## Tricks to download private videos on Facebook

If you've ever downloaded public videos on Facebook, you've heard of **FBDown.net** - the web application that has appeared in the last few years. Please download the private video with this tool!

1. First, you need to navigate to the website/download/download-downloader.php in your browser.
2. In a new tab, log into Facebook and visit the private video page you want to download.
3. If you are using Windows, press **Ctrl + U**. If you're using a Mac, press **Command + Option + U**. This shortcut will display the website source code.
4. Copy the source code into the empty box on FBDown.net.
5. Click **Download**.

Also, if you use Chrome, you can use browser extensions. You can download FBDown.net from the Chrome online store.

Note: Please use this tool appropriately. You should not download private videos of others, then post them on public forums without their permission.

Good luck!
