

Instructions for using Meta AI on WhatsApp

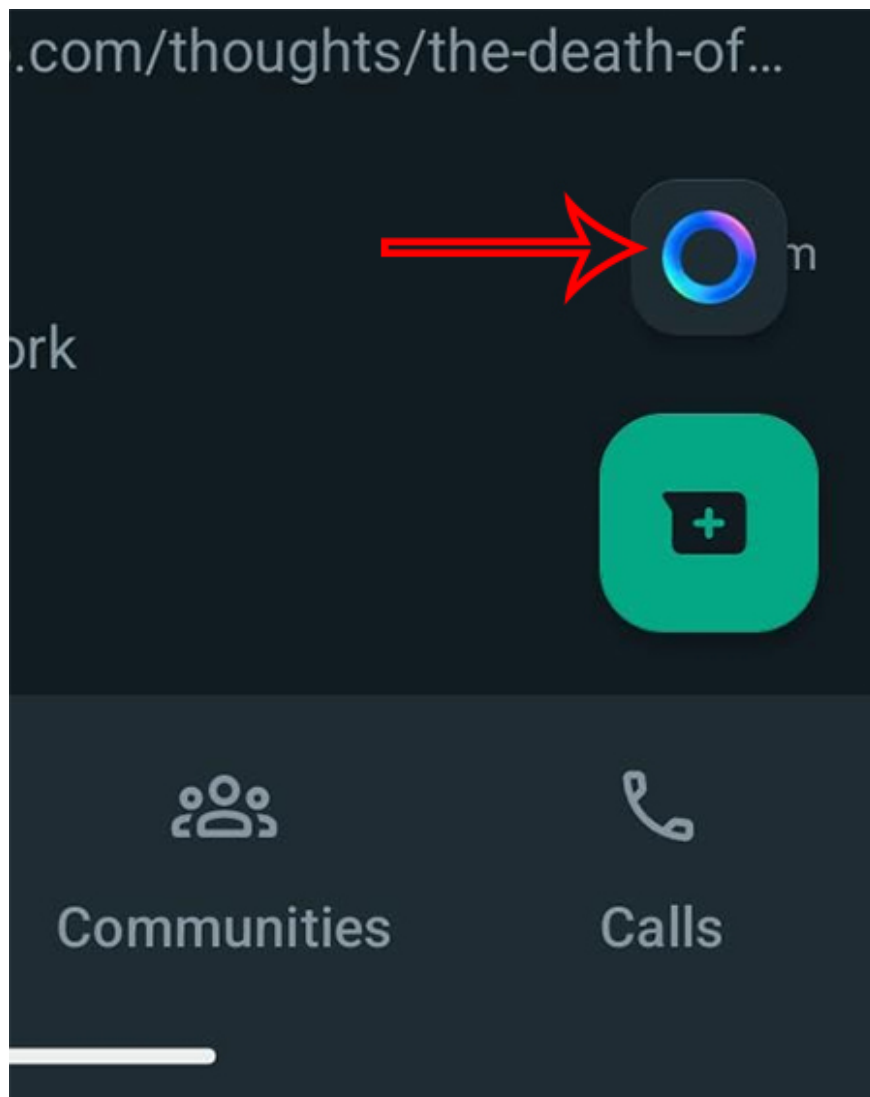

Meta AI is now gradually rolling out to WhatsApp accounts, with some useful features similar to other AI chatbot tools such as making suggestions and answering questions, creating AI stickers on WhatsApp

Meta AI technology is now gradually being rolled out to WhatsApp accounts, with some useful features similar to other AI chatbot tools such as making suggestions and answering questions on a variety of topics, create AI stickers on WhatsApp or create AI images in WhatsApp chat groups based on the descriptions users enter,. Below are instructions for using Meta AI on WhatsApp.

How to use Meta AI on WhatsApp

Step 1:

At the WhatsApp interface, click on **the Meta AI circle icon** to use. Next accept the terms to use this tool.

Step 2:

Display the interface so we can chat with Meta AI as usual. You **enter the question or problem you need to learn** and then press the send icon as usual.

Meta AI
with Llama

Ask Meta AI anything

- Teach me all about K-pop
- Help me sing better
- Cardio
- Apartment feng shui tips
- Anime reels
- Houseplant
- History of the hashtag
- Bernaise sauce for steak

/imagine a car race on mars What are the most popular show

Message

Step 3:

Immediately after that, the Meta AI chatbot sends the answer to the problem you asked.
