

Instructions for ordering food through GrabFood

Using GrabFood, just a few touches, you can enjoy your favorite foods quickly, especially GrabFood's food delivery service does not require minimum order value, price level. Transfer is also quite cheap.

GrabFood is a completely new feature added on Grab application. This is a fast food delivery service that is extremely useful for those who work in the office or who regularly order food and drinks online.

Using GrabFood, just a few touches, you can enjoy your favorite food quickly, because its advantage is to take advantage of your GrabBike drivers and as we know it now. Grab's GrabBike driver is very crowded. In particular, GrabFood's food delivery service does not require the minimum order value, the shipping price is also quite cheap. So how to order food via GrabFood? Please see the detailed instructions below.

1. Instructions for booking Grab car on Google Maps
2. Instructions on how to use Grab to call GrabBike
3. How to call GrabTaxi online

Put GrabFood to order food

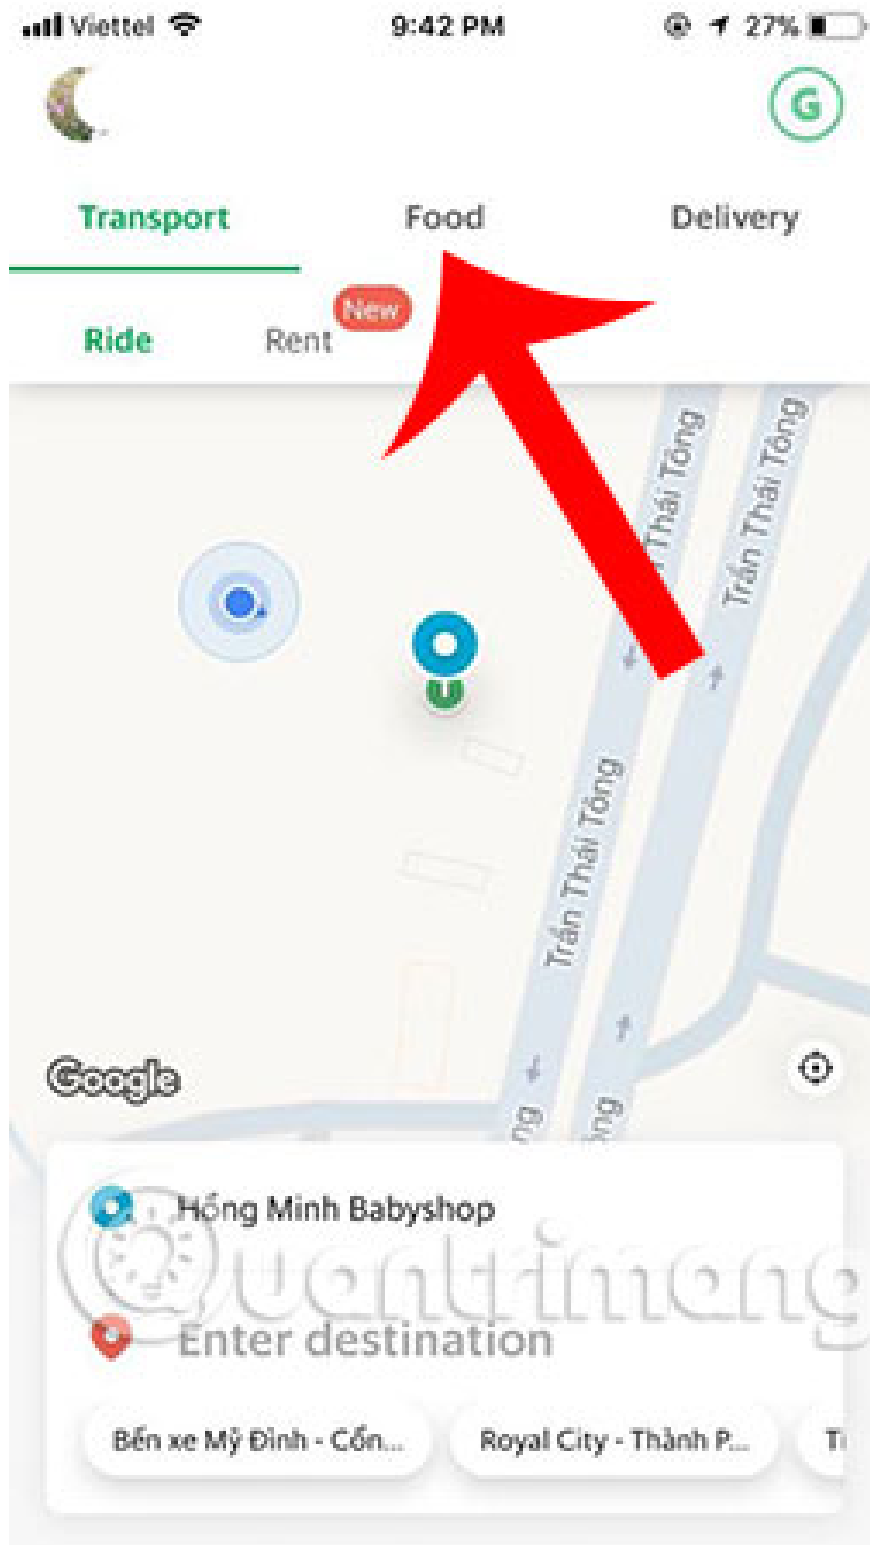

Step 1:

First, start the Grab application that was downloaded and installed earlier. If you are using the old version, you must update Grab for the phone to the latest version under the link below to use this feature.

1. Download Grab for Android
2. Grab download for iOS

Step 2 :

Next, select the **Food** delivery service from the top of the application screen.

Step 3:

You enter the address to receive the food, by default the app will take your place by itself or you can enter any address easily for the driver to deliver or set up friends and relatives by clicking on the **icon**. **The address icon** is like the picture.
