How to install and play Boom M on your computer

Step 1: To download and install Boom Mobile on your computer, you will need an Android emulator on your computer. Most convenient, please use NoxPlayer to play Boom Mobile on your computer in the most convenient way.

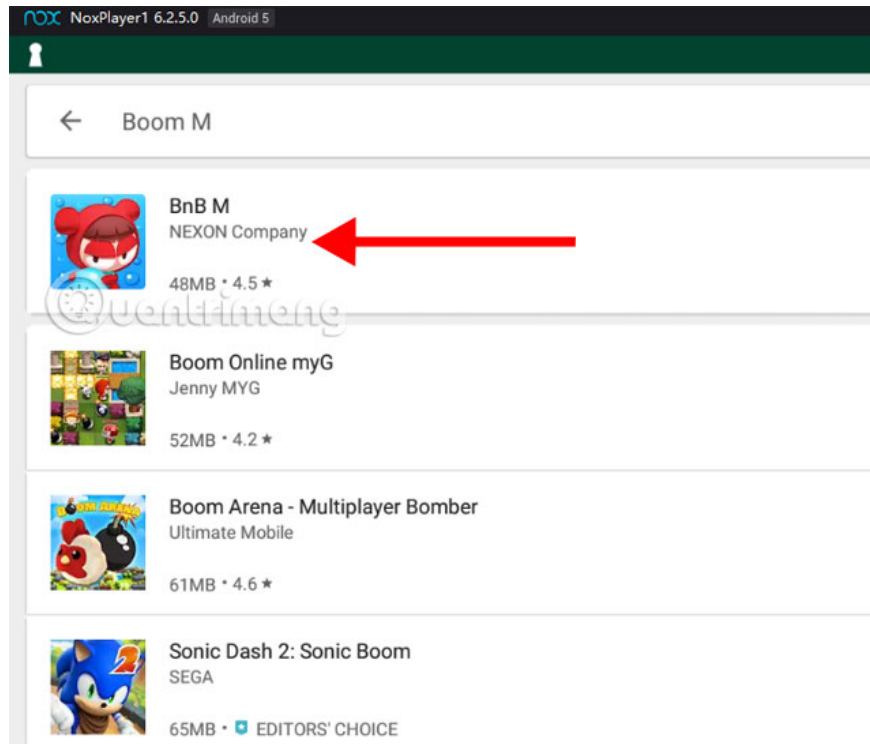

Then start the Nox Player, select the CH Play app or App Center as shown below to enter the Google Play Store

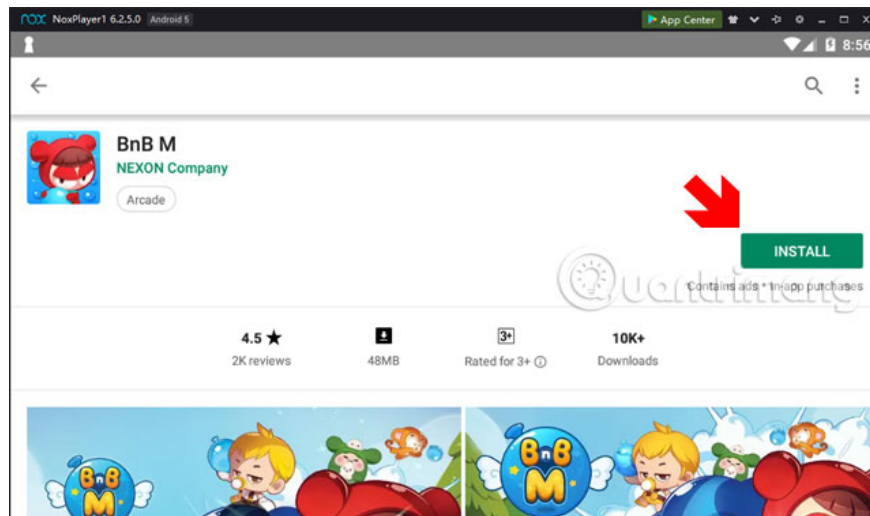

Next, type the search keyword Boom M or Boom Mobile or BnB M into the search box and press **Enter** .

