

How to clear clipboard history on Windows 11

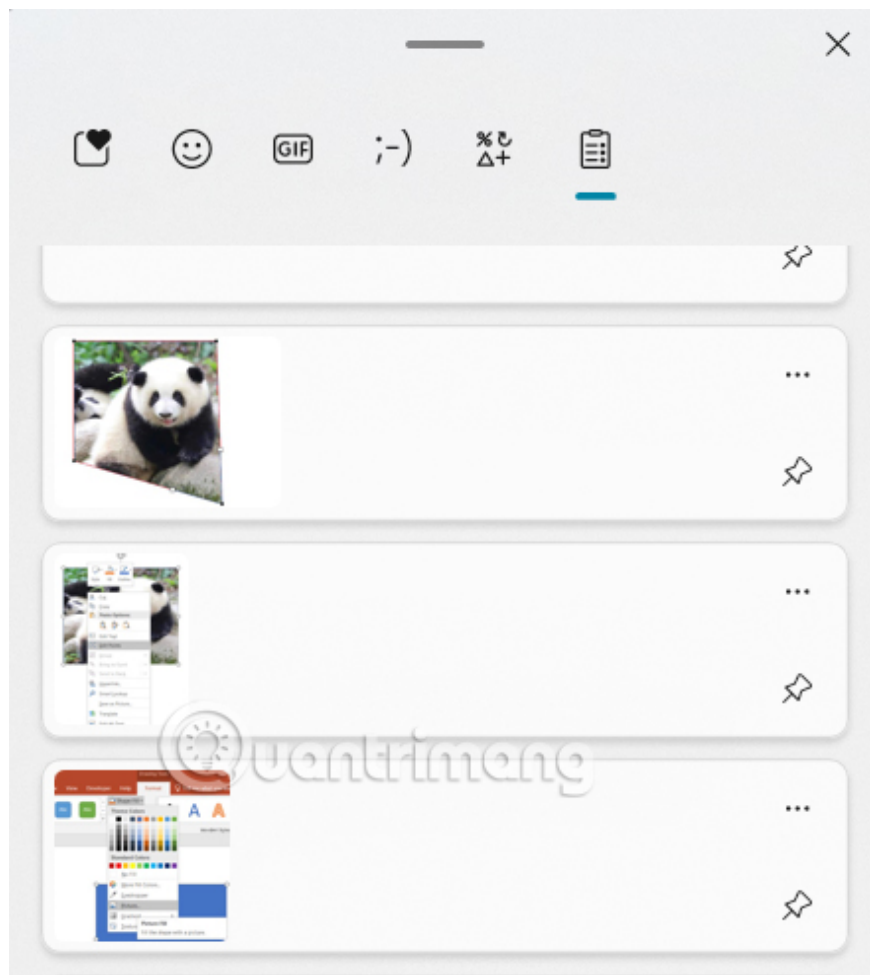

Although convenient, clipboard history can sometimes unintentionally reveal personal information about users. In this article, you will learn how to clear clipboard history.

Windows 11 comes with a clipboard history feature. This feature allows users to copy and store multiple items and access them using the Windows + V keyboard shortcut. Although convenient, clipboard history can sometimes unintentionally reveal users' personal and private content. In this article, you will learn how to clear clipboard history in Windows 11.

