

Instructions for placing a car on Be, calling motorbike on Be application

Be app will help you book taxi, motorbike quickly with very preferential price

In recent years, the application of car calling services on the phone is growing wildly on the network, in addition to Grab, Go-Viet, VATO, there are many other applications of technology vehicles to serve the needs. of the user. The most popular with current users is still Grab and Go-Viet.

And these two applications, in addition to serving users' mobility needs, have more food delivery and delivery services . obviously, technology transport applications are expanding their services. to compete in Vietnam market.

Recently, Be application, this application also provides car call service for users in Vietnam, helping users to solve their daily travel needs. Similar to other car booking applications, be offers its users two types of services, namely the convenient biscuits ordering service beBike and the beCar 4-wheel reservation service. You can use the booking service of the be app below this article.

Next you will see a notification that the **Trip has been canceled** .

With the instructions to place a car, call a car on the Be app on this article, you can see that the call operation on this app is not much different from the Grab and GO-Viet application. Time to book a car on the other Only is the app not yet offers users the feature to call food and other services such as the two popular car calling applications above. Hopefully in the future the application will update this feature for users.
