

# Instructions for logging out of Mail on iPhone

Signing out of your Mail account on iPhone will completely exit your account and switch to using another email service.

Signing out of your Mail account on iPhone will completely log out of your account to switch to another email service. Users have the option to temporarily disable the Mail app on iPhone, without completely deleting the account, which is also simple. Below are instructions for signing out of your Mail account on iPhone.

## How to Temporarily Turn Off Email on iPhone

### Step 1:

You access settings on iPhone then click on **Mail application** in the list. Switch to the new interface, users click on **Account item** below.

Your email will disappear from the Mail app immediately, but the account will remain on your iPhone. This is also useful if you want to stop seeing emails in Mail but still use that account in other apps like Contacts or Calendar.

## How to Sign Out of Mail on iPhone

We also access the settings on the iPhone and then tap on the Mail app. Then select Accounts and select the email account you want to delete from the iPhone. Finally, **tap Delete Account** and select **Delete from My iPhone** to do so.

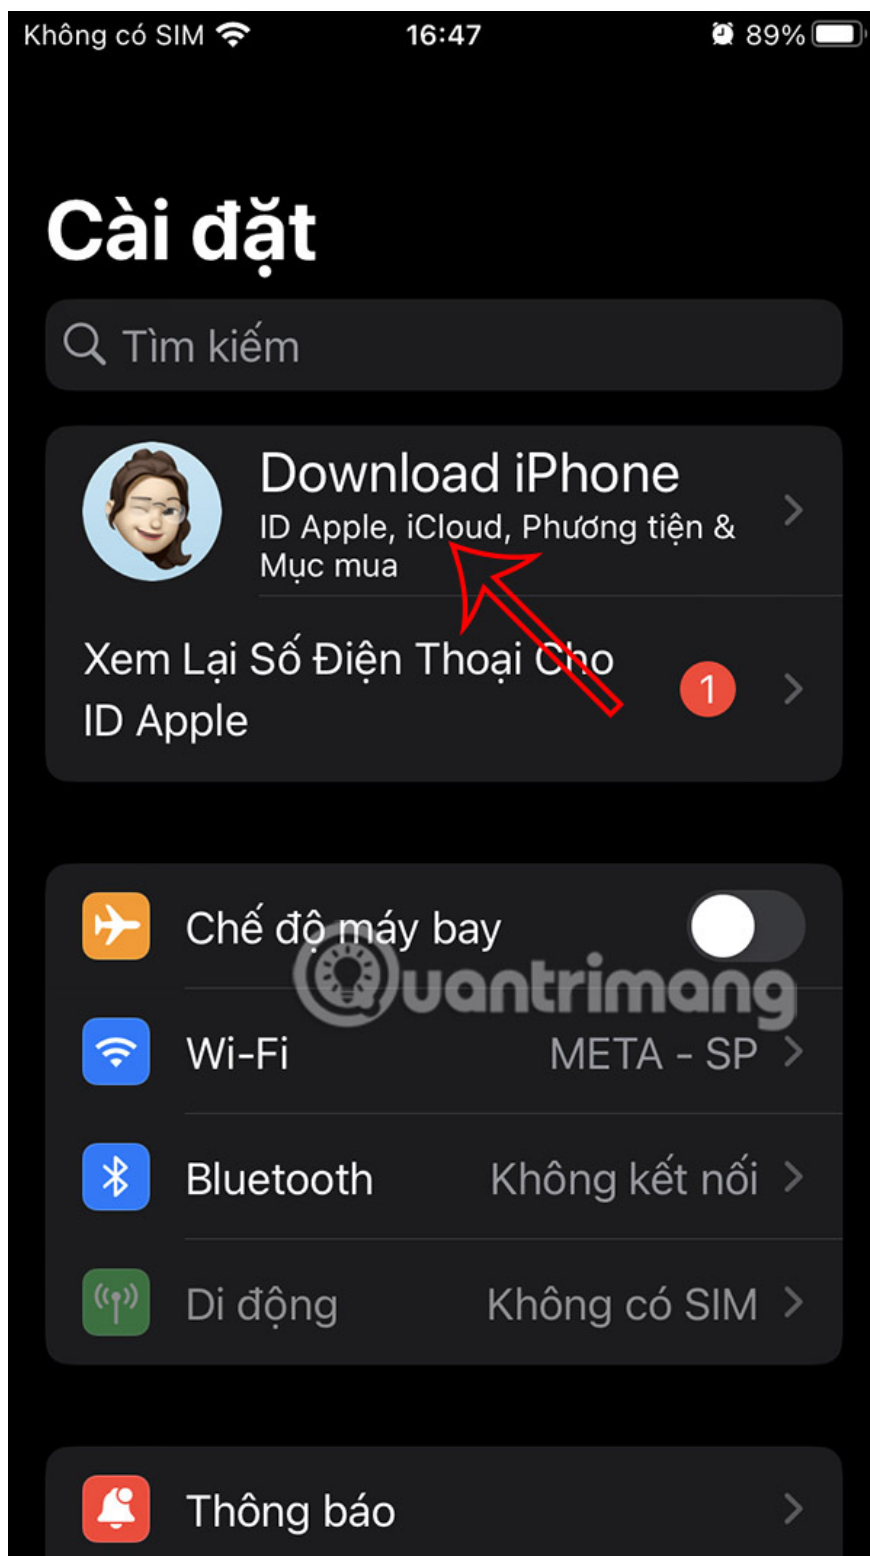

This will remove the account from the Mail app and other apps that use it, such as Contacts or Calendar.

## How to delete iCloud email on iPhone

Tap on your iCloud account on your iPhone and **select Sign Out** at the bottom of the interface. Enter your account password to continue.

This will remove your entire Apple account from your device. You won't be able to use it in other apps or access iCloud data.

## How to Sign Out of Gmail on iPhone

If you use the Gmail app instead of Apple's Mail app, you'll need to do this directly in the Gmail app.

You access the **Gmail application** and **click on the avatar** . Then click **Manage accounts on this device** and click **Remove from this device** to do so.