How to clear Windows 11 clipboard history

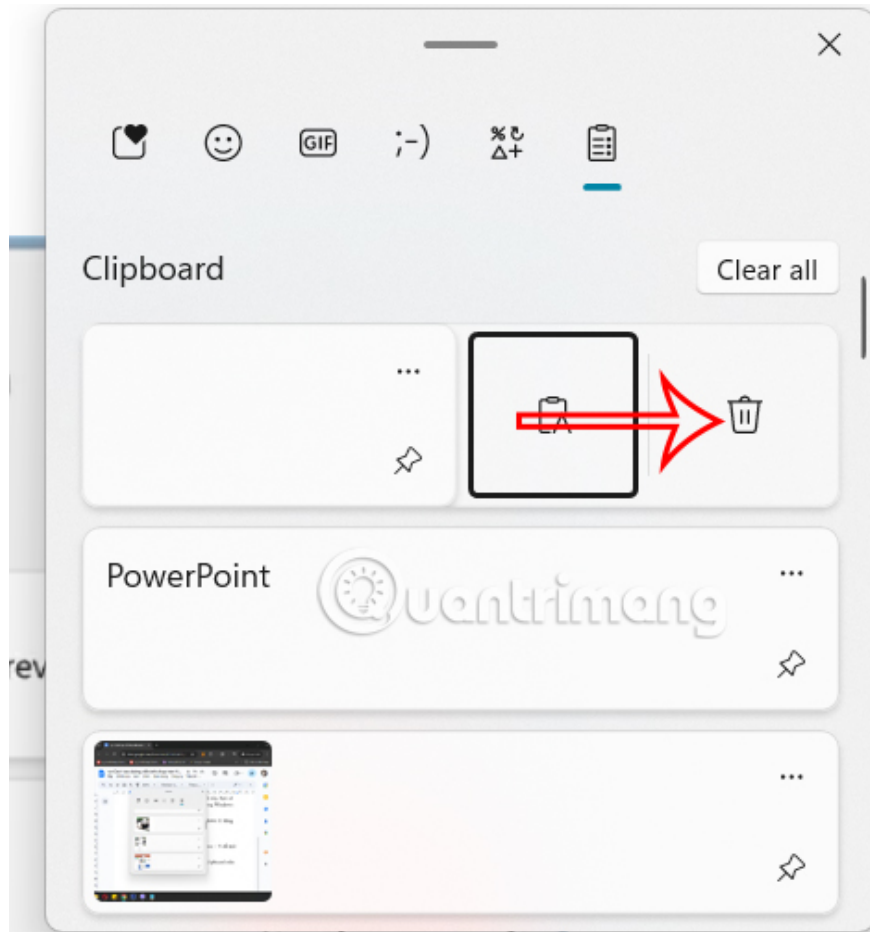

Step 1:

First, press **the Windows + V key combination** to open the Windows 11 clipboard history panel. Now you will see the clipboard history interface on Windows 11.

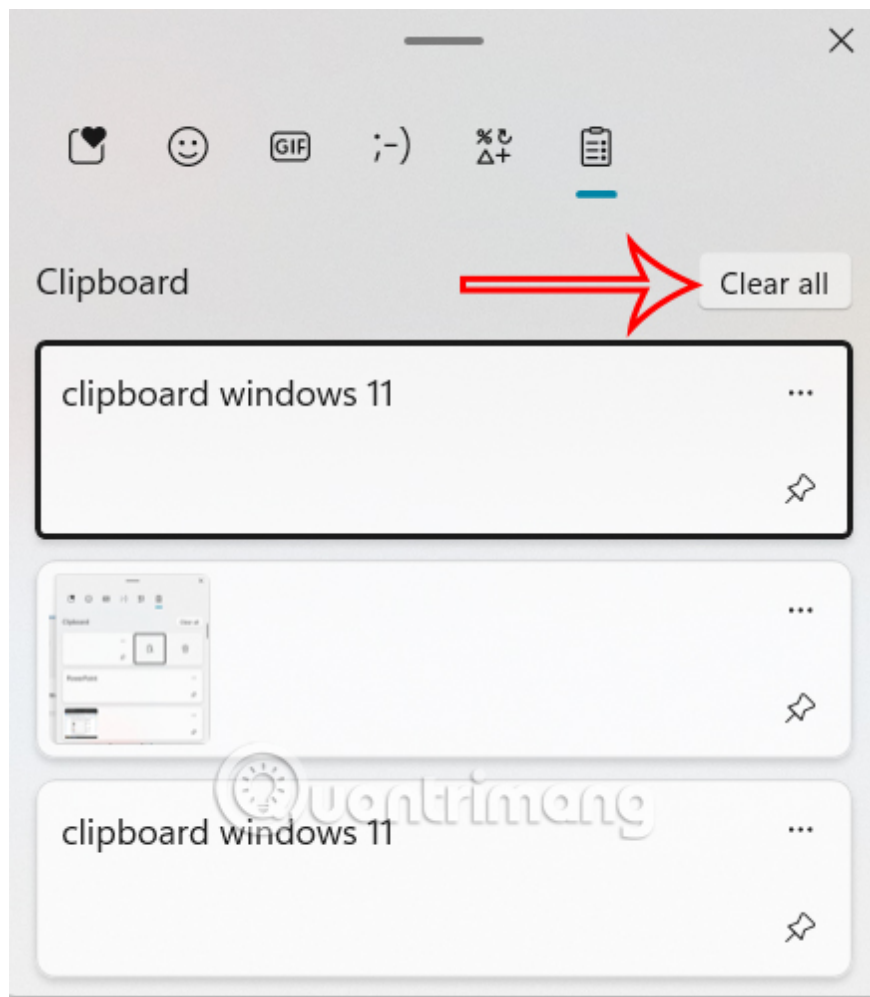

Step 2:

At the item you want to **delete in the clipboard history** , click on **the 3 dots icon** and then click on **the trash can icon** to delete this history.

