

Instructions for recording video games on Android with Google Play Games

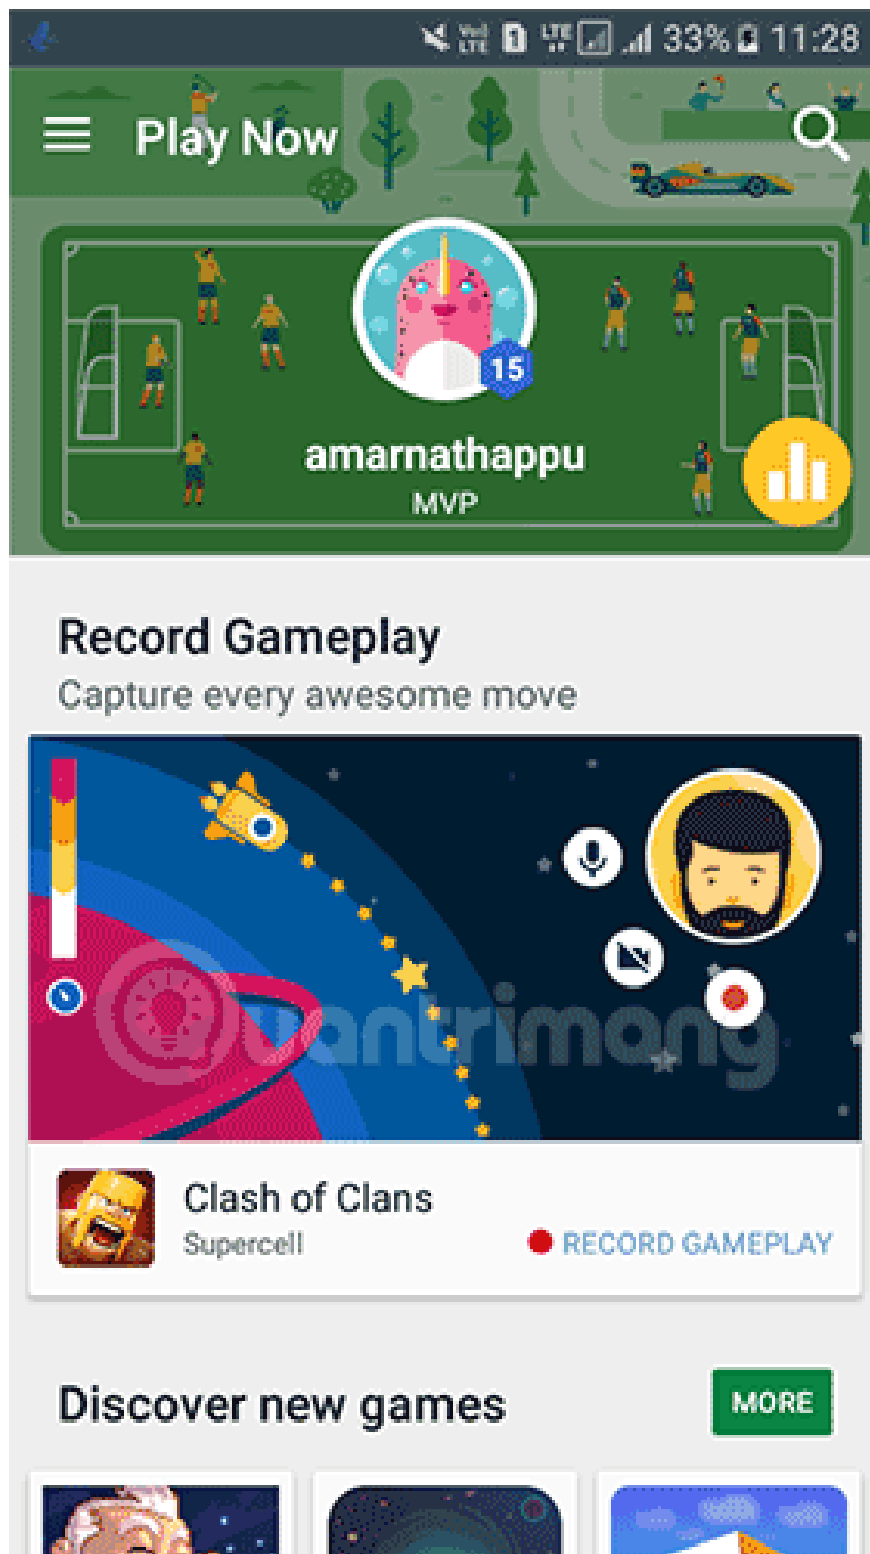

If you want to shoot video games on Android with HD quality, you can use the Google Play Games app, completely free.

Many game lovers often have the habit of filming video games on their phones. With Android, users have many options to shoot the phone screen, but not all applications give good video quality. If you want to shoot video games on Android with HD quality, you can use the **Google Play Games app** , completely free.

