

Instructions on how to download applications, games for iPhone and iPad

For users of iOS devices, it is possible to download the application, or the game we can download right on the App Store or via iTunes software.

With iOS devices such as iPhone and iPad, to be able to experience unique applications or super cool games we can download directly from the App Store, or via iTunes software. However, for those who just switched to iOS devices, the application loading is still quite strange. If you are still not proficient in downloading applications or games for iPhone and iPad, then refer to the following article of Network Administrator.

1. Download the app on the App Store for iPhone / iPad:

This is considered to be the easiest and fastest way to download applications for users. We just need to access the App Store and then search for the application we want to download. However, to be able to download games from the App Store, the device needs WiFi or 3G connectivity.

1. Download the app, the game on the App Store:

Step 1:

You access **the App Store icon** on the device, then click **the magnifying glass icon** . Here, we will **enter the name of the application we want to download** and click **Find** .

2. Update apps and games on the App Store:

When you have a WiFi or 3G connection and access to the App Store, we will also receive notifications of the latest updates of installed applications and games.

At the App Store interface, you will see the **Update** section appear informing the number of applications with new versions, if any. When you click that you will see a list of all the applications that are up to version.

We just need to click the **Update** button to upgrade the new version to the application.

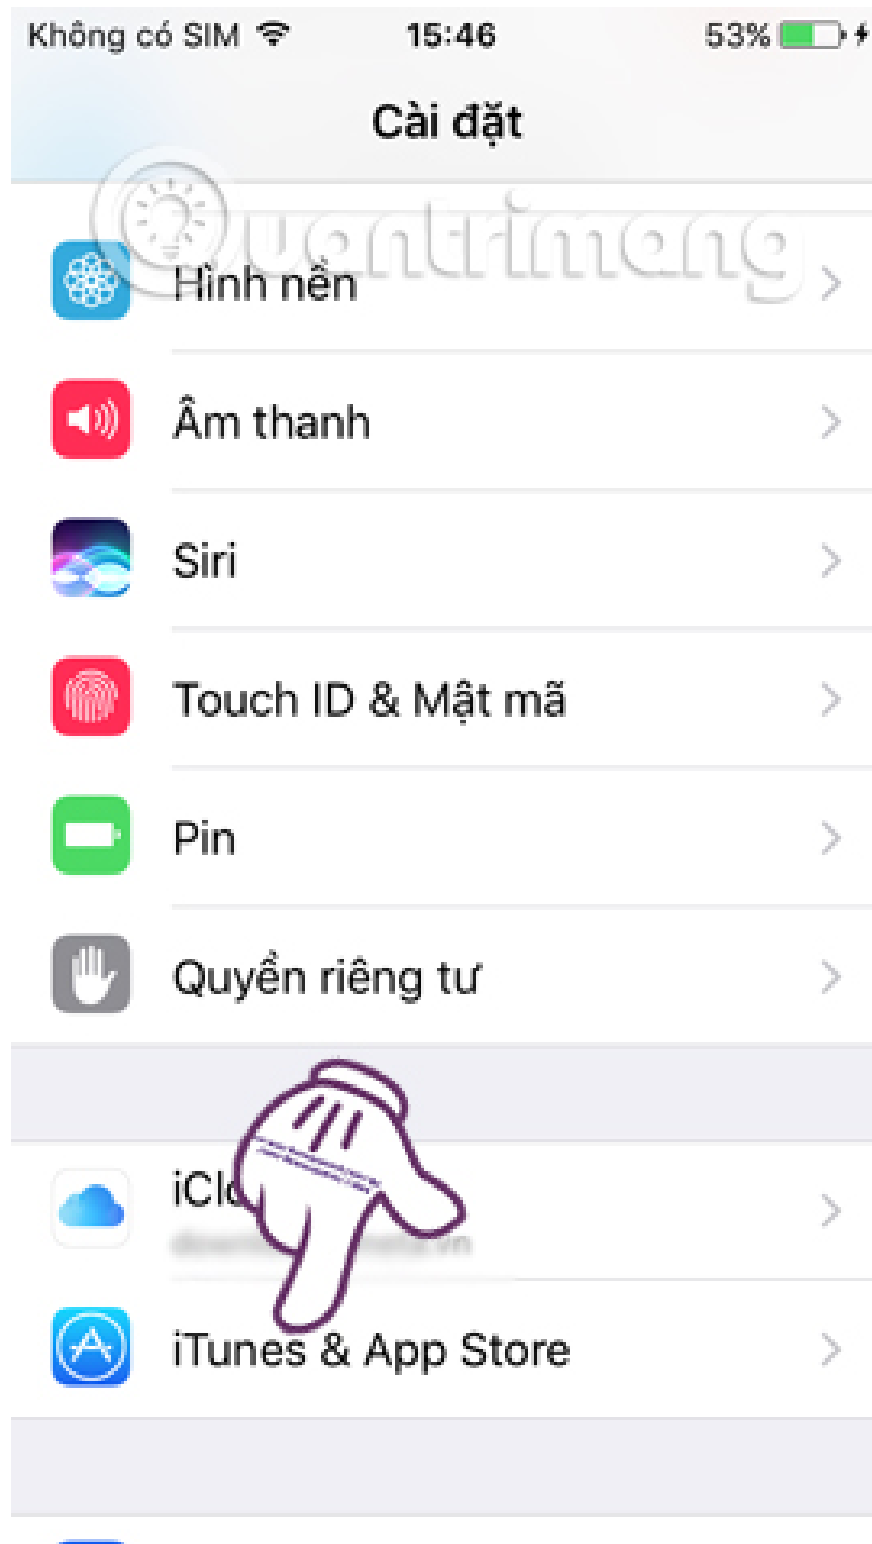

3. Set up automatic update of iPhone / iPad application:

If you want to quickly experience the features of the latest versions of apps and games on your device, you can set up the auto update mode.

You access **the Settings icon** on the device, then click on **iTunes & App Store** . In the next interface, the **Apps** section and **Update push the horizontal bar to ON mode** to enable the automatic update of the app or game.

However, note to users when you let the automatic update of games and applications will cost a lot of mobile data. Or we can't control which applications are updating. To **turn off auto-update on iPhone / iPad** , **push the horizontal bar to the left of Use Cellular Data** to switch to Off mode.

2. Download the application on iPhone / iPad via iTunes:

1. Download the free iTunes software

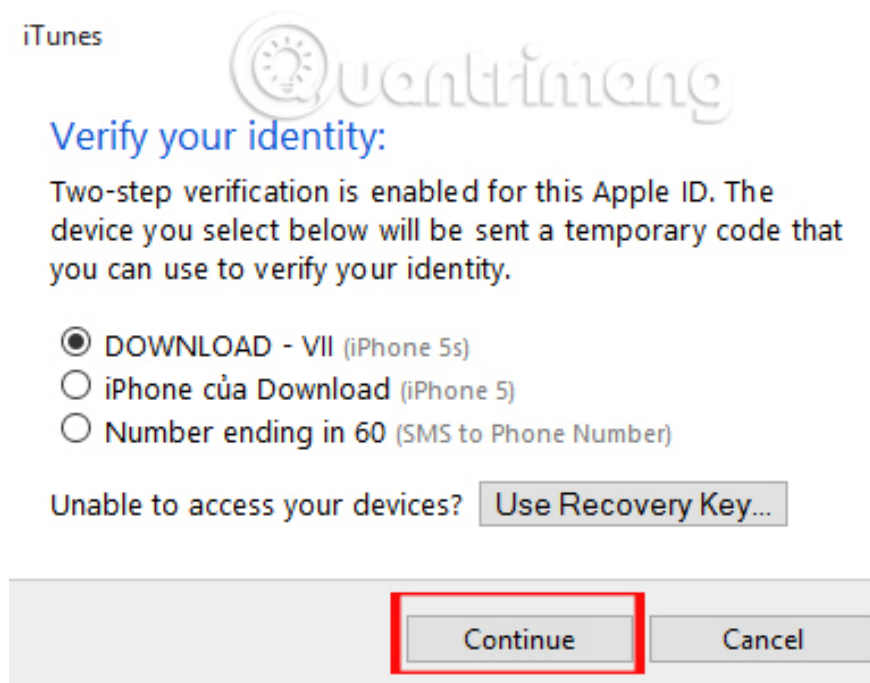

In addition to downloading applications or games directly on the App Store, you can also download them via the iTunes software.

Step 1:

