

# Instructions for using filters on Google Meet, smoothing skin

Want to spice up your Google Meet calls? Here's how to use filters and stickers on both your computer and phone. Instead of going barefaced, you can choose unique effects to liven up your chats and make them more engaging.

Like Facebook, Google Meet also has filters that help users change their faces with interesting effects. This feature makes video calls more lively and attractive.

## *1. How to use filters on Google Meet on Android and iOS phones*

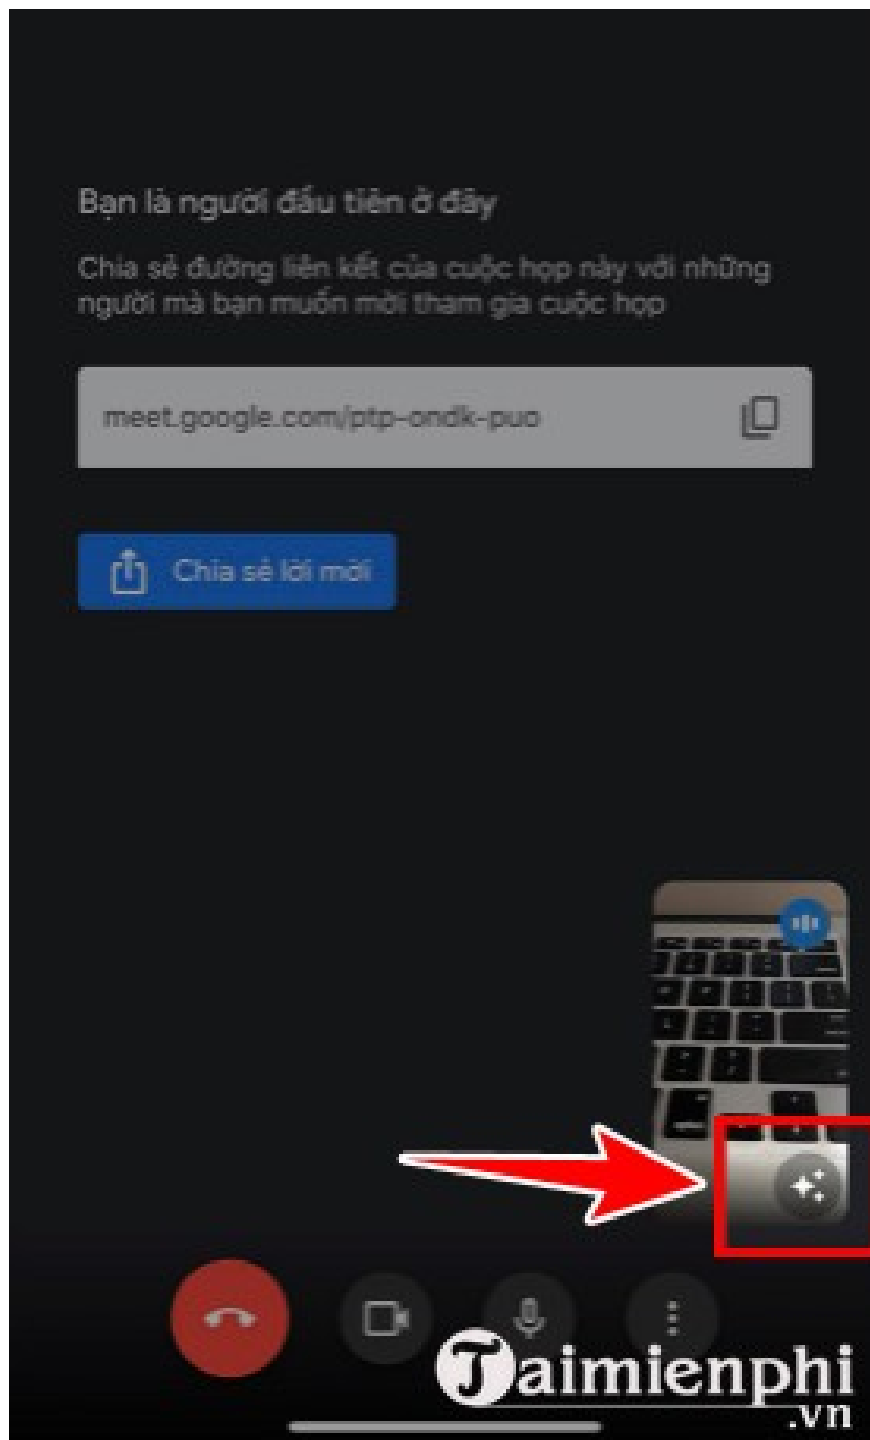

### **Condition :**

Download the app to your phone:

- Download **Google Meet for Android**
- Download **Google Meet for iPhone**

### **How to do :**

**Step 1 :** Join a class or meeting on Google Meet, look at **the bottom right corner** of the screen and tap the effects icon.