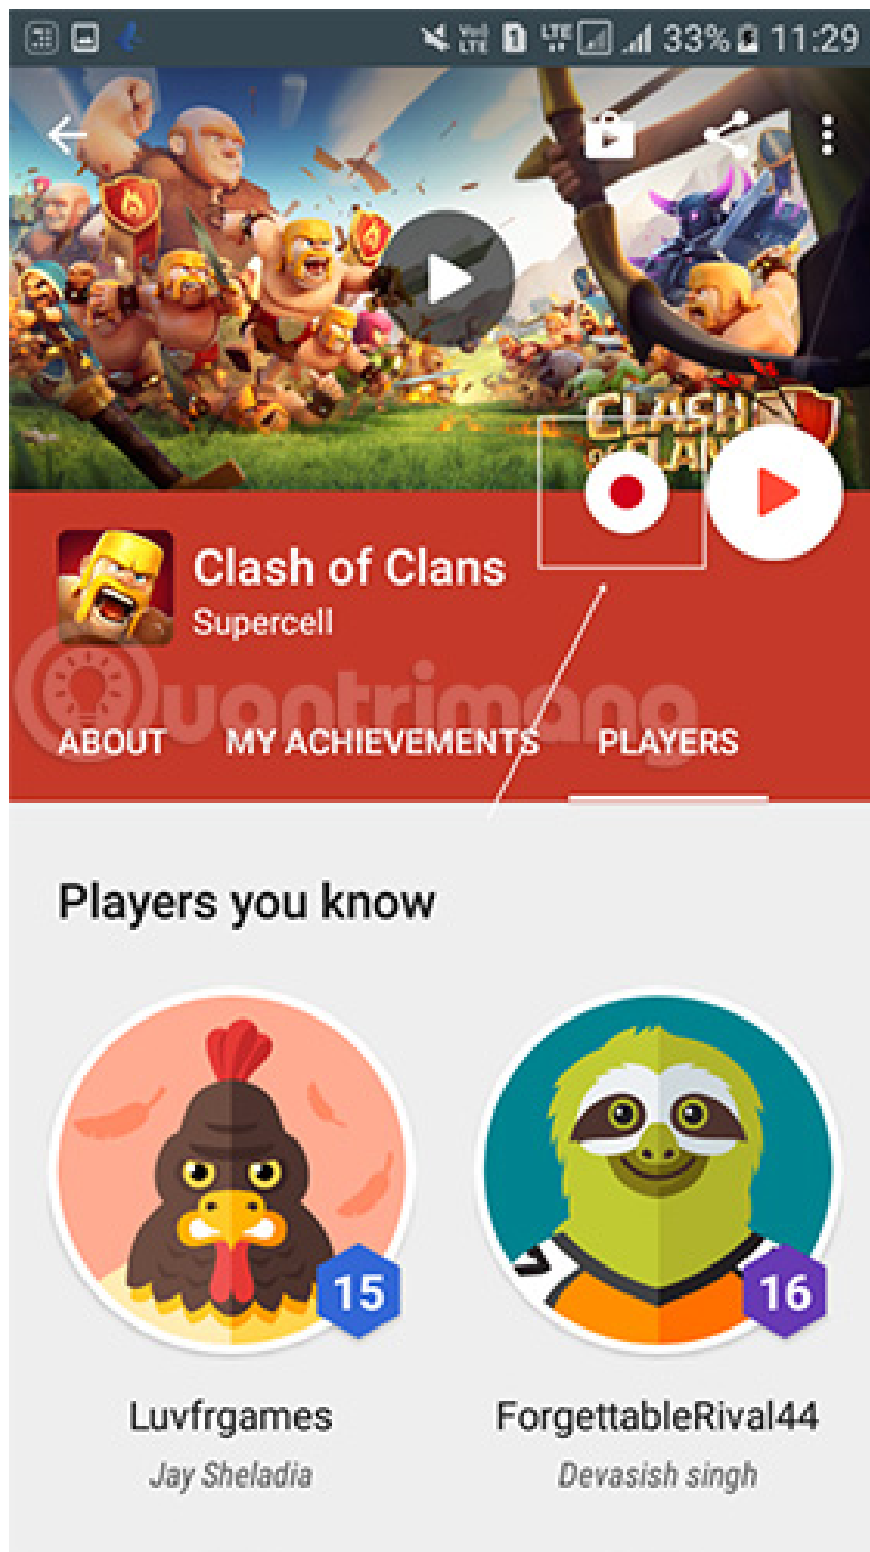

This method is quite simple and easy, you only need the Google Play Games application pre-installed on the Android device. Follow these steps to record your favorite video games.

Step 1. First of all, you need to upgrade the Google Play Games application to the latest version. If your device does not yet have an app, you can download it on Google Play Store. Screen recording feature is only available in the latest version.

