Step 3: Install iCloud Control Panel

After downloading the **iCloud Control Panel** , click on the **EXE file** you just downloaded at the bottom of the browser to start the installation.

If you can't find the downloaded **EXE file** at the bottom of your browser, go to **My Computer** and select **Downloads** . The file you just downloaded is in the **Downloads** folder. Double-click the **EXE file** to install the **iCloud Control Panel** .

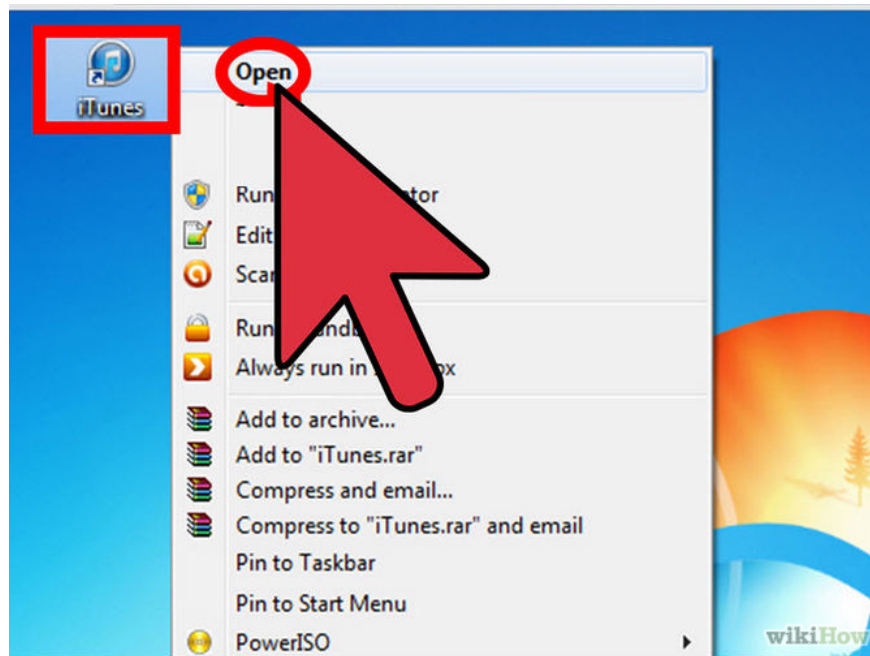

Step 4: Log in to iCloud

Click the **iCloud** icon on the **Desktop** to login to your **iCloud** account or if you don't see the **iCloud** icon on the **Desktop** , go to **Start Menu** , type **iCloud** to find it.

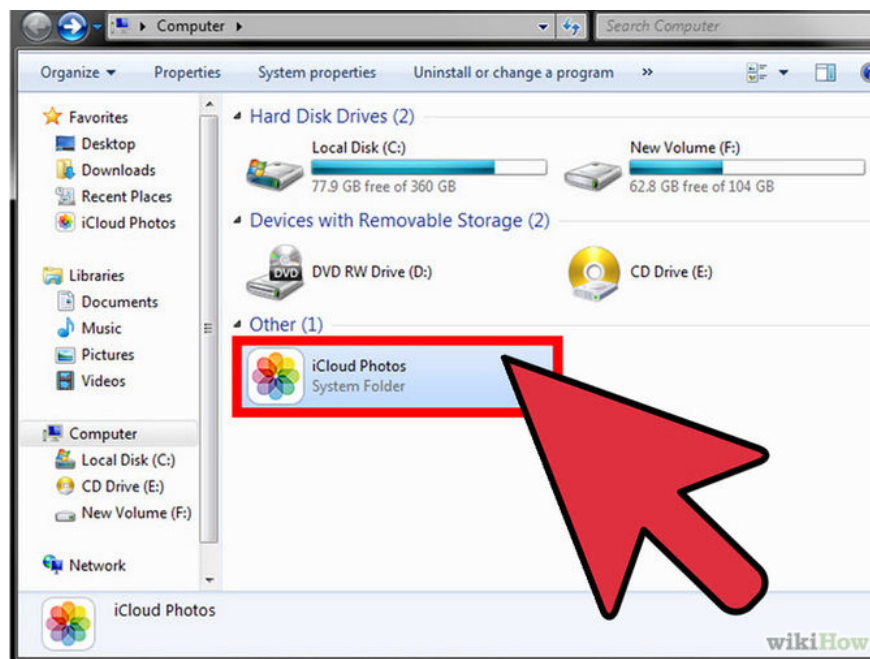

iCloud will ask you to login **Apple ID** code and password. Your task is to enter the correct **Apple ID** and password you have provided before.

Step 5: Open iTunes

After entering **Apple ID** and password, your task is to turn off the **iCloud Control Panel** window, then continue to open **iTunes** .

Step 6: Access your iCloud Photos

Go to Start Menu and select My Computer . When you open **My Computer**, you will see a new folder appear. That folder contains **iCloud Photos** . Your task is to double click on that folder to view your **iCloud** photos.

Good luck!
