The Pinboards tool on Opera browser helps users to collect content, manage content at an interface such as images, notes, links, . And from this interface, users can easily share with others. Especially from this Pinboards board, we can also generate ideas to share with many people and show feedback immediately. The following article will guide you to use the Opera Pinboards tool.

How to use the Opera Pinboards tool

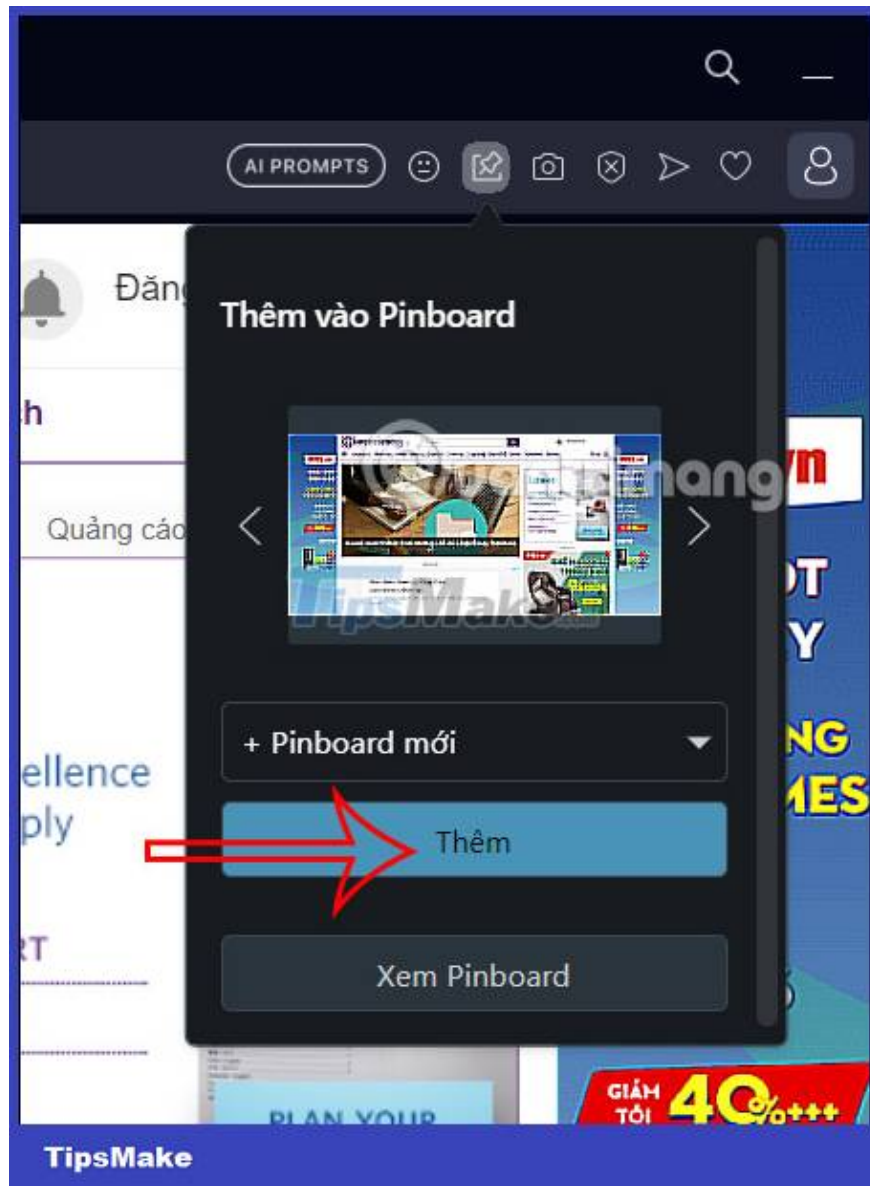

Step 1:

At the interface on the Opera browser, users access the website as usual and then click on the **Pinboards pin icon** as shown below.

