

Instructions for sending secret messages on Zalo

With the new feature that sends secret messages on Zalo, your conversations will be increased security, such as phone numbers, bank account numbers, ...

Not simply a free texting place, make friends with everyone but Zalo also gives us information services and can open online shops if required. Besides, in the updated version of Zalo, users will be able to use more features to send secret messages. This feature will ensure the safety of our conversation, especially when you send phone numbers, bank accounts, passwords, etc. The message will automatically delete after the recipient has viewed the message. .

In addition, we can completely edit messages such as taking photos, pasting stickers into photos, adding effects, drawings, . options. Pretty interesting. Join the Network Administrator to learn how to send a secret message on Zalo in the tutorial below.

Note , you need to download or upgrade the Zalo application you are using to the latest version according to the link below:

1. Download the Zalo app for Android

Step 1:

You login to the Zalo application on the device. Then, in the chat frame with friends, we swipe from bottom to top. Camera interface appears to be able to take photos to send to friends. Click on **the phone icon** above to change the camera mode before shooting or behind.

Bạn nhận được tin nhắn bí mật, tin nhắn trên sẽ mất sau khi xem xong. Bấm vào tin nhắn để xem.

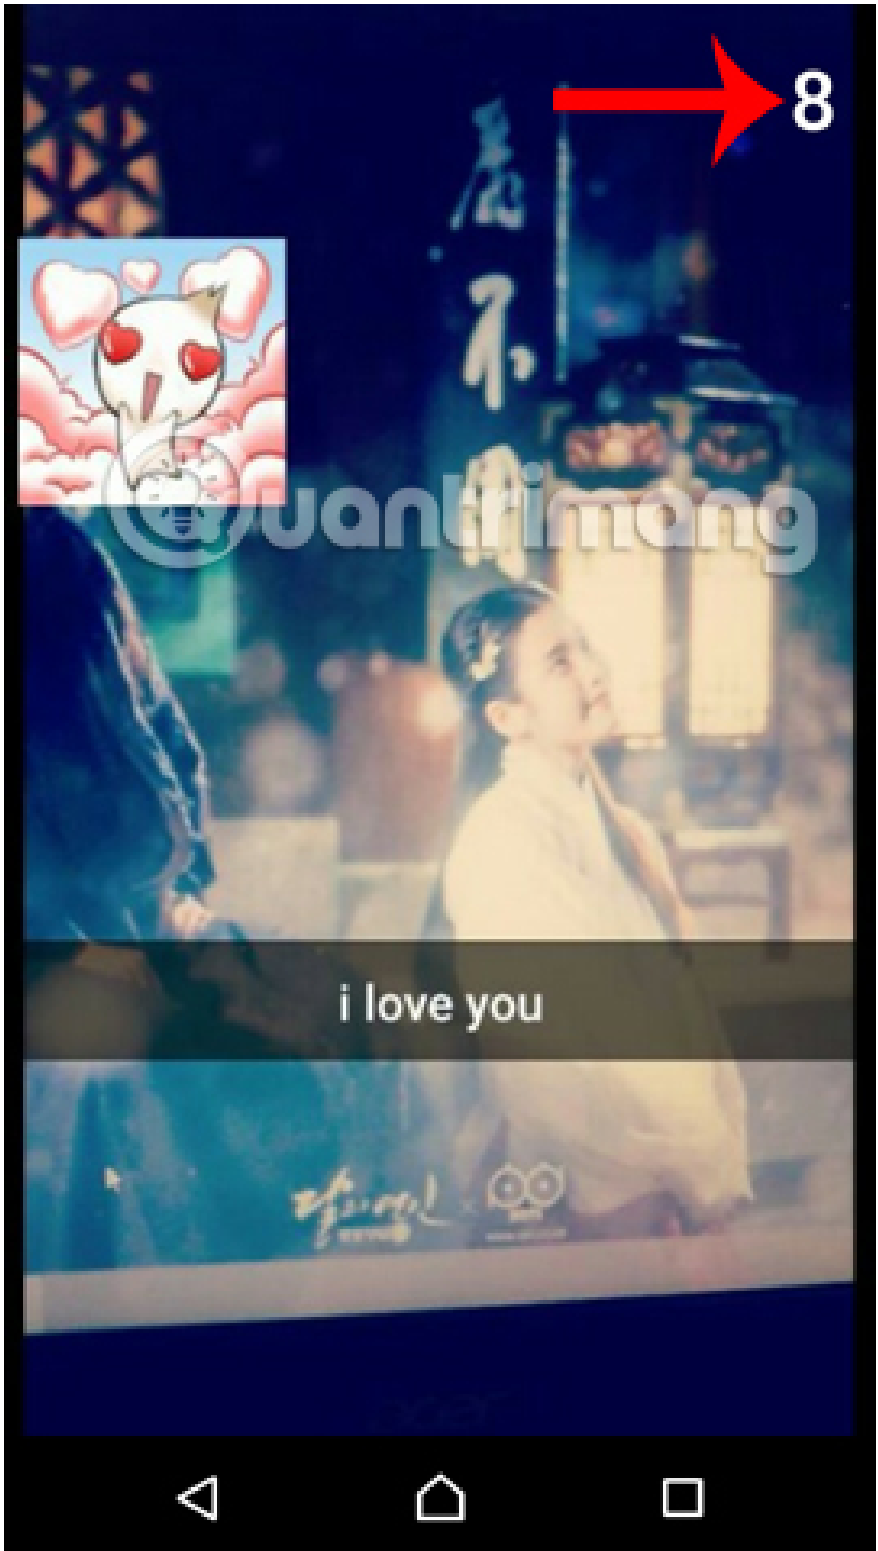

Nhập tin nhắn

Note , the message after reviewing again will be completely lost and transferred to the interface **Click Reply** . When the recipient clicks on it, he will switch back to the screen capture interface to send a secret message.

With this upgrade, Zalo will enhance the security for users. You won't have to worry about your messages being looked at by anyone else, as they will be completely deleted from the conversation when the recipient views the message again. Please constantly update the application to receive more exciting new features offline.
