

Instructions on how to delete YouTube search history and ensure privacy

YouTube is a video sharing network that is popular with users all over the world but does not lack sensitive content. So if some people are willing to share all of YouTube's activities on Facebook for their friends, on the contrary, you may have to learn how to make sure people can't follow what they do on YouTube.

YouTube is a video sharing network that is popular with users all over the world but does not lack sensitive content. So if some people are willing to share all of YouTube's activities on Facebook for their friends, on the contrary, you may have to learn how to make sure people can't follow what they do on YouTube.

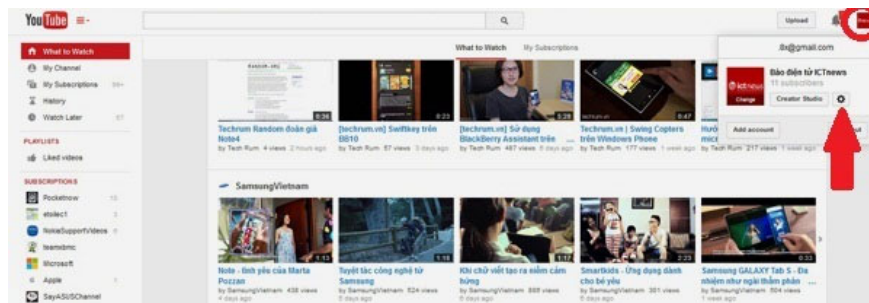

Simply because even without purpose, accidentally searching, viewing or clicking actions can become a cause of misunderstanding.

Here are 3 ways to ensure privacy on YouTube:

Keep the 'like' action private

If you don't notice, you will probably reveal to anyone who visits your YouTube profile that you just clicked on the video. To keep your privacy, you must:

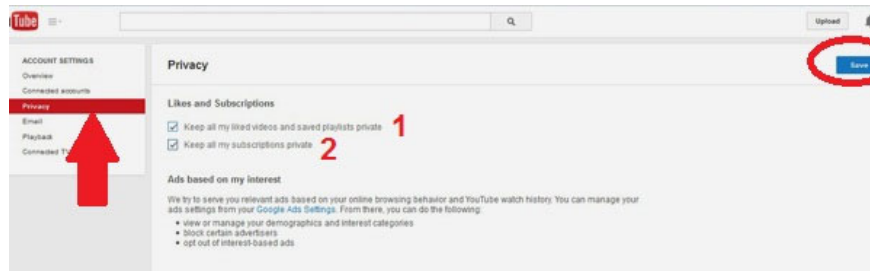

Step 1: From the main interface of your YouTube account, click on the profile picture and select the custom icon.

Delete YouTube search history and privacy: From the main interface of your YouTube account, click on the avatar image (circled in red) and then select the custom icon (arrow).

Step 2: In the **ACCOUNT SETTINGS** page, go to **Privacy** . Here you have 2 options, **Keep all liked videos and saved playlists private** to not update likes and save your **playlist** for visitors, and **Keep all my private**

subscriptions to not update YouTube channel list you follow. Finally, click **Save** to save.

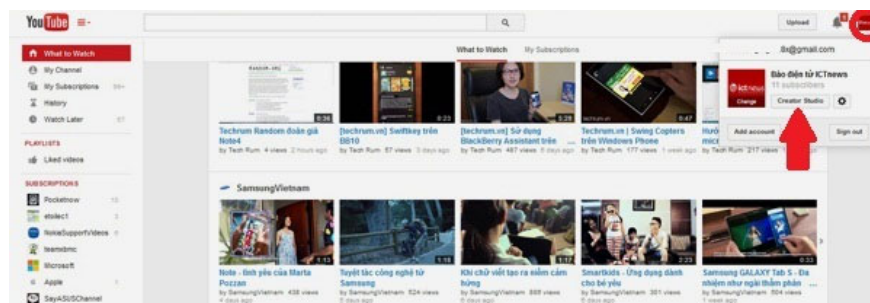

Delete YouTube search history and ensure privacy: In the ACCOUNT SETTINGS page, go to Privacy (arrow). Here, check both options, 'Keep all my liked videos and saved private playlists' (number 1) and 'Keep all my private profiles' (number 2). Finally, click Save to save.

