

Instructions on how to connect Discord and Xbox One

For many gamers, Microsoft news combined with Discord provides an opportunity to connect with friends. And if you don't know how, this is the guide.

For many gamers, Microsoft news combined with Discord provides an opportunity to connect with friends. And if you don't know how, this is the guide.

On Xbox One

If you are an Xbox Insider, you will find the option to add an Xbox Live account to a Discord account directly from Xbox One, will be available in Preview soon. This feature will also be available soon to all users of the Xbox community in general.

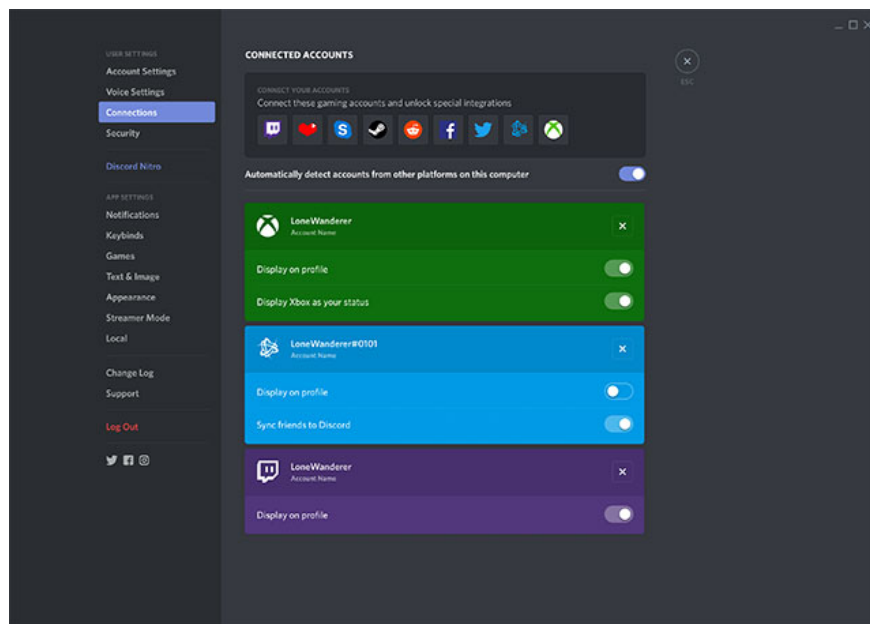

Select the connection to the Discord account

First open the Account Settings account on the Xbox One, then select Linked social accounts. Here you will see the option to connect to the Discord account. When receiving the code from the Xbox, open the Discord application, enter the code into the Connections tab.

On the PC

From the Discord application on your PC or phone, in a few weeks you will see the option to connect to the Discord account via the Connections tab under **User Settings**. Click on the Xbox Live option and log in to your

account. The account will then be linked together.

Connect to Xbox One from the Discord application

Once you've done these few simple steps, your account will be linked, Xbox Live games can be shared on Discord, allowing your friends and other users on the same Discord server to see what you're playing on the Xbox. Live.