**Step 2** : At the bottom of the screen, the effects section will appear. Swipe right and select "**Filter**" to use the filter.

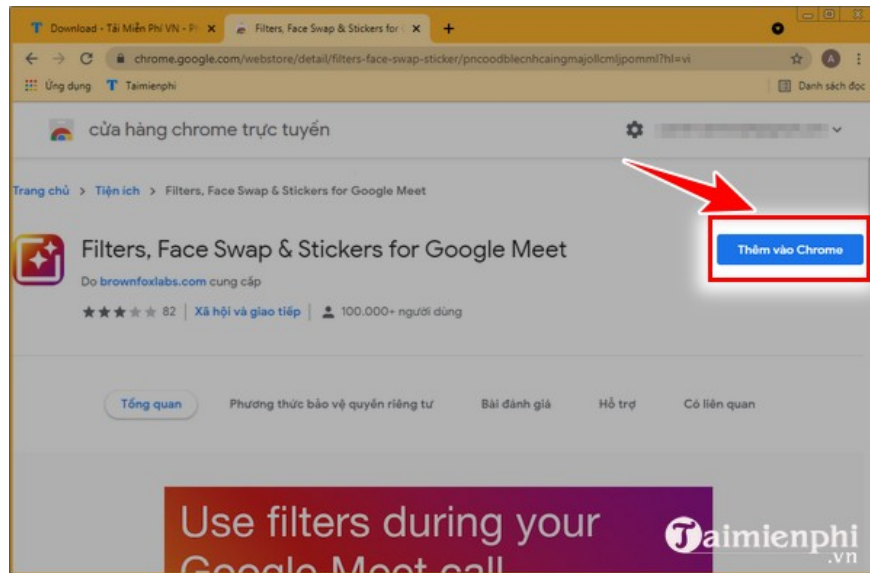

**Step 3** : Select your favorite effect => Press "X" to close the interface.

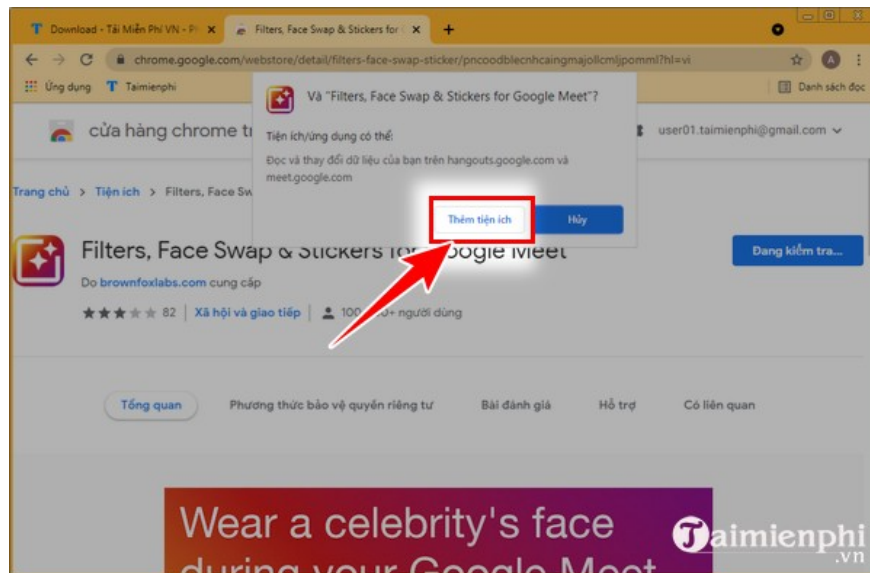

## *2. Instructions for using filters on Google Meet on computer*

**Condition :** Install Filter and Sticker extensions for Google Meet on Google Chrome, Coc Coc **HERE**

**Step 1 :** Access the filter download link, then click "Add to Chrome" in the upper right corner.

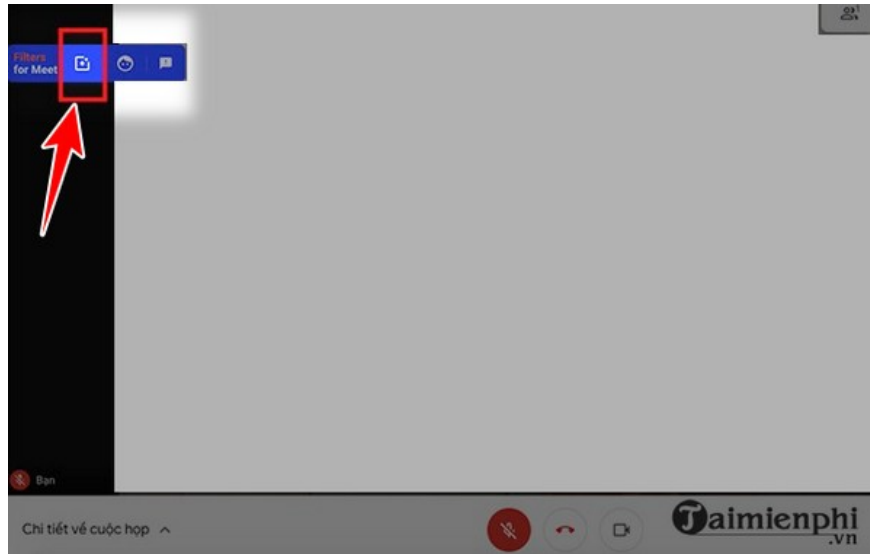

Click "Add extension" and wait for the installation to complete.

