Users can now set new tab wallpapers on Firefox with available wallpapers, or wallpapers that you upload from your computer. With this new update, Firefox allows you to personalize your browsing experience without using extensions or additional tools. Below will guide you to set new tab wallpapers on Firefox.

## How to set new tab wallpaper on Firefox

Note: Firefox's custom new tab feature is only available on Firefox 138 and above.

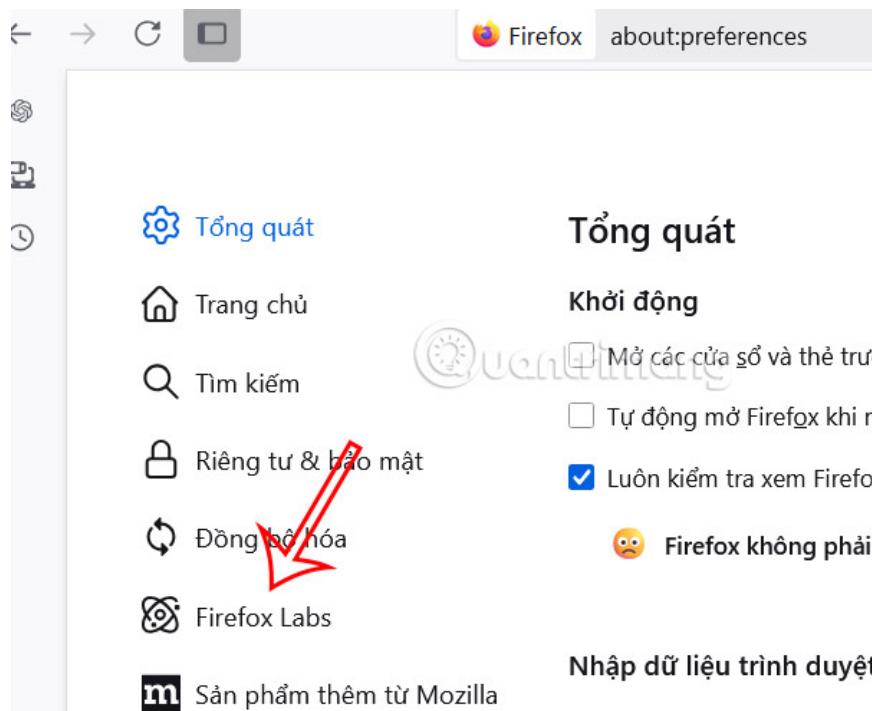

### Step 1:

On the Firefox browser interface, click on **the 3-dash icon** and select **Settings** in the displayed list.

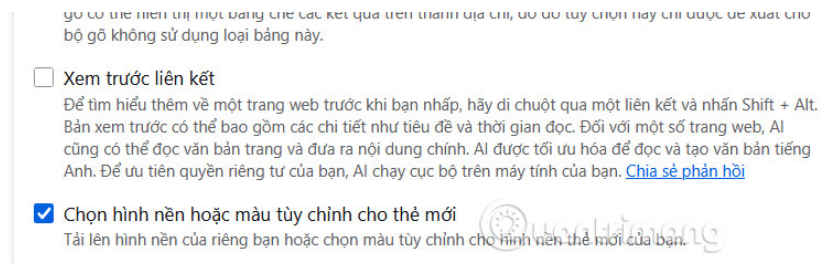

**Step 2:**

Switch to the new interface, we click on **Firefox Labs** on the left side of the interface.

Look to the right side, we **select Select custom background or color for new tab** . Then you restart Firefox browser to apply the changes.

### Step 3:

Open a new tab on the browser, then click on **the gear icon** in the right corner and you will see the option to set the wallpaper for the new tab on the browser. There are some pre-given wallpapers, or you **click on Upload an image** to download a wallpaper from your computer.
