## What makes Gunbound Legends so appealing to players?

### 1. The Super Classic Car System

In **Gunbound Legends**, you'll encounter the entire lineup of mobile vehicles that brought back childhood memories, such as **the Trico** with its three fireballs dealing massive damage, **the Grub** with its annoying bouncing projectiles, and **the Boomer** – challenging the limits of your wind-measuring skills. A special feature is the optimized stat system, ensuring fairness; no mobile vehicle is overpowered, everything depends on your aiming skills and shooting power.

## 2. Tactics for measuring wind and aligning map angles

Never underestimate the wind! In Gunbound, wind is the "soul" of the game. In the Legends version, weather effects like **Thor, Force, Mirror, and Tornado** are vividly recreated, requiring players to carefully calculate their moves before firing. A "Super High Shot" through a Force portal not only deals massive damage but is also a way to show off your skills against your opponents.

## 3. Avatar System

Beyond just aesthetics, the **Avatar** system in Gunbound Legends also provides important stats such as:

1. **Attack:** Makes bullets hit harder.
2. **Defense:** More resilient to enemy fire.
3. **Popularity:** Increases the amount of gold and experience received after each match.
4. **Delay:** Gives you an extra shot before your opponent.

## 4. Guild community and ranked arena

Join a **Guild** to compete with your brothers in fiery 2v2 and 4v4 battles. The ranking system, from Chicken, Wooden Hammer to Silver Dragon, will be your chance to etch your name on the legendary leaderboard.

## Tips for beginners

If you're new or haven't played Mobile in a while, spend some time in **Training** mode to familiarize yourself with the power bar and angle calculation for each Mobile type. Don't forget to use support items like **Dual, Teleport, or Blood** wisely to turn the tide in critical situations.
