## 1. Benefits of the TV screen projection feature on the phone

Imagine that one day you are watching a favorite movie or program on TV, but you are lazy to watch, so now you can fully take advantage of the interesting features of Samsung Smart TV to project on small phones. neat and lying down, very convenient, isn't it? In addition, connecting the phone to the TV is also quite fast, no cables needed, just a few steps to set up is done.

Thanks to this feature, your phone is like a television.

## 2. How to project Samsung Smart TV screen to phone?

How to project Samsung Smart TV screen to your phone is quite simple, but first you need to ensure the following conditions:

- Your Samsung Smart TV must have screen projection feature with Screen Mirroring (currently all Samsung Smart TVs 2015, 2016 are available).

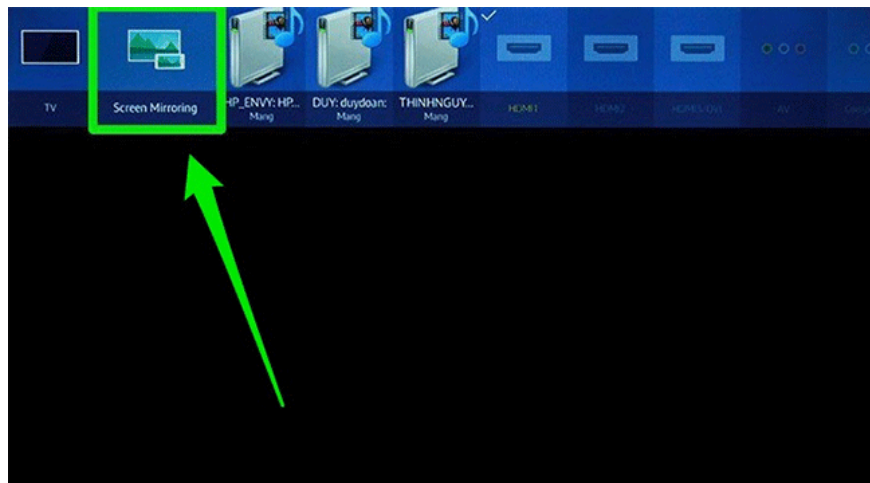

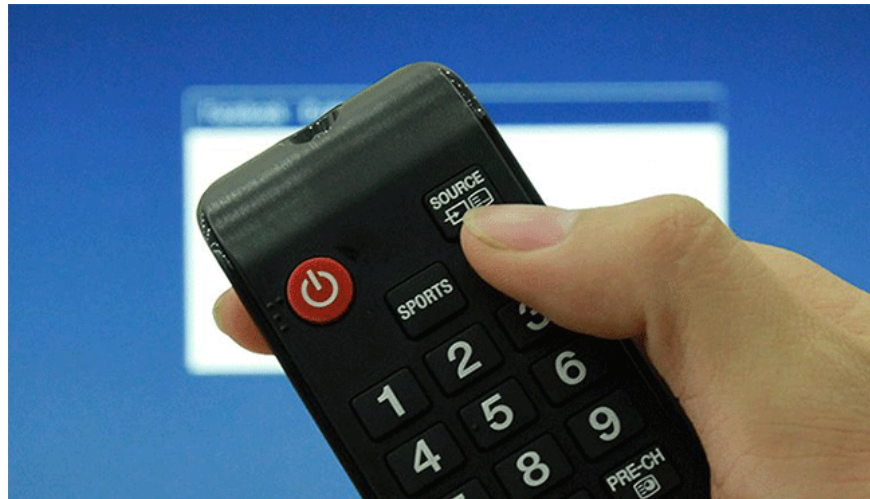

- Your phone must be Samsung Smartphone and have 2 features: **Screen Mirroring and Quick Connect**. To know if the phone supports this feature, you can check the following:

1. Swipe the status bar of your phone, if there is a " **Quick connect** " section, your phone supports the feature.
2. Go to **Settings > NFC and share >** check if **Screen Mirroring** is available.