Step 3:

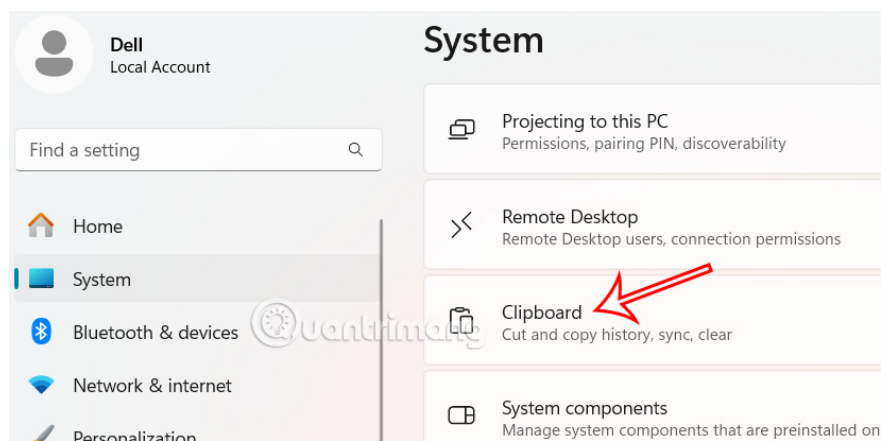

To delete all Windows 11 clipboard history , users click Clear All to perform.

Clear all clipboard history via Settings

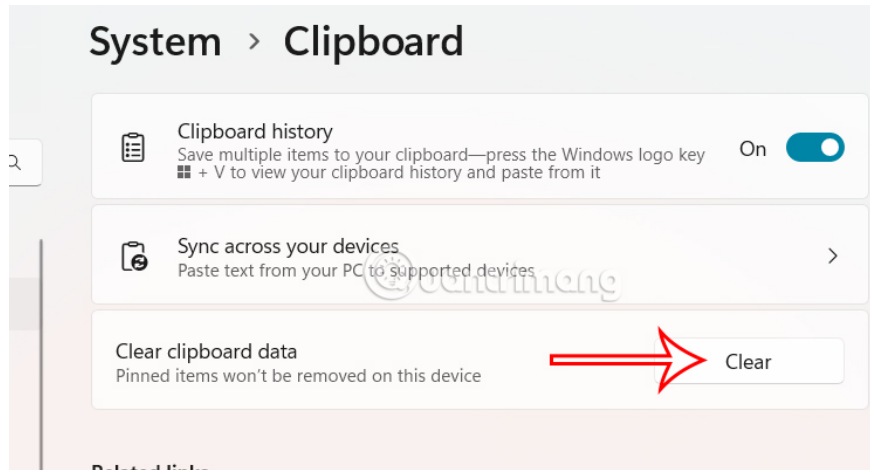

Step 1:

Open Settings on Windows 11 then click **System** > **Clipboard** to access.

Step 2:

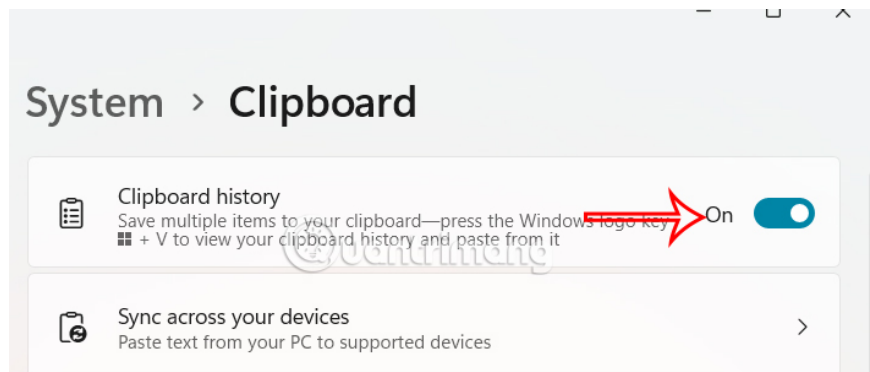

Go to the new interface, **click the Clear button at Clear clipboard data** .

This clears your entire clipboard history except for pinned items. You'll need to unpin them first if you want to clear them completely.

Instructions to turn off Windows 11 clipboard history

We access the clipboard editing interface in the settings on Windows 11. Next, you deactivate Clipboard history. Immediately, the entire clipboard history will also be deleted after you re-enable the clipboard.

