

Instructions for hiding friends' Telegram Stories

When friends post Stories, it will appear immediately on your Telegram interface. And if you don't like someone's Telegram Story, users can hide that content.

The Telegram Story feature has now been applied to all accounts and is similar to the Instagram Story feature or Facebook Story feature. When friends post Stories, it will appear immediately on your Telegram interface. And if you don't like someone's Telegram Story, users can hide that content. Below are extremely simple instructions for hiding Telegram Stories.

Simple way to hide Telegram Story

Step 1:

At the interface on Telegram, find the Telegram Story you want to hide, then press and hold on that Story and **select Hide Stories** in the list displayed as shown below.

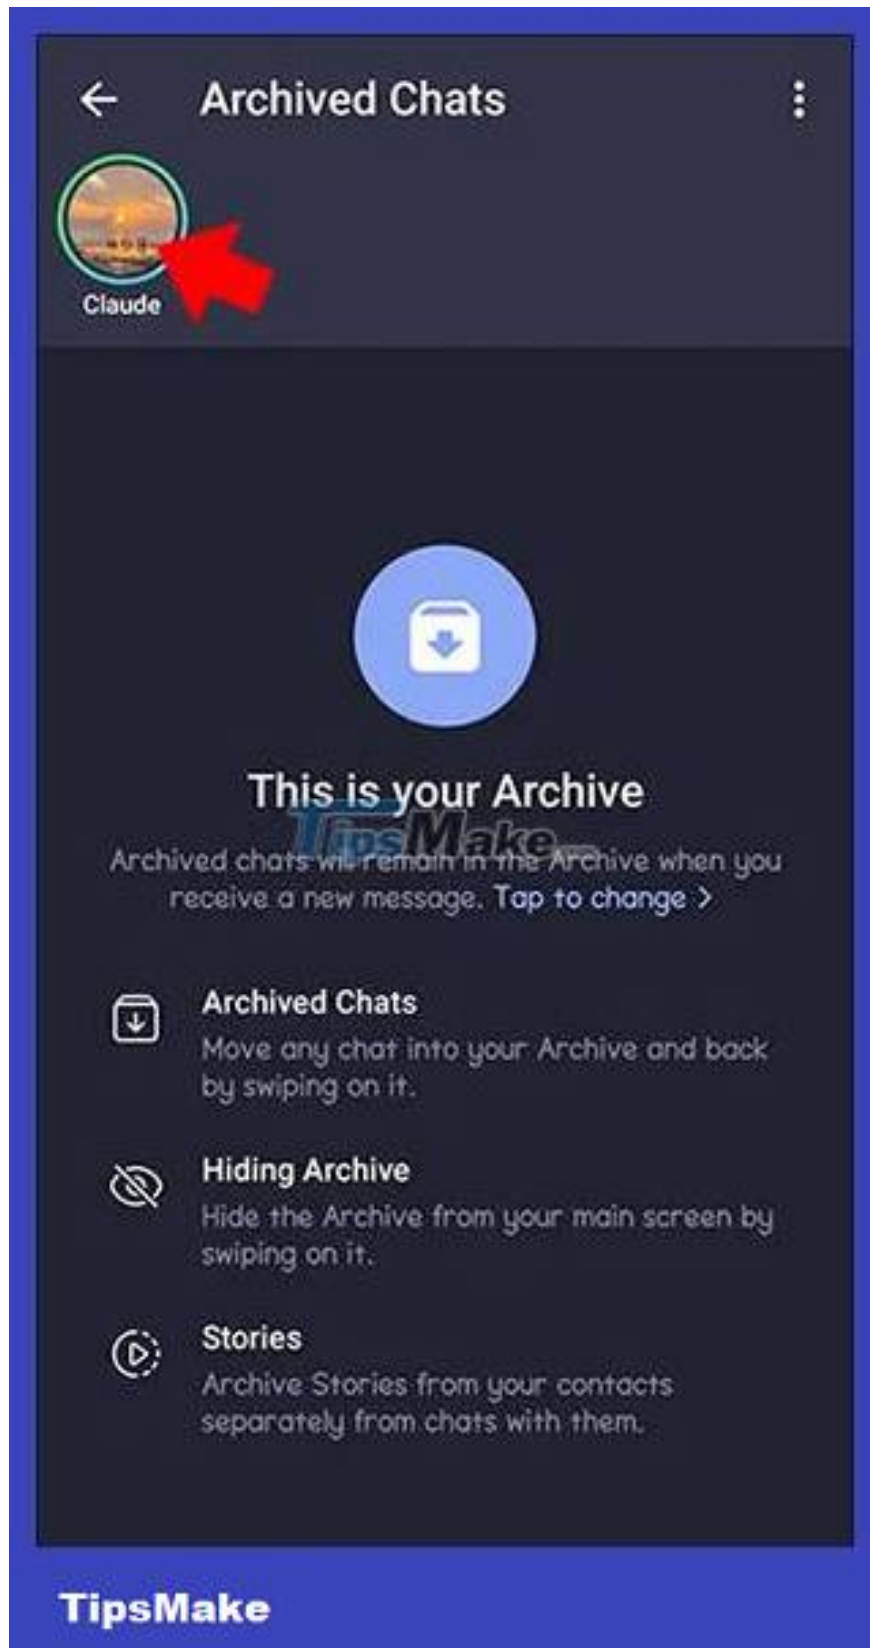

Step 2:

Immediately after that, the hidden Telegram Story video will be saved in a separate section for users to review the video if needed. Click on **Archives Chats** to view **hidden Telegram Story video content** .

Step 3:

You will now see the hidden Telegram Story video. You just need to press again to view the content.

Step 4:

To **re-display the** hidden Telegram Story content, we press and hold on the Telegram Story we want to display again and then select Unhide Stories in the list of display options.

Immediately after that, your friend's Telegram Story video will display your Telegram interface again.
