

# Instructions for installing Online TV Player

Installing an Online TV Player to watch TV on your computer is a great solution, allowing users to watch their favorite TV programs and radio channels, both domestic and international, with stable and flexible quality without needing a TV or radio.

Online TV Player is a compact tool that allows users to enjoy engaging domestic and international television programs over the internet, as well as listen to radio.

## *Instructions for installing Online TV Player*

Currently, the software only supports Windows XP, 2000, and 98 operating systems and requires RealPlayer 6 or Microsoft Media Player 7 or later to watch TV programs.

You can download it via the Taimienphi link below:

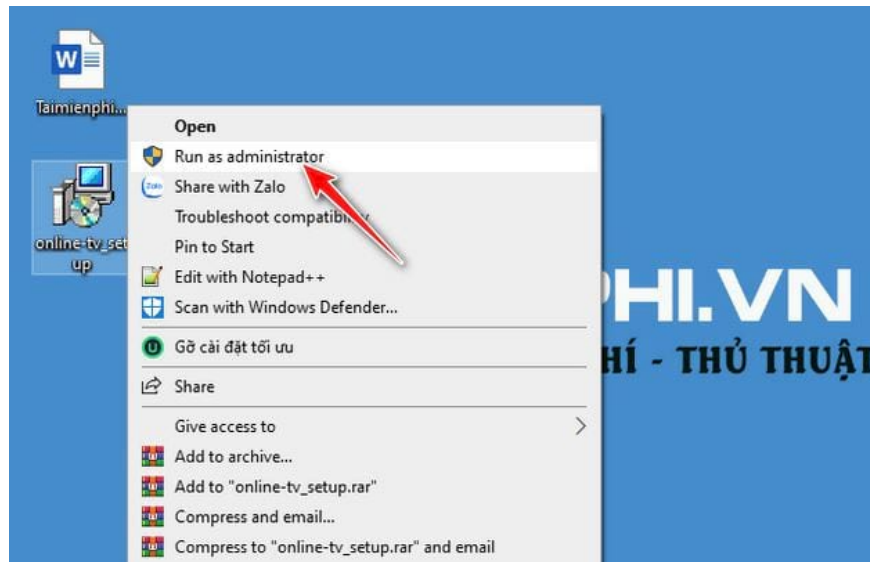

- Download Online TV Player: Download **Online TV Player**

You can also download the latest versions of RealPlayer and Microsoft Media Player:

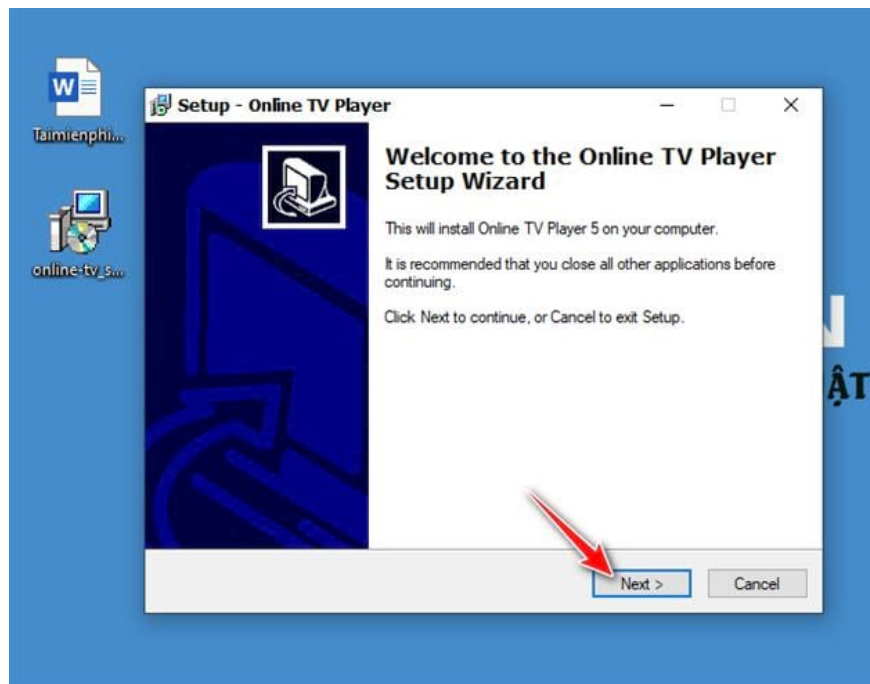

- Download RealPlayer: Download **RealPlayer**

- Download Microsoft Media Player: Download **Microsoft Media Player**

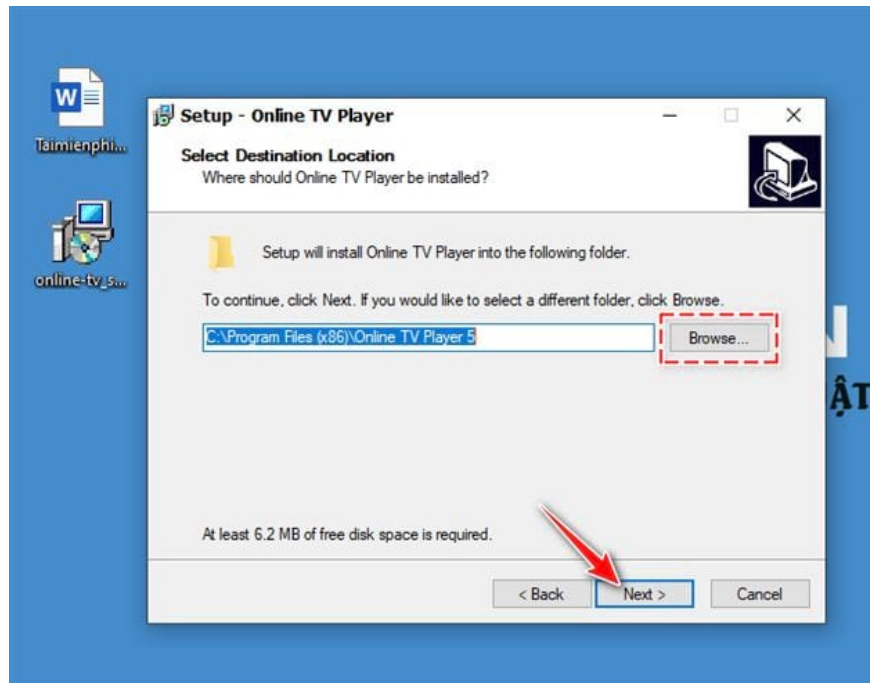

*Step 1:* Open the downloaded file on your device with administrator privileges.

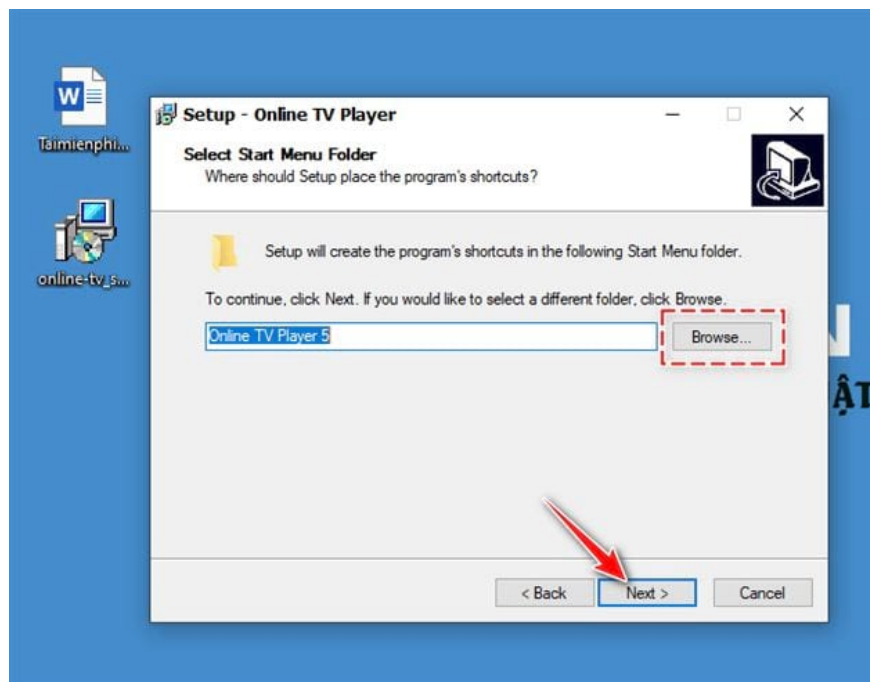

**Step 2:** In the welcome window, click **Next** to proceed to the next step.

**Step 3:** In the installation directory setup window, click **Next** to keep the default location or select **Browse** to change the location.