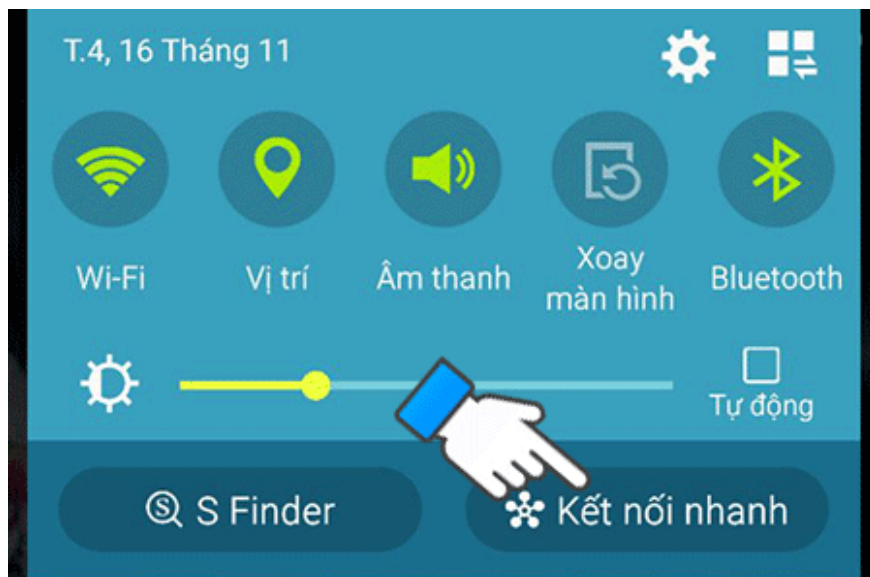

- Make sure that the phone and the TV are captured by the same Wi-Fi network or the phone makes Wifi Direct broadcast from the TV (this way does not need a network).

**After ensuring the above conditions, you operate as follows:**

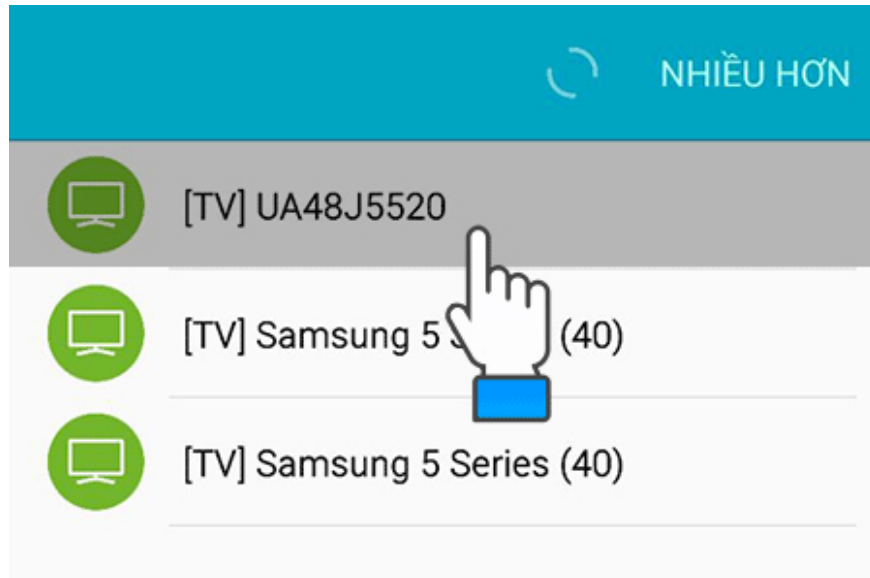

**Step 1:** If the Samsung Smart TV 2015 (line J), press the **SOURCE** button on the TV control> select **Screen Mirroring** . If your home TV is Samsung 2016 Smart TV (K series), you can skip this step and move on to the next step.

**Step 2:** Swipe down the phone status bar and select **Quick connection** .

**Step 3:** Select the TV you want to connect.

**Step 4:** Select TV to mobile device .

**Step 5:** Wait a moment, the TV will connect.