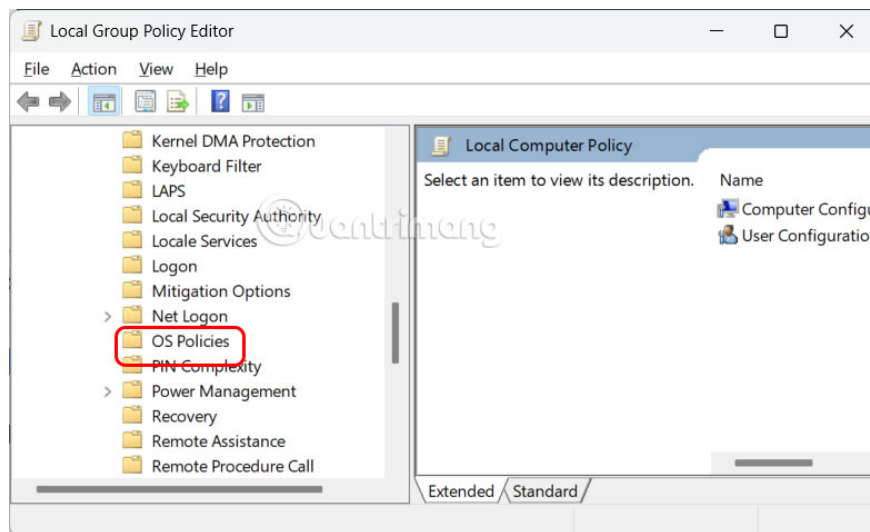

Disable clipboard history via Group Policy

Step 1:

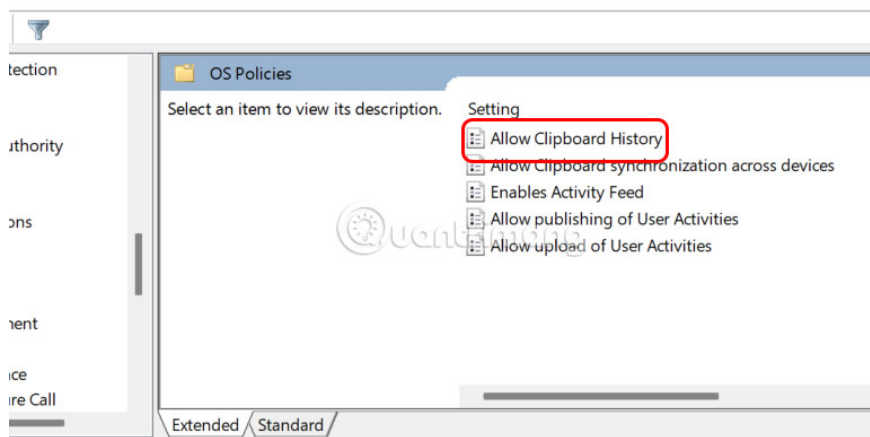

You **enter the keyword gpedit.msc in the Run dialog box** to access Local Group Policy Editor. Next, we access the path below.

Computer Configuration > Administrative Templates > System > OS Policies section

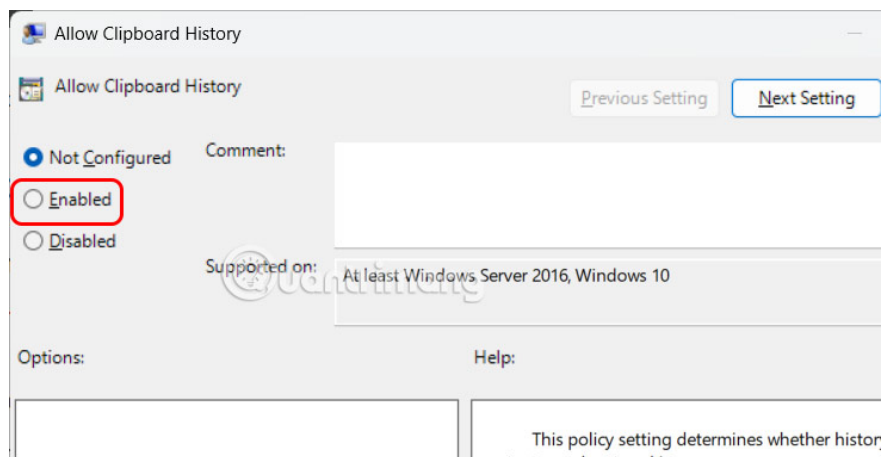

Step 2:

Look at the content next to it and **double click on the Allow Clipboard History value** .

Now **click Disabled** to disable Windows 11 clipboard history.