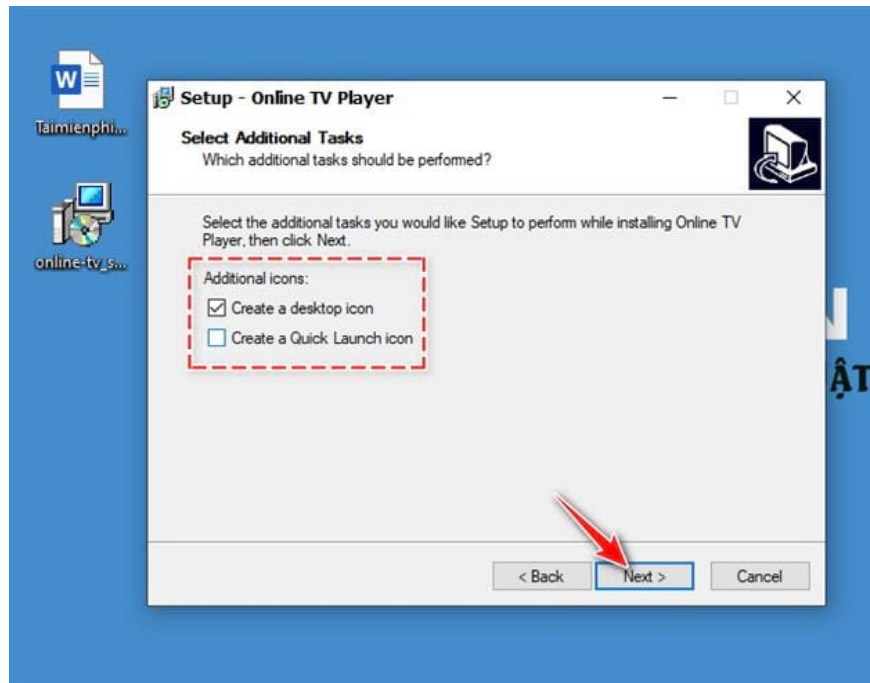

**Step 4:** Similarly, you can change the shortcut settings in **the Start Menu** by clicking **Browse** . Click **Next** .

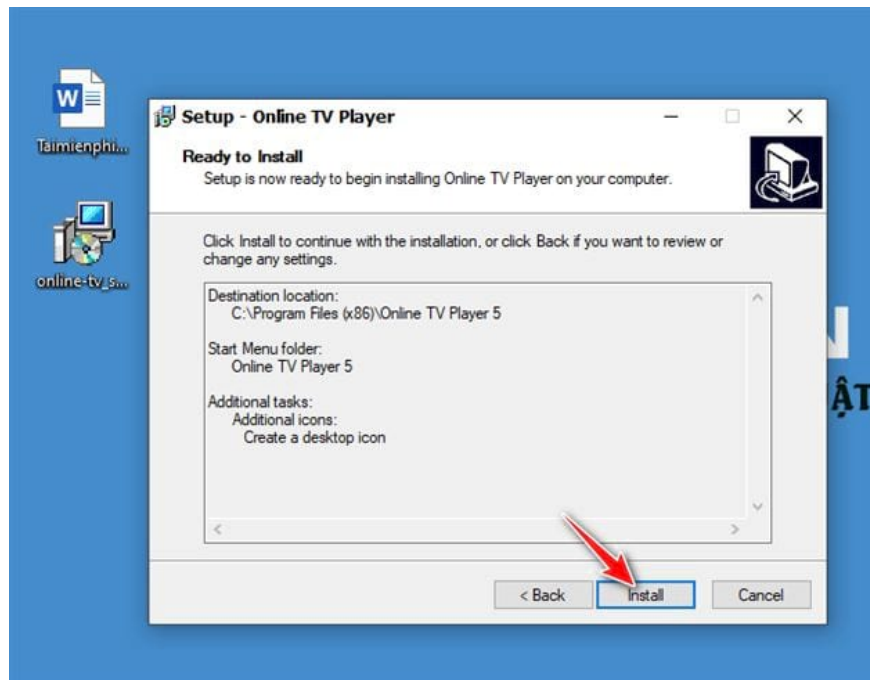

**Step 5:** In the new window, you can select:

- **Create a desktop icon:** Create a shortcut on the desktop;
- **Create a Quick Launch icon:** Create a shortcut on the Taskbar;

After you have checked the box next to your desired setting, click **Next** .

**Step 6:** Click **Install** to begin the software installation process;

**Step 7:** The system will install in a few minutes. Click **Finish** to complete the installation process.

Now that the installation process is complete, open the software on your device; the **Online TV Player** interface will appear as follows.

We've just learned the 7 steps to installing an Online TV Player. Now you can comfortably watch exciting international TV programs on your computer anytime. In addition, there are many other professional TV viewing software options for computers and phones that you can download and use.