Delete YouTube search history

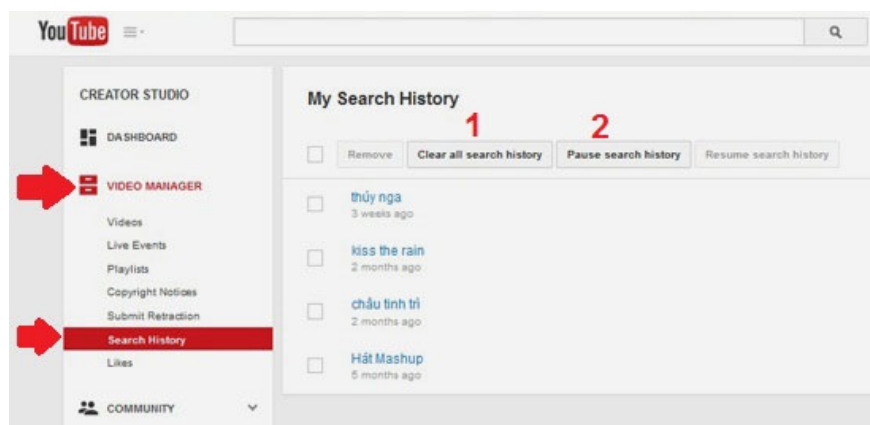

Your YouTube search history is actually just for you to see what you have been looking for, but this information can easily be leaked to people who often share computers or phones. To be careful, delete all and stop updating.

Step 1: From the main interface of your YouTube account, click on the avatar and select **Creator Studio** button.

Delete YouTube search history and ensure privacy: From the main interface of your YouTube account, click on the avatar image (circled in red) and then select the Creator Studio button (arrow).

Step 2: Go to **VIDEO MANAGER** and then go to sub-section **Search History**. Here you can click **Clear all search history** to delete all keywords you ever searched on YouTube and click **Pause search history** to stop updating search history.

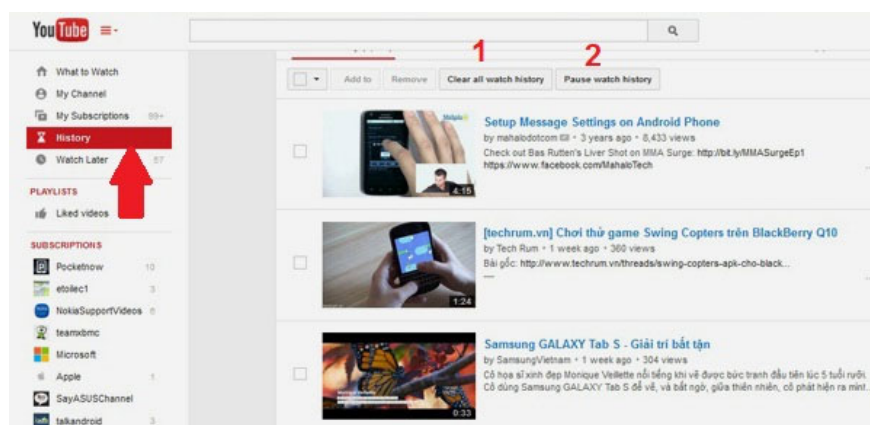

Delete YouTube search history and ensure privacy: Go to VIDEO MANAGER and go to sub-section Search History. Here you can press 'Clear all search history' (number 1) to delete all keywords you ever searched on YouTube and click 'Pause search history' (number 2) to stop updating the search history.

Delete YouTube video viewing history

Similar to deleting search history, deleting YouTube video viewing history can help you avoid many hassles and misunderstandings when sharing machines with others.

To do so, from the main interface of your YouTube account, go to the **History** section. Press **Clear all watch history** to delete all information about the videos you have opened and click **Pause watch history** to stop updating history.

Delete YouTube search history and ensure privacy: From the main interface of your YouTube account, go to History. Press 'Clear all watch history' (number 1) to delete all information about the videos you have opened and press 'Pause watch history' (number 2) to stop updating history.
