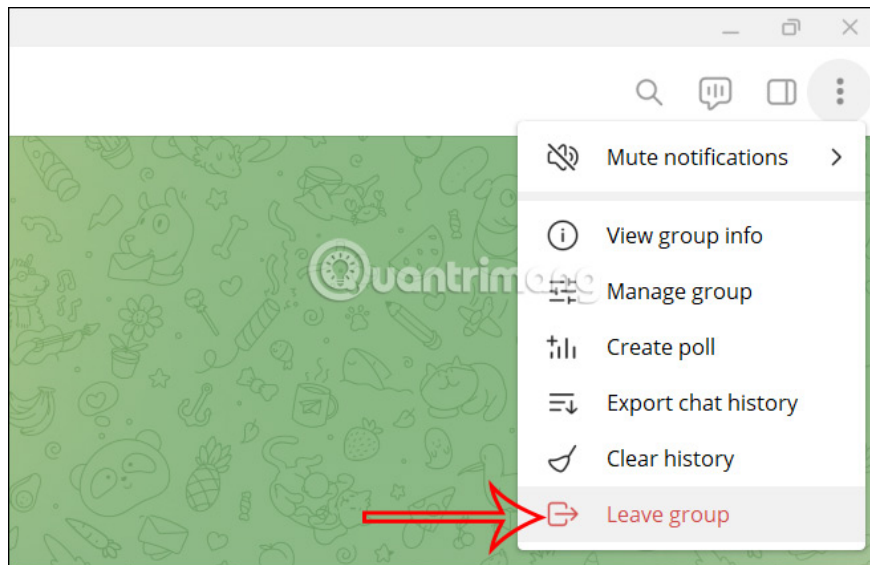

## Step 1:

At the group interface on Telegram computer, click on **the 3 dot icon** in the right corner of the interface.

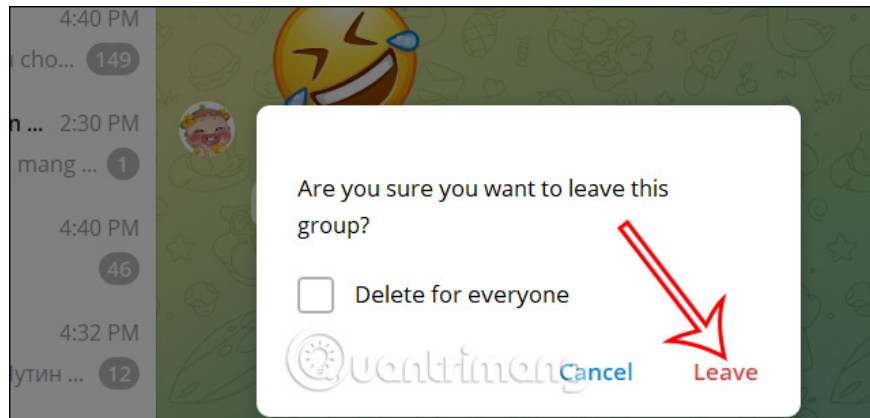

## Step 2:

Next, the user clicks on **the Leave Group option** to proceed to delete this Telegram group.

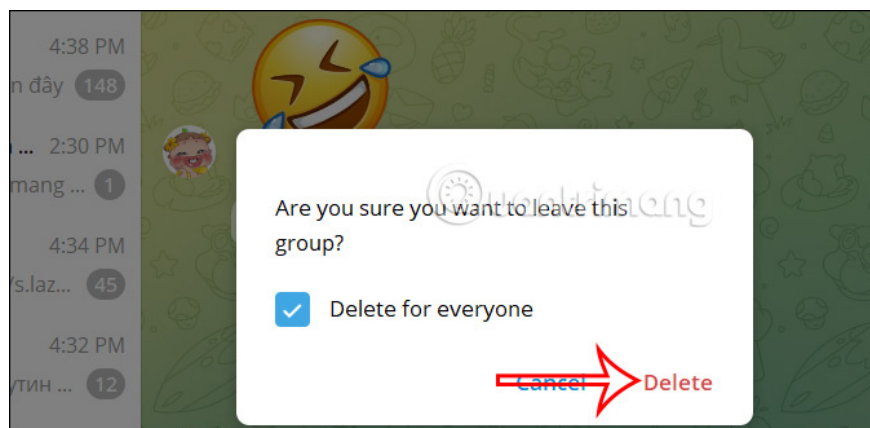

## Step 3:

Telegram will now ask you if you want to leave this group, **click Leave to leave the group** but the group will still be there for members to use. You will not know what members in that group are messaging each other.

If you are the creator of the Telegram group, you can **check Delete for everyone and then press Delete** to delete this Telegram group for everyone.