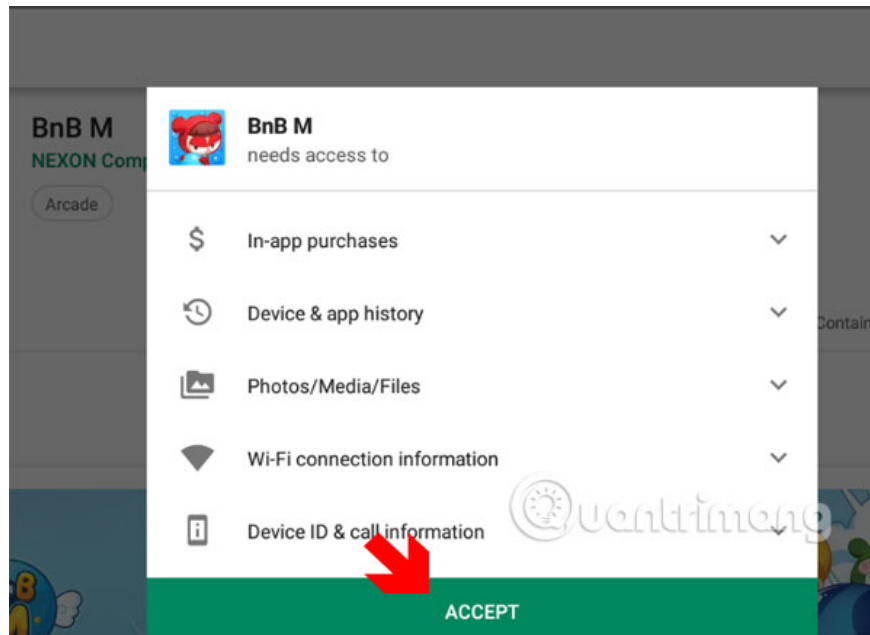

Then click on the Boom Mobile game icon named BnB M below.

