

# Instructions for embedding images into text on Canva

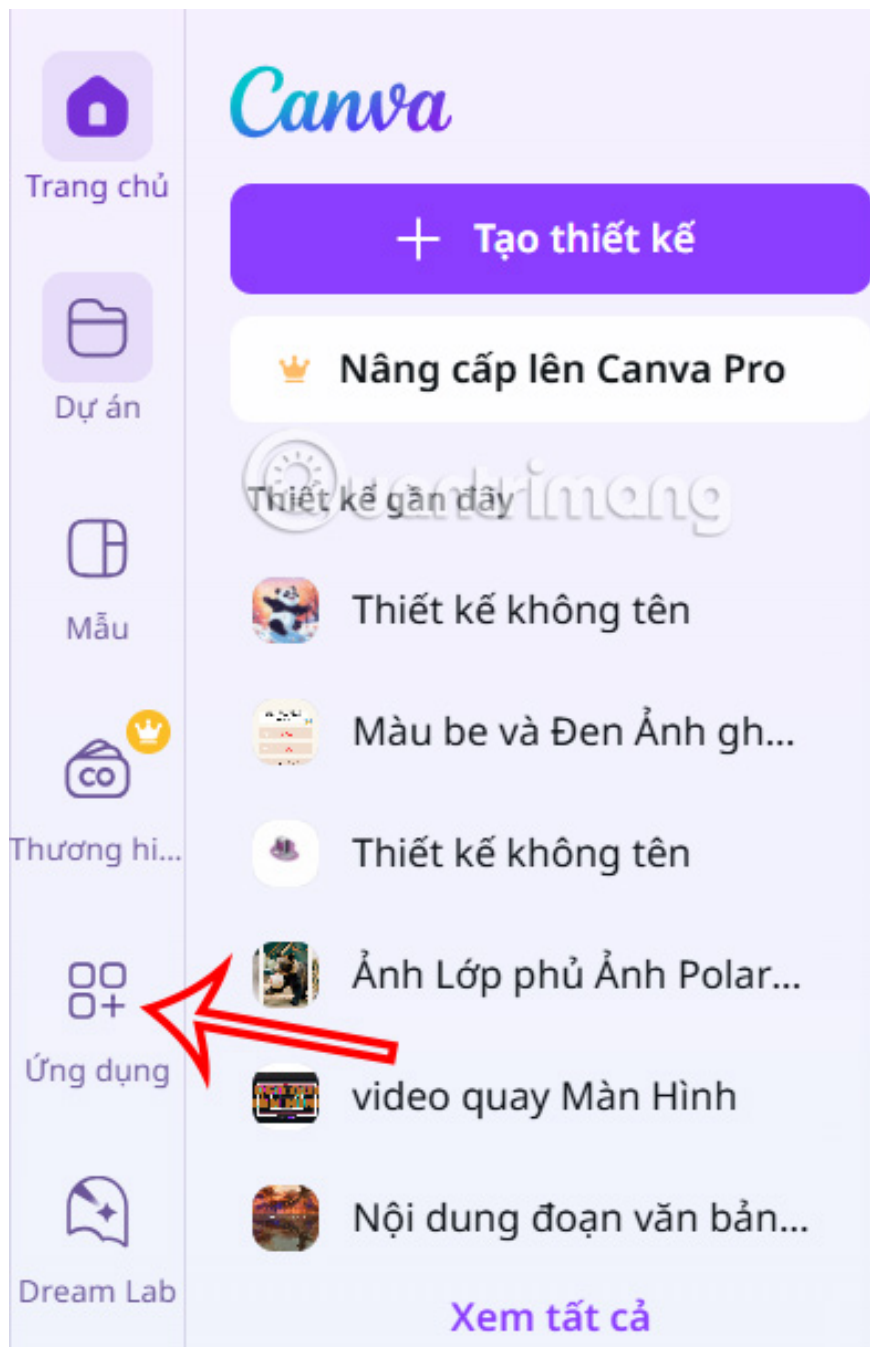

To design a photo-in-text design on Canva is very simple, you just need to choose the photo-in-text application. Below are instructions for inserting photos into text on Canva.

Image-in-text is a very artistic type of text design, and is used for many different design purposes. We can create an image-in-text design on Photoshop, or more simply, you can use Canva to design. To design an image-in-text on Canva is very simple, you just need to choose the image-in-text application. Below are instructions for image-in-text on Canva.

