

# Instructions for deleting Instagram search history

Removing content on Instagram will increase the security of personal accounts.

On Instagram there is a Discover section for users to search for any Instagram account, or we search for a location or hashtag. And all the content that has been searched is saved for convenience, as well as to easily search for previously searched information.

However, saving this search history also affects the privacy of users' Instagram accounts. The information you seek may be seen by others, affecting the privacy of your personal Instagram account. The best way we should delete all search data on Instagram. The following article will guide you how to delete search data on Instagram.

1. How to activate Instagram security with 2 layers by phone
2. How to change Instagram account information on the computer
3. 12 tips to make it easier for you to master Instagram
4. Instructions for properly using 16 Instagram filters

## Instructions for deleting Instagram search history

### Step 1:

At the Instagram interface, we click on **the humanoid icon** to enter the main interface of the personal page. Next to the user click on **the icon 3 dashes** above and then click on **the Settings icon** below.

### Step 2:

In the Options interface we click on the **Search History** section and see the option to **Delete search history** . When you click on this delete option, you will be asked if you want to search the entire data, **click Yes, I am sure to agree to delete** . Soon the process of deleting the search data on Instagram is conducted.

## Tùy chọn

Thanh toán >

Hoạt động quảng cáo >

Bài viết bạn đã thích >

Ảnh gốc >