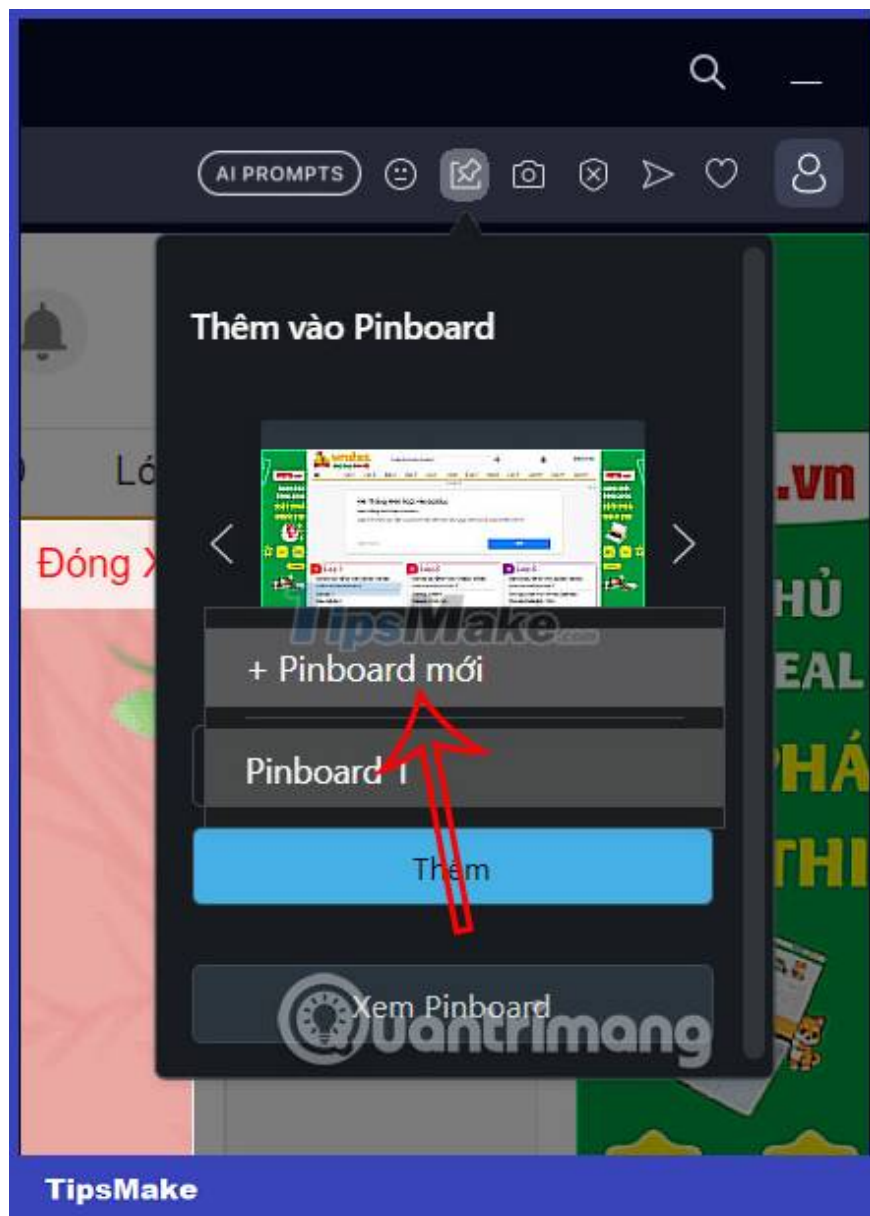

Step 2:

Then display the image with different images, by moving right or left through the arrows. You **click the Add button** below to add the website to the Pinboards panel on the browser.

