

Instructions for installing Mickey Mouse and Minnie Mouse AR Emoji on Galaxy S9

If you want to try something different like putting your expressions on Mickey Mouse and Minnie Mouse, you can follow the instructions below to download Mickey and Minnie Mouse characters, then start experience them.

Owning Galaxy S9 or Galaxy S9 +, you can use the legendary cartoon characters of Walt Disney - Mickey Mouse and Minnie Mouse through the AR Emoji feature on your phone to create personalized messages. The AR Emoji feature is integrated inside the camera application of the camera, which works by scanning the face through the front camera and then creating a 3D image that simulates your own face.

If you want to try something different like putting your expressions on Mickey Mouse and Minnie Mouse, you can follow the instructions below to download Mickey and Minnie Mouse characters, then start experience them.

How to install Mickey Mouse and Minnie Mouse AR Emoji on Galaxy S9

Step 1:

On S9 or S9 + phones, proceed to start the device's camera application and switch to the previous camera mode by leaving the phone vertically, then swiping up or down. (If you used the front camera, you can skip this operation).

Step 2:

From the front camera interface, swipe left to the screen a few times until the camera displays AR Emoji mode.

Step 3:

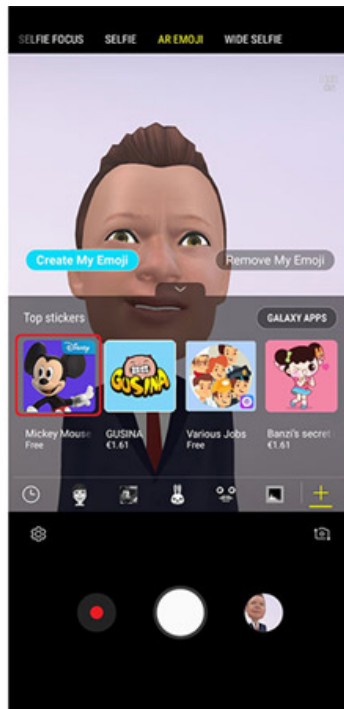

Click the + sign icon in the bottom right corner of the screen to bring up a list of available stickers for download only.

Step 4:

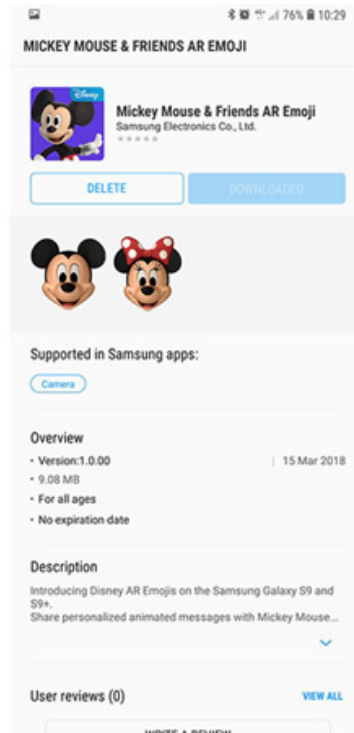

Select the Mickey Mouse sticker, you will be moved to Galaxy Apps store (Samsung's official app store) and the Mickey Mouse list with Friends AR emoji.

Note: The Mickey Mouse icon will be at the top of the download list, if not, try again later, because the new Emoji option may not be available to everyone.

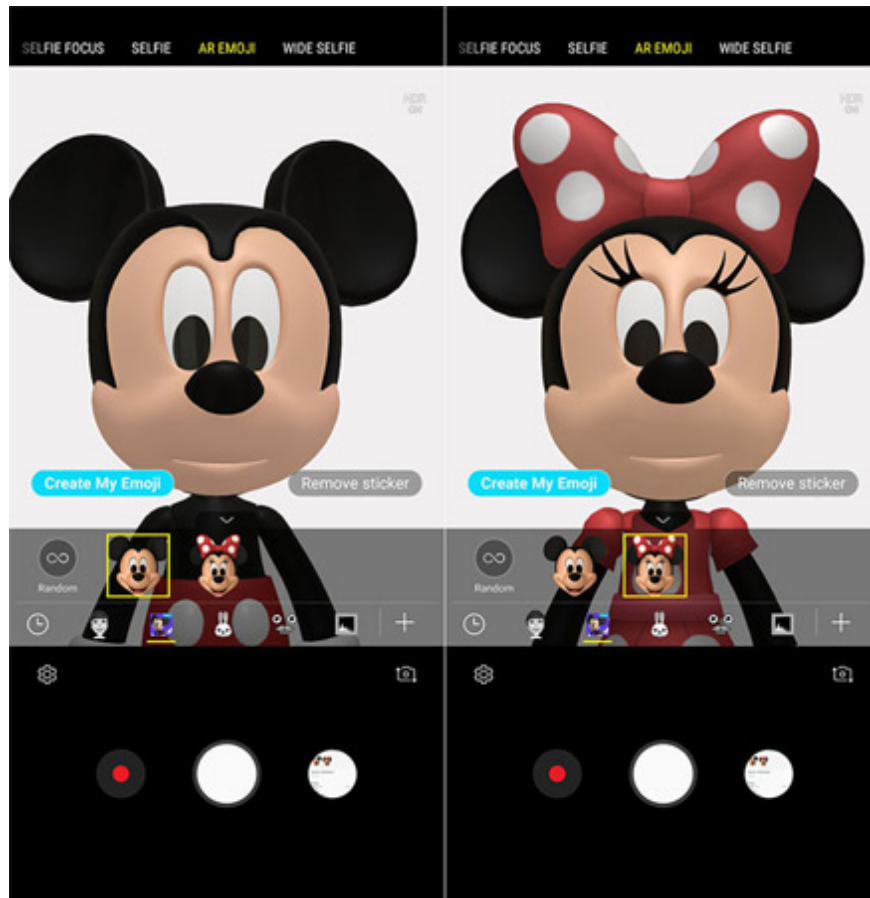

Step 5:

Now simply click the Download button (or Settings) to download and install the new emojis. This process ends, press the back button on the phone to return to the camera.

Step 6:

At this time, in the AR Emoji mode you will see the Mouse Mickey icon in the emojis list available, before the + button. Touch this icon as you can start creating emoji Mickey and Minnie Mouse.

I wish you all success!