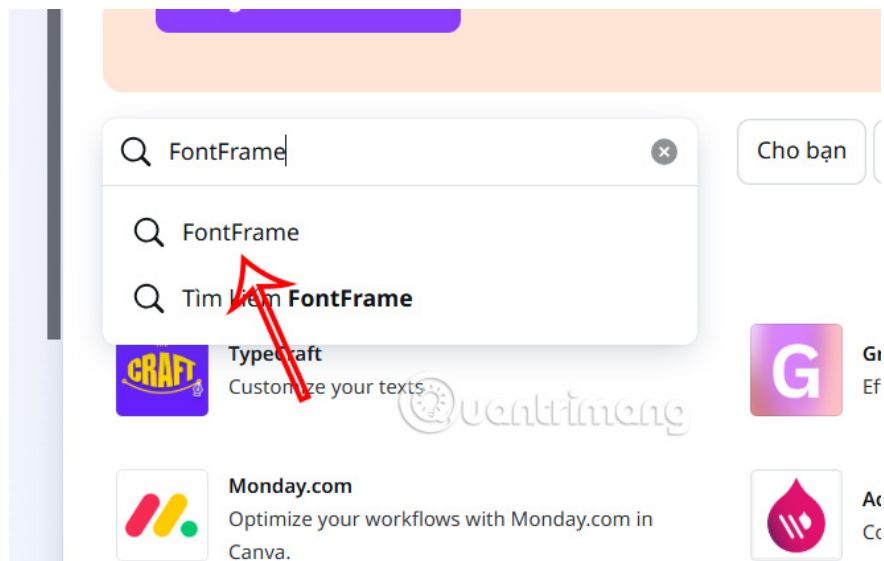

## How to insert images into text on Canva

### Step 1:

At the interface on Canva, click on **the Application section** to search.

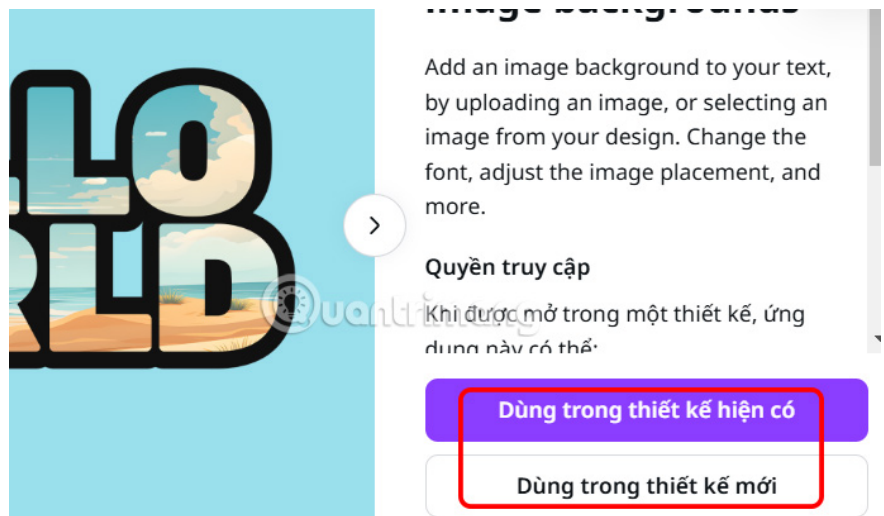

Then we enter **the FontFrame application** in the search bar, then click on the application found below.

## Step 2:

Now you will see the FontFrame application, you **click Use in existing design** or Use in new design.

First, **enter the text** you want to display in the design interface, then **select the font** below.

Add text

Quantrimang

Preview shows best with 35 characters or less

Rubik > [Menu Icon] [Vertical Align Icon]

Add to design

The user selects the font he wants to use for the design.

