

Instructions for resetting utilities on Windows 11

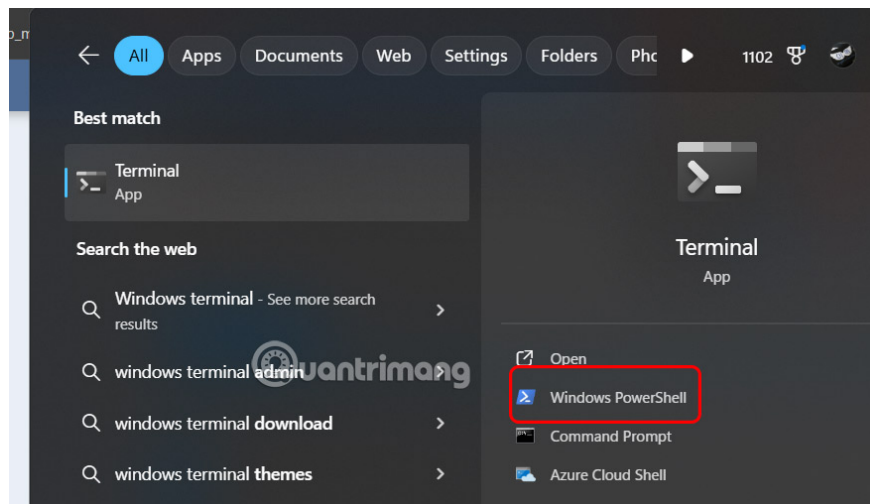

If Windows 11 taskbar Widgets are not working, unavailable, not opening, frozen, or malfunctioning and restarting Widgets doesn't help, then you can reset the widgets on your computer.

If the Widgets on the Windows 11 taskbar are not working, not available, not opening, frozen or malfunctioning and restarting the Widgets does not work, you can reset the gadgets on your computer. Then the interface and Window gadgets will work as before. Below are instructions for resetting the gadgets on Windows 11.

How to reset Windows utilities for the current user

Step 1:

First, **type Windows Terminal in the search bar** and then **click Windows PowerShell**.

Step 2:

Copy and paste the command below into PowerShell and press Enter to execute.

```
Get-AppxPackage Microsoft.WidgetsPlatformRuntime | Reset-AppxPackage
```

Finally, you restart your computer and open the utility as usual to use.

```
Windows PowerShell