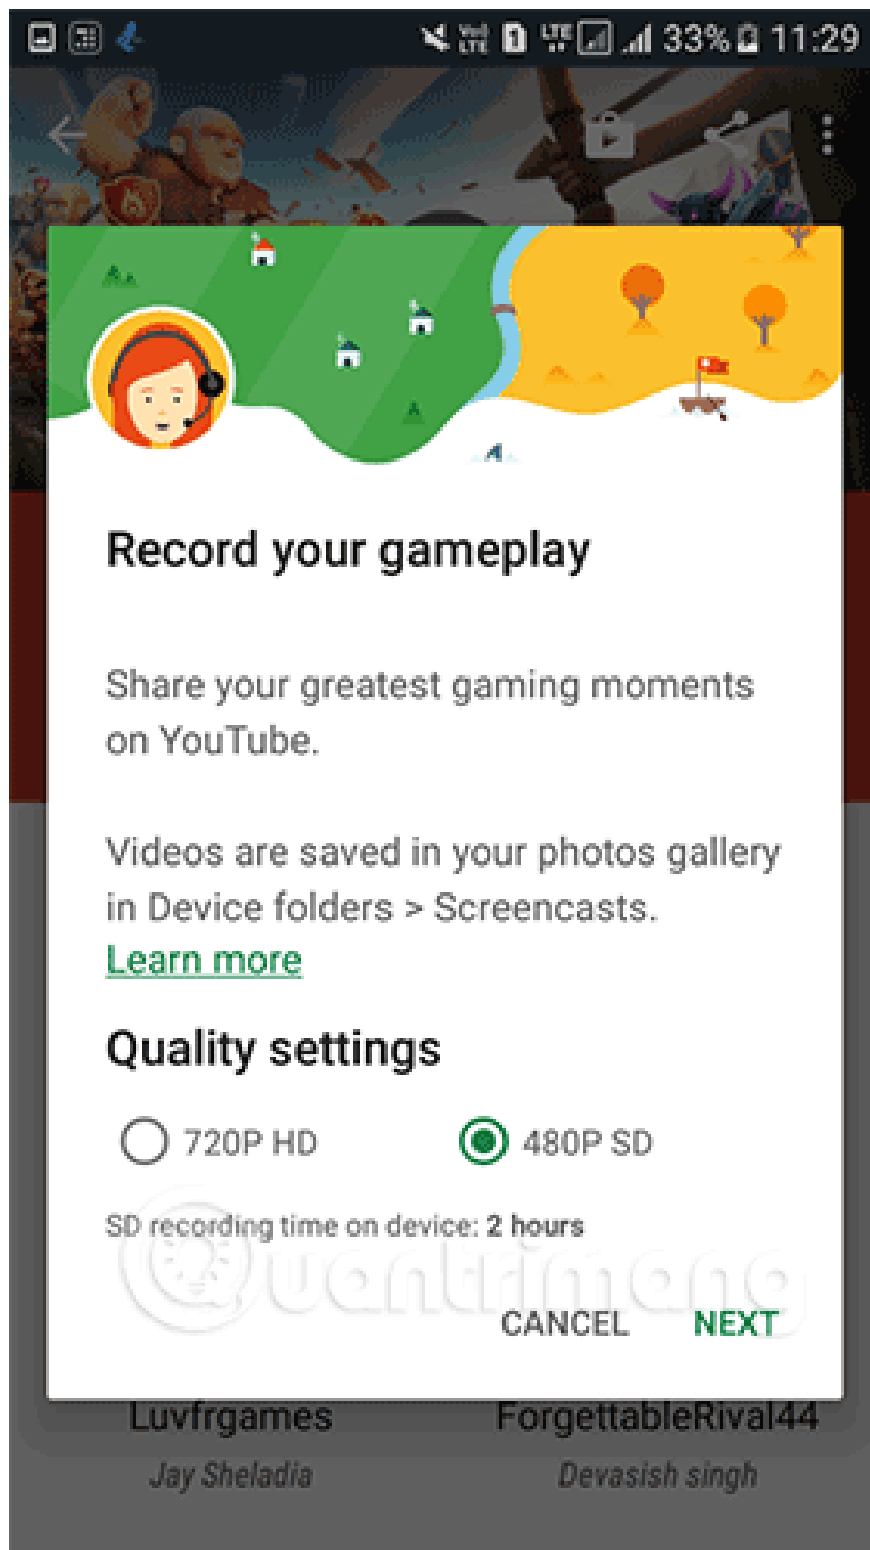

Step 2. You will see the option to **Record Gameplay** . Touch it

Step 3. Open the game you want to record video and then click on the **Record** icon.

Step 4. You will be asked to select the video quality. After selecting, click **Next** .

Step 5. Launch the game and play as usual. The video will be recorded.

So with Google Play Games, you can easily record gaming actions on your Android phone screen without having to go through complicated installation and configuration steps.

Wish you all play funny games, remember to play just right and spend time for many other useful things!