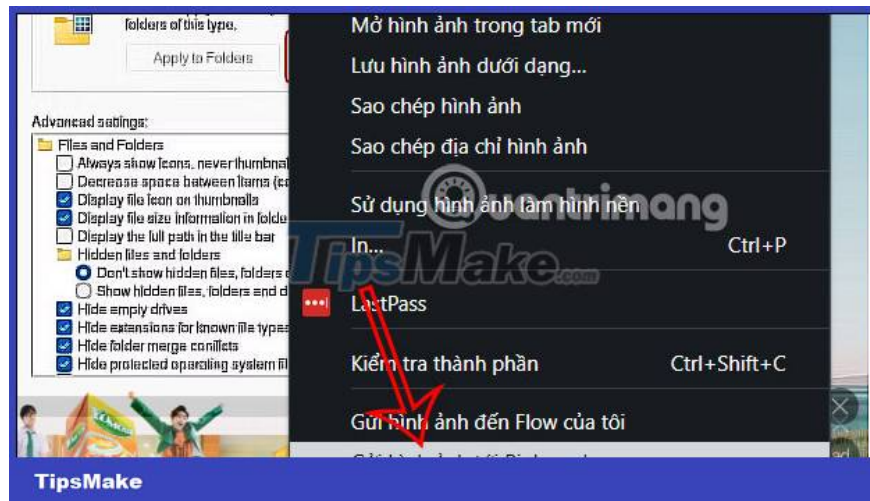

Step 3:

If you want to **create a new Pinboards board** , in the save interface, **click on the current Pinboards name** and then **select New Pinboard** .

Step 4:

To save the link, image, text, with the image, right-click and select **Send image to Pinboard** . We also do the same with the link and text we want to save to Pinboard.

Step 5:

To access the Pinboards interface on the browser, in the left sidebar we click on the Pinboard pin icon.

Pinboards

Step 6:

Switch to the Pinboards interface on the Opera browser, users will see the Pinboard boards that they create to save content. **Clicking on each Pinboard panel** will display the content you have saved.

When clicking on each saved content, we will have **an Edit option** to add a title, description, change the avatar, update a new link, .

Step 7:

Also at this interface, we **click Add tabs to add an open tab to the** current pinboard. An open tab panel on the browser is displayed, click on the tab you want to add.

Or you click Add all tabs to add all tabs, you can turn on Close added tabs to automatically close the added tab.

📌 Tài liệu, học tập, trắc nghiệm, ...

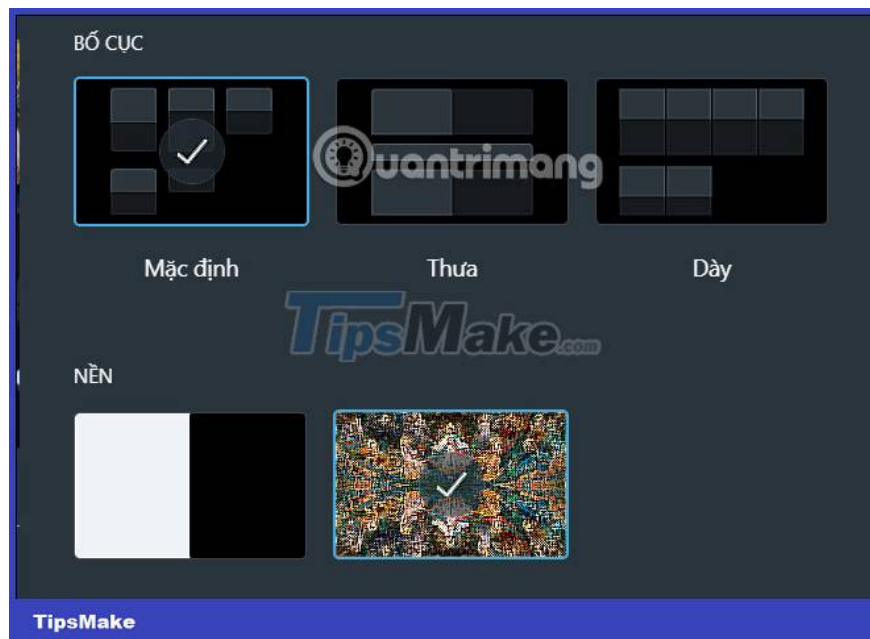

Step 8:

Look up at the right edge of the screen, click on **Appearance** to change the interface for Pinboards.

Here you **change the layout** of the panels and backgrounds for this Pinboard interface.

Step 9:

Click **the Share item** to create a link to share these Pinboards on the browser. Please **enable sharing link creation mode** .

Now we will see the link to send to others when they want to access Pinboards.
