

Instructions for using personal photos as Messenger chat background

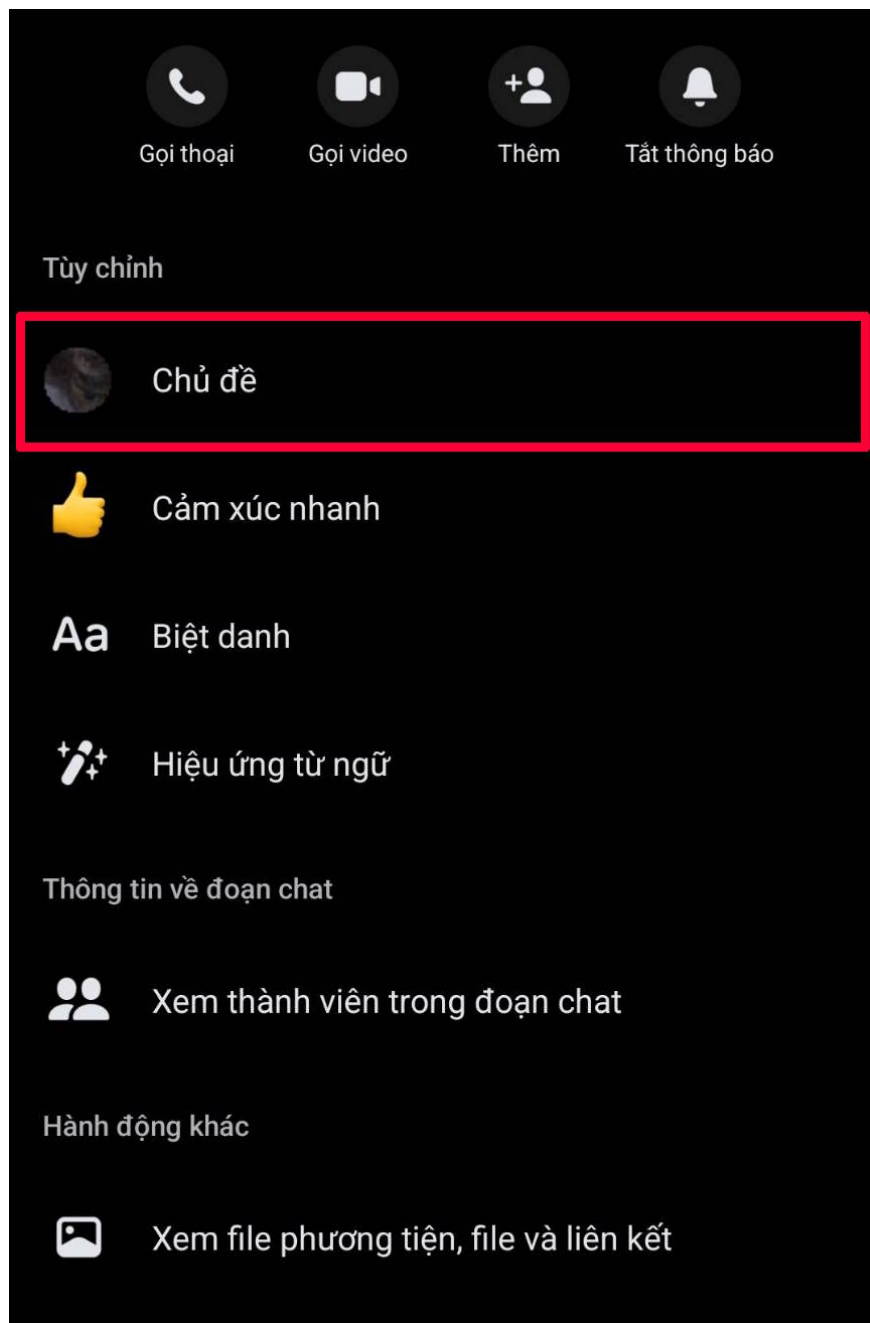

Messenger has added the option to use personal photos as Messenger chat background, in addition to using AI photos as Messenger chat background or the app's available photos.

Messenger has added the option to use a personal photo as a Messenger chat background, in addition to using AI photos as Messenger chat background or the application's available photos. Users just need to choose the photo they like to use as a chat background in Messenger. Below are instructions for using a personal photo as a Messenger chat background.

How to use personal photos as Messenger chat background

Step 1:

First, users need to update the Messenger application to the latest version. Then click on the account name above and **select Theme** to change the chat interface for the Messenger application.

Step 2:

In the background image options interface for Messenger chat, users click on **Upload image** and **select the image you want to use as the chat interface** on the application.