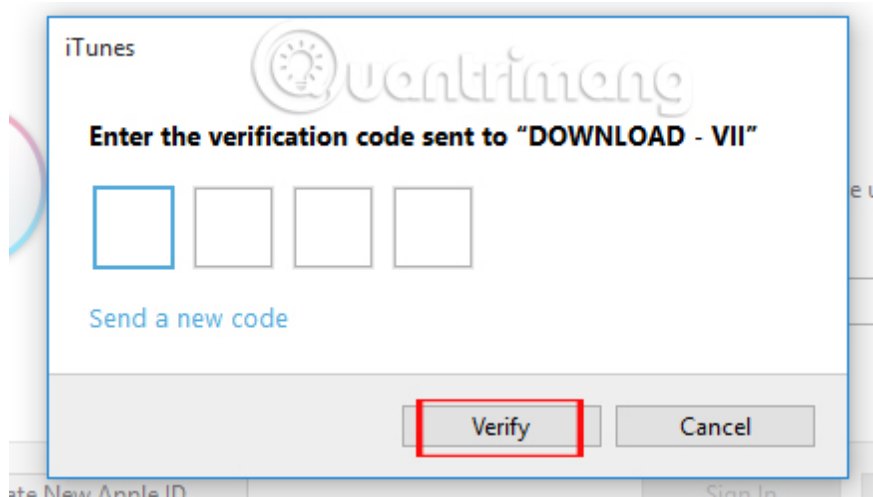

First of all, we need to connect the device to the iPhone. At the interface on iTunes, you will **log in to your personal Apple account** and then **click Sign in** below.

Soon you will receive an iTunes notification about entering the verification code, click **Continue** to continue.

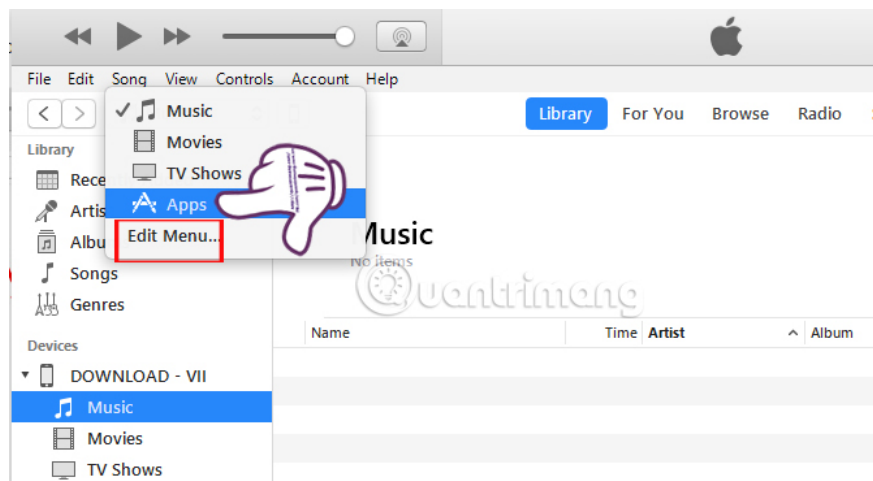

Finally, you just need to **enter the verification code on the iTunes interface** sent to the phone, **press Verify** to finish.

Step 2:

Go back to the iTunes interface. Here, we click on **the Music section** above and **select Apps** . **Note to readers** if in the drop down menu there is no Apps section, then click on Edit menu and select Apps to appear outside the list.

Step 3:

Next, click on **Apps in App Store** .