🔍 Search fonts

**Rubik**

**Open Sans**

**Montserrat**

**Poppins**

**Inter**

**Roboto Condensed**

**Oswald**

**Raleway**

**Nunito**

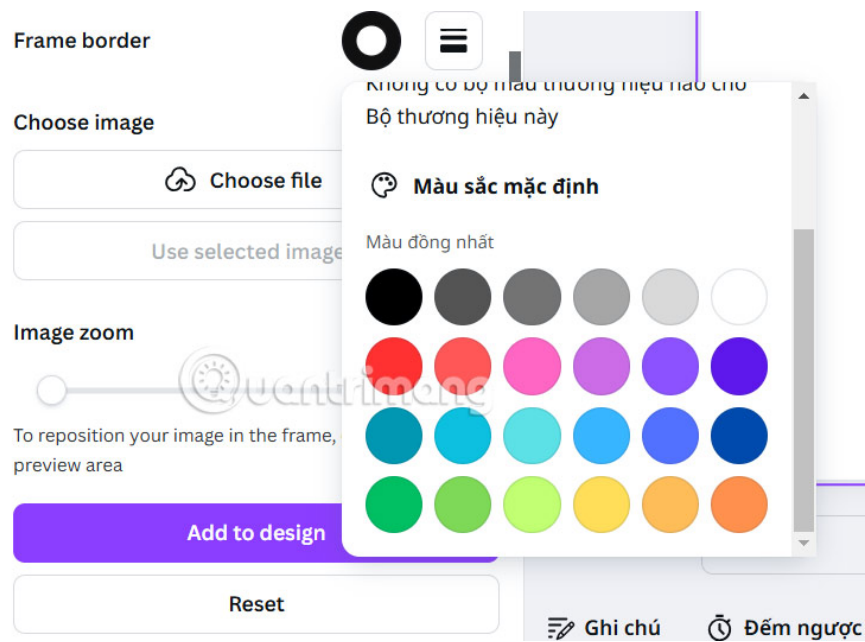

**Nunito Sans**

**Playfair Display**

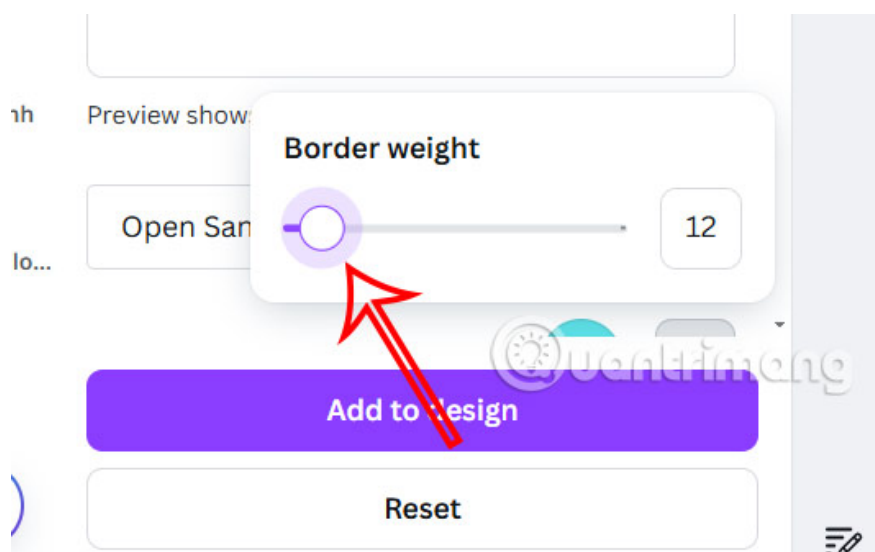

**PT Sans**

**Step 3:**

Next, you **choose the border color** you want to use for your font design.

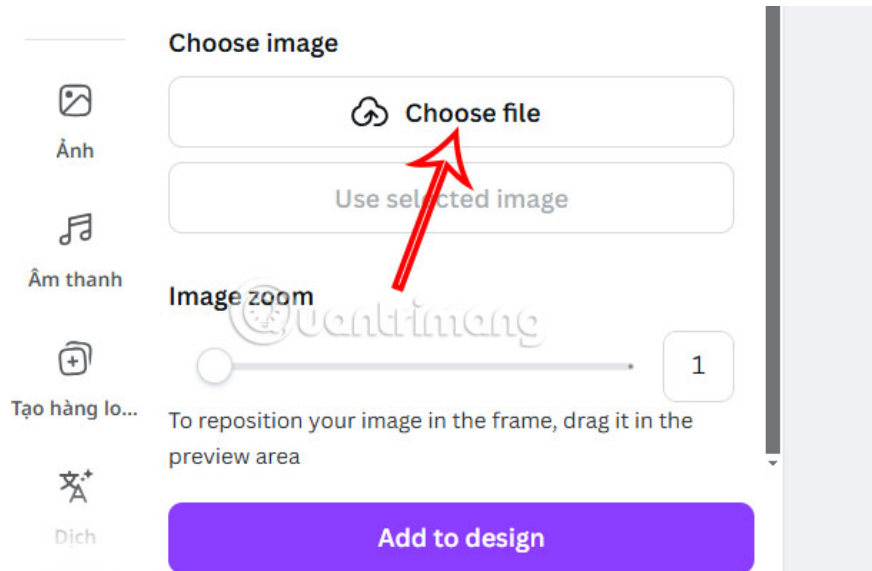

Then we **adjust the text border to the size** we want.

#### Step 4:

Click **Choose file** to upload the image to insert text into Canva.

We can change the angle of the image displayed in the text in the Image zoom bar to adjust the image zoom again.

**FontFrame** ⋮
