

Instructions for setting privacy mode for Zalo account

The security of personal information of social networks or chat applications, texting like Zalo is something that anyone is interested in. So how can I strengthen the protection of all personal information on Zalo?

The issue of security of personal information is always placed on top, especially with social networks Facebook or popular chat and texting applications like Zalo. Without using strict security methods, your personal information will be an opportunity for many hackers to look at, and can be used for many other purposes. So how can you increase the security of such personal information? In this article, Network Administrator will guide you how to set up privacy with your personal Zalo account.

1. Set up privacy Zalo:

Zalo also has a mode to block strangers to comment, see our personal information, images. At the personal interface on Zalo, we click on **the lock icon** . At the **Privacy Settings** interface, scroll down and switch to **Off mode** of the following options:

1. **Receive messages from strangers** : Turn off this mode so that strangers cannot send messages to you
2. **For strangers comment** : Turn off to block strangers comment on your diary.
3. **For strangers to view photos** : Strangers cannot view your photos.

2. Turn off the message Viewed message:

Maybe for some reason, after you have seen the message, you cannot reply immediately, or do not want to answer. However, by default Zalo will have a Watched message to the sender when the recipient has read the message. And if you want to turn off that message, it's very simple.

First of all, also at the interface of Zalo, we click on **the gear icon** . Then, in the **Settings** interface, select the **Messages and notifications section** . Next, you just need to turn **off Custom Display Status** .

In addition, we can turn off the text Viewed on Facebook Messenger in the article [How to disable text "Seen" texting on Facebook](#).

3. Block friends from viewing the log Zalo:

When you share certain information on Zalo, all of our friends can read it. But sometimes you don't want a friend to read that content, you can use the **Block View log** feature **on Zalo**.

To do this, we find **the individual friends page on Zalo that wants to block**, click on **the 3 dashes icon** on the right and **turn** on the **Block view** mode to **see if it** is okay. Besides, we can also **turn** on **Hide this person** if you want.

4. Set up viewing rights when posting logs:

Just like setting up status for Facebook on privacy, Zalo users can fully **adjust viewing rights before sharing on Zalo log** .

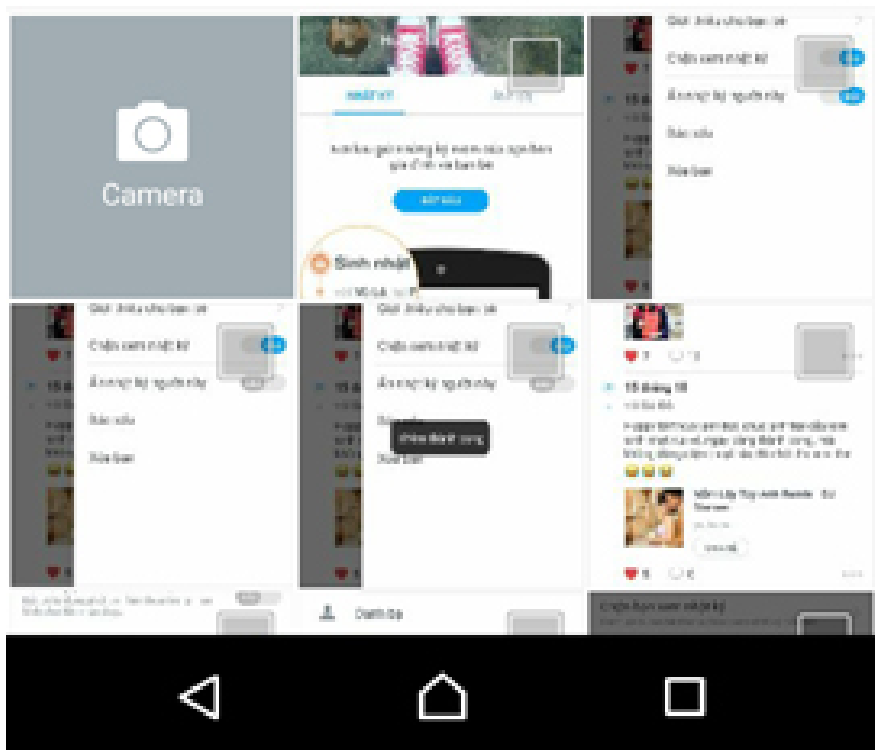

First of all, in the **Zalo personal diary interface** , we click on **What you are thinking** . Next in the **Permissions view** , click on the **black triangle** . By default Zalo will leave Public mode for all posts. We can adjust to My Friends, My Friends or choose Friends in the group to see the new log.

5. Delete location on Zalo:

When Zalo users use the **Find Around** feature, your friends or strangers can search for us through that location. However, this feature is sometimes troublesome for us, so please turn off the location.

Click on **the 3 dots icon on Zalo** to come to the Menu interface, then click on **Find around here** . After that, we will click on **the 3 dots above the icon** .

Then click to select **Delete location, avoid disturbing** . Finally click **Yes** to confirm deleting the current location so that others cannot find us through the location on Zalo.