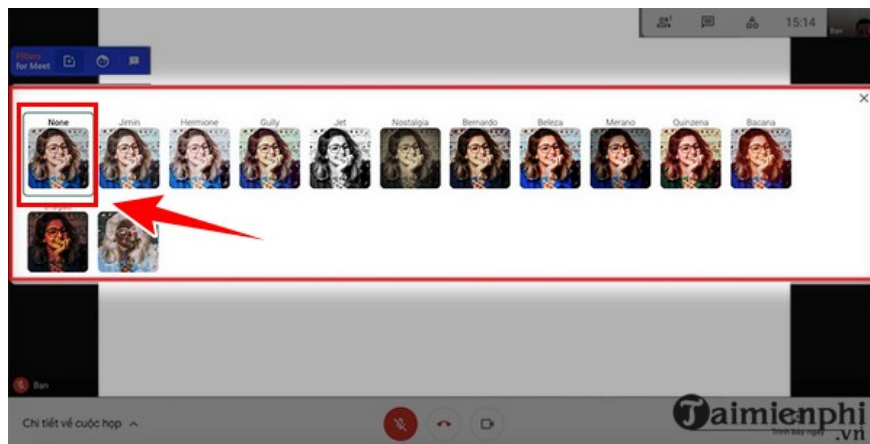

**Step 2** : Open Google Meet and join a class or online meeting.

Then, tap the **plus icon on the Filter for Meet** toolbar in the upper left corner.

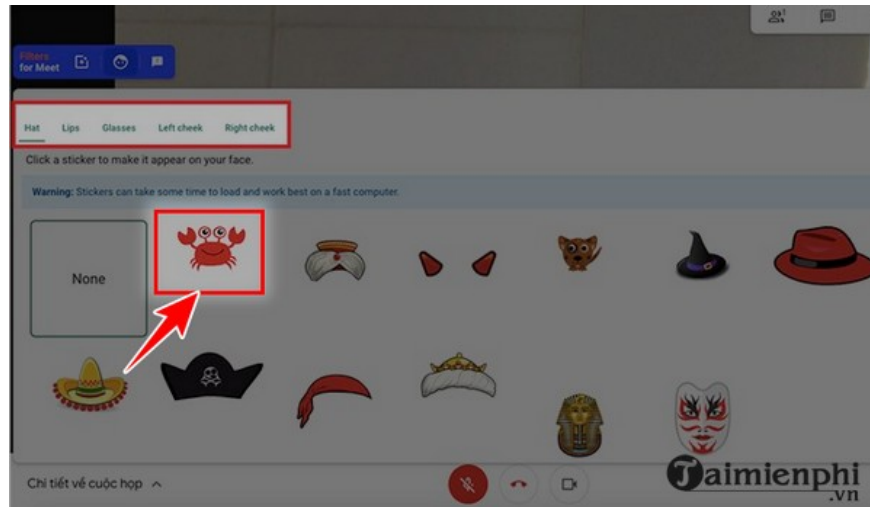

**Step 3** : A list of filters will appear, select and click on the filter you want to use.

If you want to use stickers, tap the icon next to **Filter** .

Choose stickers like filters. Tap on the sticker you like and wait for it to appear.

Hopefully the above guide helps you easily use filters and stickers on Google Meet. If you have any questions, leave a comment below, TipsMake will answer!
