

Instructions for viewing link summary content on Chrome

With the MaxFocus utility, you will be able to read the summary content of the link on Chrome without having to directly view the content in the link.

This utility not only previews with text but also previews with video. Below are instructions for previewing link summary content on Chrome.

How to see link summary on Chrome

Step 1:

You download the MaxFocus utility for Chrome browser from the link below and then proceed with the installation as usual.

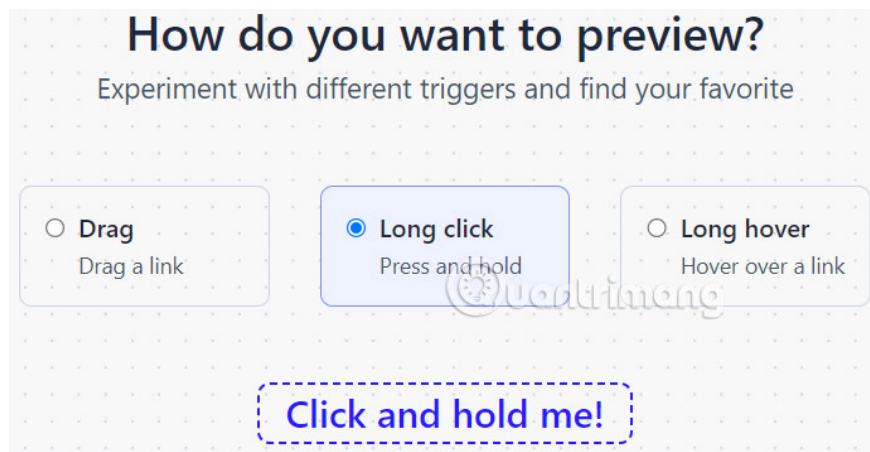

Then display the setup interface for the utility, click **Start** to proceed.

Step 2:

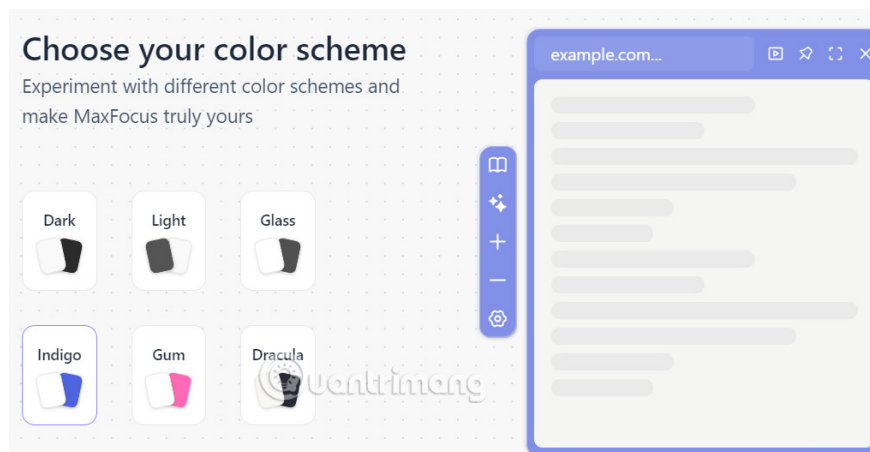

First, the user will **choose the method to open the preview link**. With Long click, hold down the left mouse button for a few seconds, Long hover moves the mouse to the link and waits, and Drag drags and drops the link to preview.

After selecting, **click Next** to move to the next step.

Step 3:

You choose the **interface color for the preview pop-up**. Next to it is the interface that shows the pop-up color in advance so you can more easily visualize.

Step 4:

In the next step interface, **select the Continue as free package** to use the free version. The MaxFocus utility will ask you **to enter your email address** to be able to use the utility.