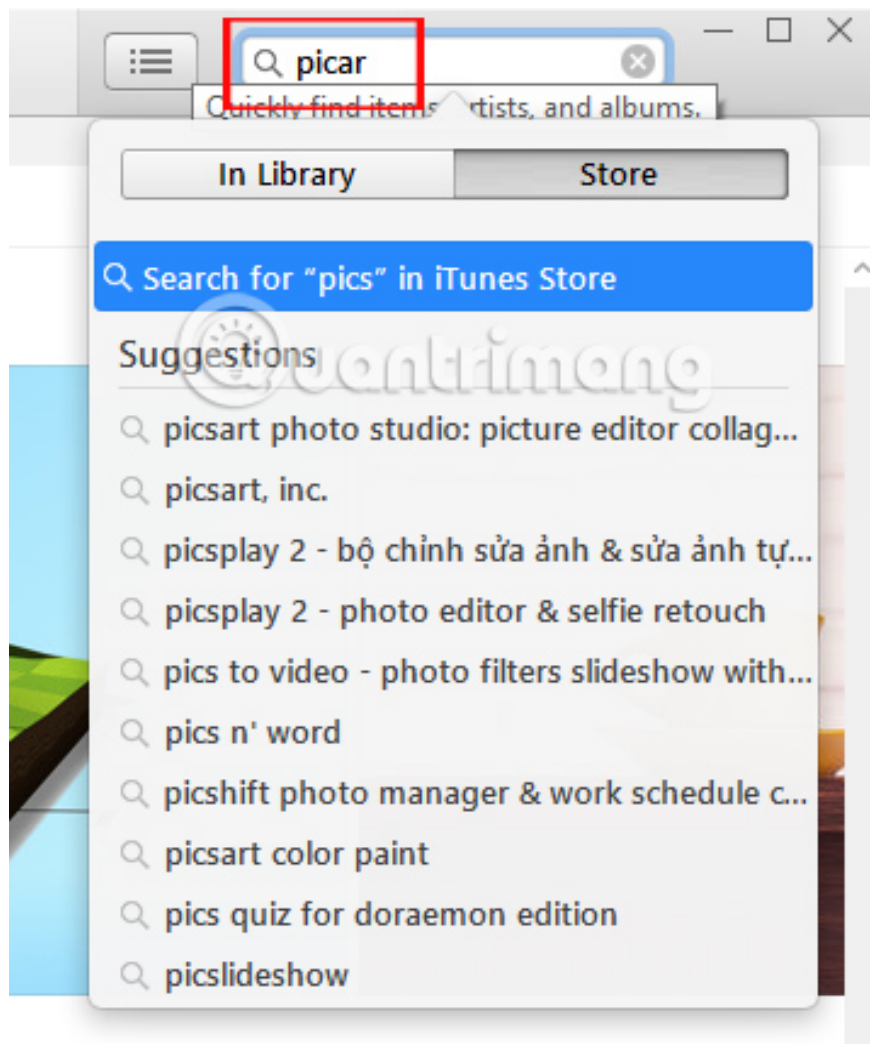

Apps

Apps you download for your iPad, iPhone, or iPod touch appear in your apps library.

Step 4:

To the App Store interface, we **enter the app or game name you want to download on iTunes to your iPhone device** .

Step 5:

After you have found the right application or game you want to download iPhone from iTunes, you just need to **press the word Get** . In this interface, choose the device you are using iPhone or iPad.

Appear the **Apple ID password login** interface. Please enter the correct account, then **click Buy** to have the app for iTunes.

Step 6:

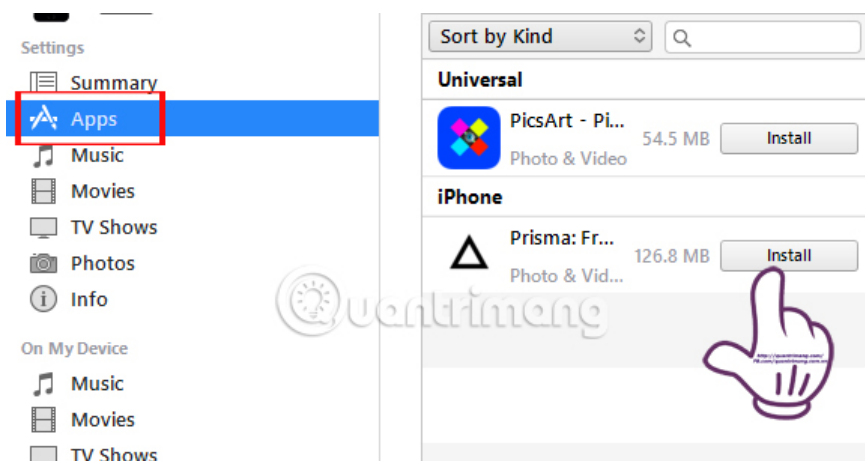

Next, click on **the iPhone / iPad icon** on the iTunes interface.

Step 7:

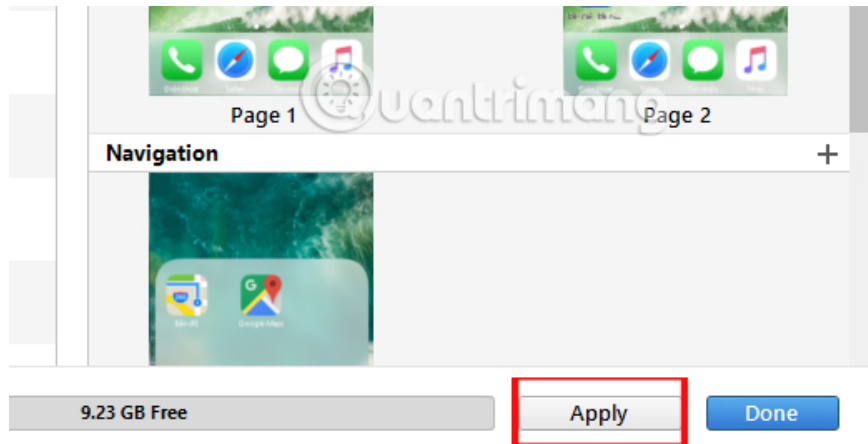

We wait for the app to download iTunes, then in the menu list on the left you choose **Apps**. App appearances and games that we have downloaded to iTunes. Click **Install** to install the application for iPhone.

Or we can drag the app to the Home screen next to the interface.

Step 8:

Next, **click Apply** below to proceed to install the application, the game to the iPhone device is finished.

The above are two ways to guide users to download applications for iPhone and iPad devices, directly on the App Store or via iTunes. Depending on each case, we choose to use 1 of 2 ways to download the application on iPhone / iPad.