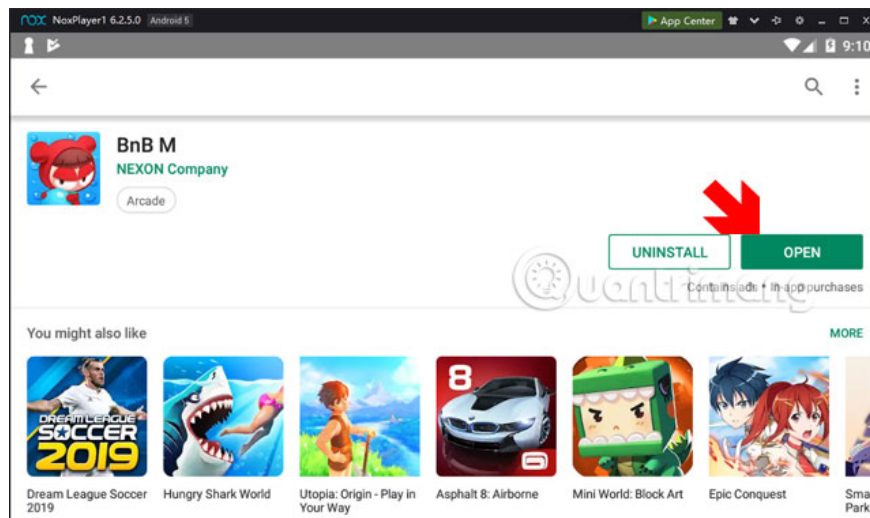

Next click **Install** to install Boom Mobile on the computer

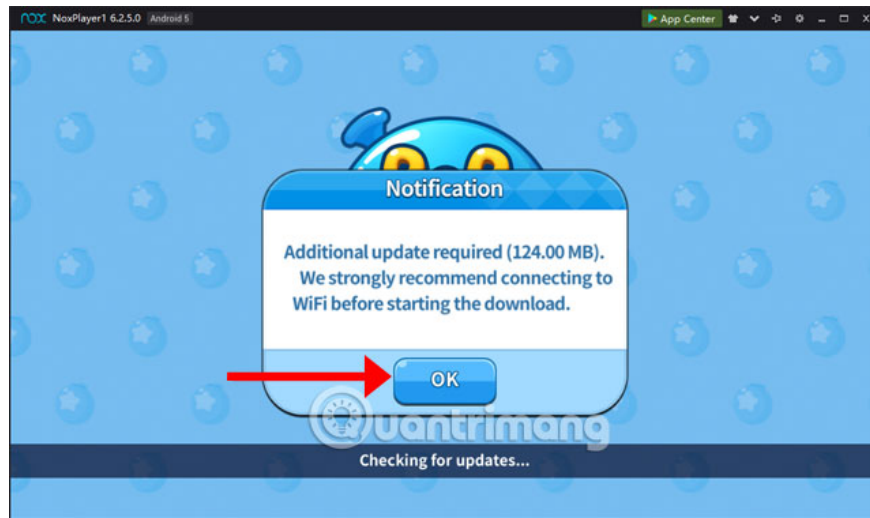

Click **Accept** to allow Boom Mobile to access the media on your device.

The game is quite light, so the download time will be very fast, press **Open** to start and play Boom Mobile.

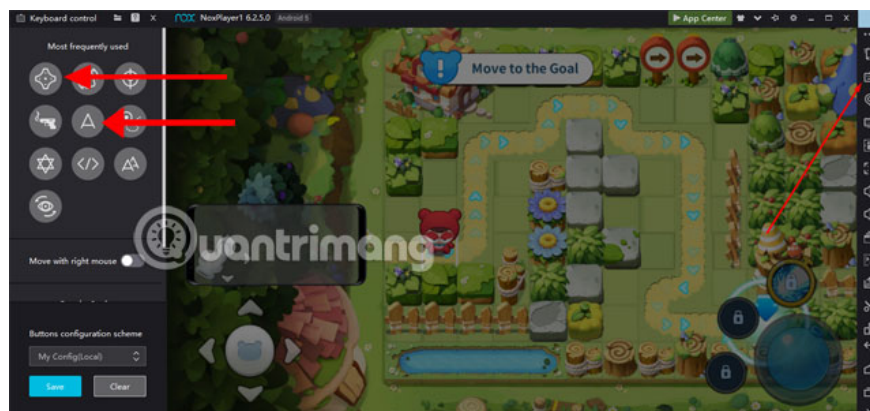

If you require an update, click **OK** to Boom Mobile to update.

You can choose one of them, choose which one you still have to follow Boom Mobile's instructions.

Next, if you want to play with keyboard settings like Boom Online in the past, please click on the icon to install the gaming keyboard on the Nox Player on the right of the toolbar as shown below. After that, mainly you only need two moving icons and shortcuts as shown below.

These two icons will help you move and set the boom like the old Boom Online game, the bomb key you can assign to the Space key (keyboard) on the keyboard is the most familiar.

If you want to control the scroll key with the 4 right arrow keys, assign them instead of the 4 common WSAD scroll keys, then press **Save** to save.

Moving with these arrow keys will help you regain the feeling of crossed hands when playing Boom Online in the past.

After you've installed the shortcut, you can log in to the game and play as Boom Mobile in the past.

Items that enhance the character in the game will be the same as the previous Boom Online version, from increasing the number of bombs, making longer bombs, speeding characters, mounts, darts . All will identical to the previous Boom Online version, the only difference is that you will have more skills for each of your characters.

If you want to know how the character list in Boom Mobile has specifications, please refer to the article Synthesis of characters and character skills index in Boom Mobile, in which there will be full characters of Boom Mobile and skill index of each character to choose from.
