

Instructions for installing Spotify on Samsung Smart TV

It's easy to download Spotify on your phone, but what if you want to add this app to your Samsung Smart TV to experience? Very simple, the following article will show you how to install Spotify on Samsung Smart TV running Tizen operating system.

Spotify is one of the hottest online music applications currently selected by music lovers. It's easy to download Spotify on your phone, but what if you want to add this app to your Samsung Smart TV to experience? Very simple, the following article will show you how to install Spotify on Samsung Smart TV running Tizen operating system.

1. Instructions for installing Spotify on Samsung Smart TV

Step 1:

You access the application store of the TV by pressing the Home button (the button with the house shaped) on the control, then select the APPS item.

Step 2:

Enter the word "*Spotify*" in the search field, the application will appear.

Step 3:

Select *Install* to proceed to download Spotify to Samsung TV.

Step 4:

The installation process is complete, select *Open*, then Spotify will appear on the television screen.

2. Register for Spotify account on Samsung Smart TV

To experience Spotify on TV the best way, you should sign up for Premium package, now Spotify is offering Premium package at the price of 59,000 VND / month. With Spotify's Premium, you can increase the quality of streaming music to the highest, without annoying ads, using the extremely convenient Spotify Connect feature, etc. You can also sign up for a 1-month trial account. Follow the steps below, after one month you must buy again to continue using.

Step 1:

Start Spotify on Samsung Smart TV, the application interface will appear and select *Register for free*.

Step 2:

To create a Spotify account, complete your personal information such as Email, username, password, date of birth, gender, and then click *Register*.

Step 3:

Successful registration, you will see the application interface appears as shown below, and now enjoy the delightful music now.

I wish you all success!
