Story and gameplay

Exactly like international Billiards rules, the player's main task is to use the white ball to put as many colored balls as possible into the hole. As soon as it's your turn and you can hole at least one colored ball, you will have the right to play one more turn, but if you miss, your opponent's turn will be changed.

In Billiards 8 Ball Pool there will be a total of 5 levels: London, Sydney, Moscow, Tokyo and Las Vegas, equivalent to increasing difficulty. To be able to participate in the game you need to spend a certain amount of bets. When you first access the game you will be given a certain amount of virtual money by the system.

At the same time, each level will have its own bet amount as the level increases. If you win the match you will receive double the initial bet amount but if you lose you will lose the entire bet amount.

When playing 8 Ball Pool Billiards you can choose 1 of 3 modes: random 1 vs 1 match, play with friends or round tournament.

However, one minus point compared to other games is that 8 Ball does not have an online chat function between players, instead there are only simple greetings or compliments pre-installed by the system.

The game is designed with a control bar to control the force and direction of shooting to help players show off all their skills to their opponents.

Outstanding features of the game 8 Ball Pool

Game 8 Ball Pool has 4 features that players need to understand as follows:

1 vs 1 competition mode or participate in 8-person tournaments

For 1 vs 1 match mode, there are 2 ways for you to play: choose to compete randomly arranged by the system with another player or play with friends.

For tournament mode, you and other players will randomly compete in rounds with each other, the winner of a match will advance to the next round and be paired with a new opponent, and the difficulty level will vary. will also gradually increase. If you win the entire match, you will have the opportunity to own extremely attractive rewards.
