Step 4:

Switch to the interface on the Slidesgo website. Now you can **select the major you are interested in** to find a suitable template, then click Save.

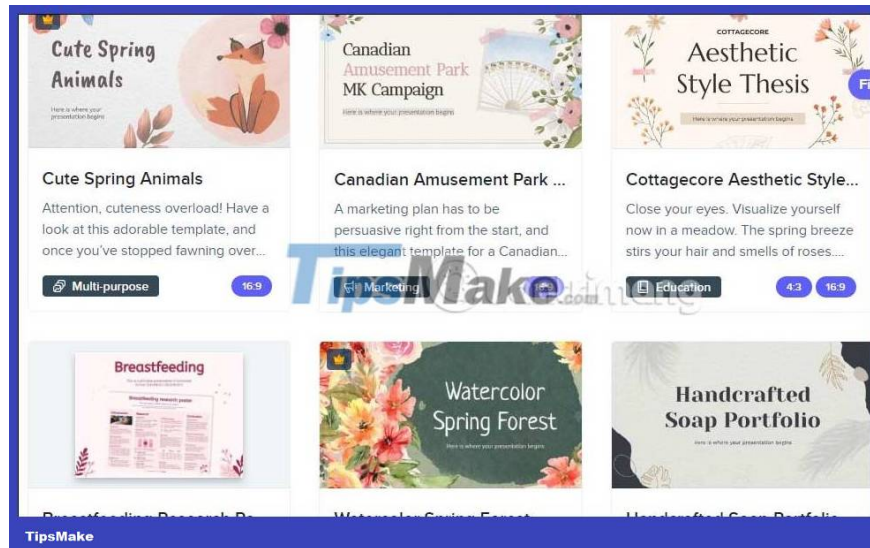

Step 5:

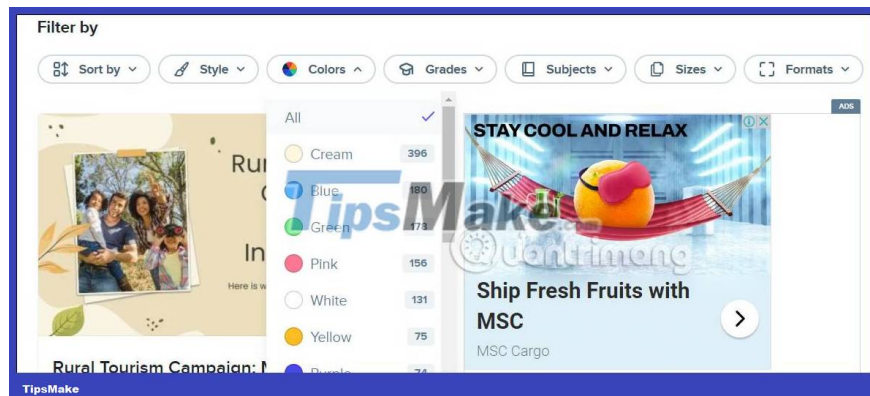

In Slidesgo's homepage interface, **enter the template keyword you want to search** for on the website.

As a result, users will see templates according to the theme you entered. Here you can choose which template you want to download and use.

We can filter more carefully through **the Filter by section** to select a specific template according to our needs.

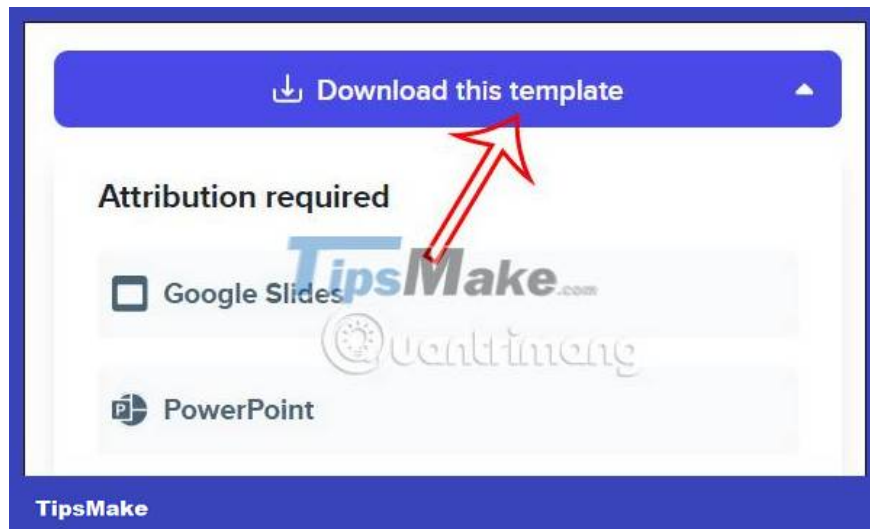

Step 6:

Click on the template you like. In this template, users will see details about this slide template for you to use, and the slide pages in that template.

Step 7:

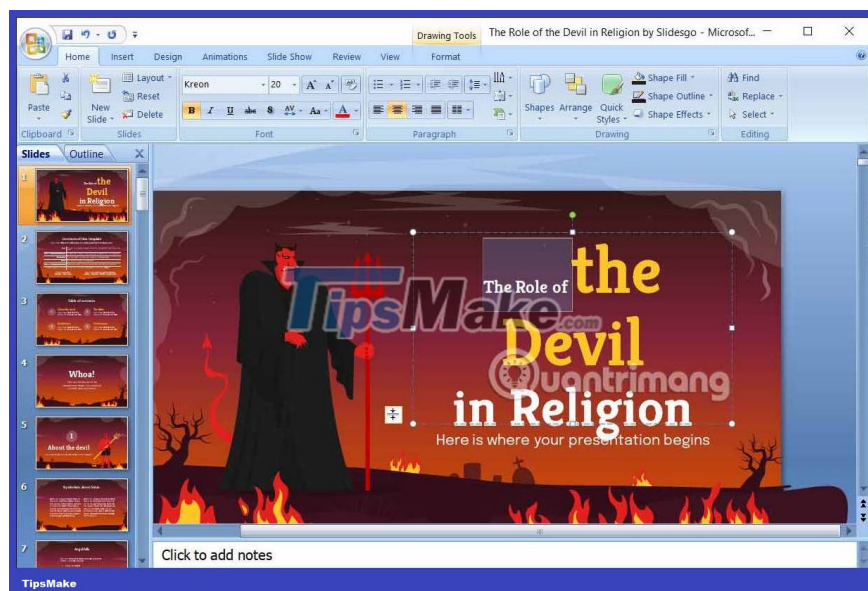

To **download the template on Slidesgo** , at **Downlaod** , click and choose to **download the template for PowerPoint or Google Slides** . Soon this template will be downloaded.

If **used for Google Slides** , the interface will immediately appear as shown. You just need to **click Create copy** to open and edit on Google Slides.

If using for PowerPoint, you just need to **open the template in PowerPoint** as usual. Finally, we proceed to edit it to our liking.
